

**The Down Draft Principle of Heating**

The Down Draft Principle in furnaces is the latest device in warm-air heating. By it the cold and foul air from the living room above are drawn to the top of the fire. There all the impurities in the air are destroyed, with the result that a much more healthy air is produced than by any other furnace.

The gas in the fuel is burned, and as the gas produces the most intense heat, that benefit also is derived. This is not the case with direct-draft furnaces where the gas is sent up the chimney and the heat lost. Every particle of heat is extracted from the fuel and less clinkers and less ashes are produced.

The Down Draft method of heating reduces your fuel bill from 10 to 30 per cent, a fact which should make you want to become acquainted with the merits of this fuel-saver. This you can do at once by sending for a catalogue.

Every furnace has our celebrated triangular grate bars which clear the fire easily and economically; and large ash pan, water pan, check damper, chain, and automatic damper regulator, etc.

Lethbridge, Alberta,

or  
Osler, Hammond & Nanton,  
Winnipeg, Man.

NOTE.—In 1905 the first car of winter wheat was shipped from Lethbridge on August 12th.

**BOYS FOR FARM HELP**

The managers of Dr. Barnardo's Homes invite applications from farmers, or others, for the boys who are arriving periodically from England to be placed in this country. The young immigrants are mostly between 11 and 13 years of age; all will have passed through a period of training in Dr. Barnardo's English Institutions, and will have been carefully selected with a view to their moral and physical suitability for Canadian life. Full particulars as to the terms and conditions upon which the boys are placed may be obtained upon application to Mr. Alfred B. Owen, Agent Dr. Barnardo's Homes, 214 Farley Ave., Toronto.
