

Cooks and Bakes perfectly at the same time

There is not another range built in which the heat may be regulated so that you can bake in the oven and cook on the top at the same time without spoiling one or the other.

But you can do both equally well at the same time on the Pandora, because its heat is not wasted and is at all times under the simplest, most positive control.

If you do the cooking of your household you can appreciate exactly what this means.

McClary's Pandora Range

Warehouses and Factories: London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton

SHROPSHIRE

Good young rams and ewes FOR SALE.

W. D. MONKMAN, Bond Head, Ont.

QUESTIONS AND ANSWERS. Miscellaneous.

WIDTH OF HORSE STALLS.

What is considered the best width for horse stalls? G. T. A.

Ans.—Five feet is sufficient for any except very large horses, for which six feet is better.

FORWARDING BY EXPRESS.

I would like to send a mixed barrel of provisions, fruit, etc., to my sister in one of the suburbs of Manchester, Eng. I want that barrel to reach her without any charges at the other end. Are the carriers supposed to deliver the goods direct to the home? F. W.

Ans.—See your local express agent. Any express company will forward and deliver the parcel, charges prepaid.

FLY REPELLANT FOR COWS — POTATOES ROTTING.

1. What may be applied to dairy cows to keep away flies?

2. Our early potatoes are rotting badly. Would you advise digging at once, or leaving in the hills until fall?

Ans.—1. Several recipes for keeping flies off cows were given on page 1068, of "The Farmer's Advocate," issue of July 5th. Probably about the best one, all things considered, is the following, recommended by Prof. Dean, of Guelph: Fish oil, one-half gallon; coal oil, one-half pint; crude carbolic acid, four table-spoonfuls. Mixed, and applied to all parts of the cow, except the udder, once a week.

2. The proper course to pursue in this case depends upon the cause of the rotting. If it were due to fungus, which causes late blight, the wisest plan would be to defer digging for a time, till the infected tubers had died and saved the trouble of digging. It is scarcely likely that your potatoes would be rotting from this cause thus early in the season. More probably they are suffering from the bacterial infection which produces wet or brown rot, or may be they are simply undergoing the ordinary process of decay common to all vegetation. In either of the latter cases it would be best to dig at once, and store in a cool, dry place.

CREAM WILL NOT WHIP.

We have a part Jersey cow that has been milking about four months, and gives splendid milk. We put the milk in a creamery can, and set it in the refrigerator; let sit twenty-four hours before skimming. The cream rises well, but will not whip, though I have tried skimming it lightly, and other times have skimmed it somewhat heavier, but, in either case, the cream whips to butter. During the winter months, the cream whips all right. (Mrs.) C. E.

Ans.—The fat globules in the milk of Jersey cows are very large, consequently the cream both rises and churns very rapidly, though much more readily in the case of some cows than in the case of others of the same breed. In summer, when the weather is warm, and the feed (grass) succulent, the cream is more churnable than in winter, and the cream from a fresh-milch cow is also more churnable than that from one that has been long milking. These facts go to account for the fact that your cream can be whipped successfully in winter, but not in summer. We would advise you to try letting the cream get rather old, say twenty-four hours old before whipping; then beat very rapidly. There are special glass cream-beaters, which will successfully whip cream that an ordinary egg-beater will merely churn.

At the auction sale, on Aug. 7th, of a draft of Shorthorns from the herd of W. H. Earles, Milwaukee, Wis., the 44 head sold averaged \$206, the highest price, \$730, being realized for the roan six-year-old cow, Sappho, by Prince Armour, purchased by the Flynn Farm Co., Des Moines, Iowa. The second highest price, \$525, was paid by W. I. Wood, of Ohio, for Rosa Fame 2nd, a roan, eight-year-old cow, sired by Imp. Royal Member, and bred by H. Cargill & Son, Cargill, Ont.

Kidney Disorders

Are no respecter of persons.

People in every walk of life are troubled. Have you a Backache? If you have it is the first sign that the kidneys are not working properly.
