Just Put Clothes In—the Washer Does the Work

If you have a gasoline engine—if you have electric power—then no longer need you even work the lever of a hand-power washing machine. Let power help your work as it does your husband's!

Of course you realize that a washing machine, even run by hand, is quicker, easier, better than washing by muscle-power. But here's a washer that does everything—all you have to do is "turn on the juice."

Maxwell

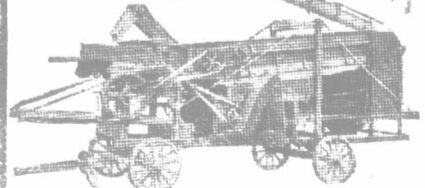

Power Bench Washer

—will do the washing while you do other work! No need to watch it—it can't go wrong. It will do the wringing too. Easy to operate—simple and strong in construction—perfect in mechanism. Made in one-, two-, or three-tub size; operated equally well by 1/6 h.p. electric motor, or any gasoline engine. Write us to-day for full particulars—it will be time well-spent.

"BACKBONE"

It means something to the farmers of Canada to have an independent farm journal that is out to battle for their interests, without fear or favor, year in, year out, asking nothing at the hands of cliques, parties or moneyed interests, refusing to be bought, flattered or frightened. It means something to this paper to possess backbone when fighting for its readers' rights.

HELP US FIGHT HARDER!

We're willing to repay you for a few minutes' time. One new subscriber at \$1.50 a year in advance, earns you six months free on your own subscription. By just getting two subscriptions, you earn your paper for a year without charge. Pretty fair, isn't it? Use the coupon below in sending in new names.
