Consider Your Roofing

It should be weather-proof, durable, and moderate in price. These features are very prominent in our "Safe Lock" Roofing, and, in addition, they are ornamental and fire-proof, but of still greater importance, they protect a building from lightning. There is no other metal shingle on the market as good as the "Safe Lock." They are made of a single sheet of galvanized steel; have no parts to get out of repair, and are so constructed that they interlock each other on all four sides, and are absolutely weather-proof, and should easily last fifty years.

Do not be misled with any of the cheap roofing advertised, but investigate our claims and you will use the "Safe Lock," and have lasting satisfaction. Send size of roof for special estimate and free catalogue, and if you desire samples, will send them by express.

"Success" Manure Spreader

The beater drive on the "SUCCESS" Manure Spreader dispenses with the complicated gears, pinions and sprockets found on all common spreaders—is more simple to operate, never gets out of order, decreases the friction, and therefore reduces the draft and saves your horses. Will last a lifetime.

No other spreader is equipped with this beater drive.

And no other spreader has the many other improvements found on the "SUCCESS."

We have hundreds of testimonials from leading farmers who have used it.

Write for free booklet—it tells all about the "SUCCESS."
