NO TROUBLE OVER INSURANCE CLAIMS IN DEATH OF SOLDIER

No Delay Likely.

ers who left with Canada's first contingent in takig out life insurance policies, as some felt that even if they were killed in action their body might not be ound, or some troubel arise so that their death ould not be proved, so their relatives and dependents would never benefit by the insurance, Mr. F watson, Assistant Manager of the City Agency of the Sun Life Assurance Company, stated this morning that there was no need to worry along this score as there was no trouble in the matter during the ast Boer War. When the Government was satisfied that the man was dead, the claim was immediately paid. If, of course, the man was only reported missing, it was necessary to find if he was a prisoner or not after the war was over, and if the missing man was not among the prisoners transferred, he would was not among the prisoners transferred, he would no doubt be considered as dead by the Government, and the claim would be paid.

If a soldier was killed there was little chance of

his not being identified as his clothing was marked in many different places.

TWENTY FIREMEN ARE OVERCOME BY SMOKE

Serious Fire in Basement of Montreal House Fur-nishing Company, Proved Difficult Task for Firefighters, Owing to Smoke.

Twenty firemen, including five officers, were overcome by smoke and nearly asphyxiated in the basement of a burning building at 454 St. Catherine st.

The fire broke out at 6.30 in the basement of the Montreal House Furnishing Company, and rapidly spread to the ground floor, threatening several buildings in the neighborhood. The cause of the blaze is supposed to be spontaneous combustion, as t started in a pile of mattresses, at some distance from the furnace. The smoke was dense and poured from the doorways in thick clouds.

Man after man ran into the cellar, only to be overcome by the impenetrable smoke.

As soon as the flames had been partly subdued, the rescue of the unconscious men from the basement was begun. Twenty firemen were brought out and Lieut.-Col. W. W. Burland, 2nd in command of the street, rendered first aid. Ambulances were called, and fourteen of the men whose conditions were serious, were rushed to the hospitals. Oxygen was administered immediately, but in some cases the doctors had to work on the men for hours, before they brought them around.

Among those who were able to be treated at the stations or at their homes was District Chief Causalian or at the homes was District Chief C laid on the pavement. Dr. Corsin, 232 St. Andre street, rendered first aid. Ambulances were called,

thier, Chief Gauthier, who only assumed his duties a few weeks ago, was one of the first to enter the burning building at the head of the men from his ict. With Lieutenant Joduin, of No. 7 station: Captain Groulx of No. 5 station; Captain Messette. of No. 7 station; Joseph Hiroux, of No. 7 station; and J. Herbert, of the salvage corps; Chief Gauhier refuesd to go to the hospital, but returned to

his duties after he had received first aid. At the General Hospital were D. Rioux, E. Turcotte, A. Gavereau, Albert Brisebois, Arthur Dugal, Alexander Ouellette, Damas Herve, and Joseph Clai. apoleon Levesque, Albert Gauthier, Andre Volscau, Freman Dupont and Captain Charpentier, of No. station, were taken to the Notre Dame Hospital, Captain Charpentier being in a serious condition.

CITY OF TORONTO TRIES TO INSURE SOLDIERS' LIVES

-Chief Trouble is if Man is Reported Missing n Laudable Attemp It Will be Hard to Prove Him Dead.

The city of Toronto is endeavoring to devise means to satisfactorily insure the lives of the men who are in the service in the great war. The plan has met with a number of obstacles apparentecause nobody has hit upon a scheme which will ork out with satisfaction to everybody concerned The basic proposal is to insure every volunteer for 1,000. It is desired to so arrange this insurance to that the city can pay to dependents of the soldier disappears from the muster rolls.

It is pointed out that all of the plans presented are osed by one big obstacle. That is, that in case Insured is reported missing it will be hard to Trust, and Captain H. F. Walker, with the National Trust.

Another objection is that each soldier, regardless of his circumstances, would be insured for \$1,000. among the volunteers are men whose dependents would not be in need of financial assistance in case of death. In other cases \$1,000 would not be enough Sull another objection is that if the plan goes through a great number of men who would naturally callst from other places would come to Toronto.

The first contingent is now on the other side and the first contingent is now on the active fighting occurred yesterday. The first contingent is now on the active fighting occurred yesterday. PHLADE PHA THE DEPT. IS IN BAD CONDITION

ort on the Philadelphia fire department, sub

A report on the Philadelphia fire department, submitted last week by the Board of Trade's committee on municipal affairs, says in part:

"Pole lines are in a bad condition owing to the failure to renew a sufficient number of poles annually. The department has frequently called attention to these conditions, and has asked for an appropriation of \$500,000 to rectify them.

"The fire hose was examined by the underwriters' engineer, and he found that more than 40 per cent of the hose is more than five years old, and bursts at fires are of frequent occurrence.

"The order to detect defective lengths, hose more."

The order to detect defective lengths, hose more than three or four years old should be tested annually at a pressure of 200 pounds. The Philadelphia authorities, however, are afraid to make such tests under present conditions, as they know that so much the first that the denariment would be said. hose would burst that the department would be sad-ly crippled."
