

MRS. JOHN HENDERSON
WAS SO RUN DOWN
LIFE NOT WORTH LIVING

A Few Bottles of Peruna
Restored Me to Health

Mrs. John Henderson, 2 Overdale Ave., Montreal, Can., writes: "I was much distressed with neuralgia and was so run down that life was not worth living. I tried a great many remedies, but all to no effect. "I met a friend of mine, and told her of my ailment. She advised me to try her remedy, Peruna. "Although I had no faith in Peruna, I took her advice, and am pleased to state that the neuralgia has entirely left me, and have gained so in health that I feel just like my old self again. "I am enjoying the best of health. We have on file many thousand testimonials like the above. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is receiving.

Scarlet fever is again epidemic in Kirkcaldy. A case of spotted fever is reported in Kirkcaldy. The Kirkcaldy linoleum factories may soon be running full time. About 500 tons of coal have been lost by the big fire at Dora Pit, Little Raith Colliery. This has been the poorest summer for herring fishing on the east coast in 30 years. The Aberdeen Steam Navigation Co. have placed an order for a new steamer with D. & W. Henderson, Patrick. The Italian Ambassador to Great Britain was entertained to luncheon by the Italian colony of Edinburgh and Leith. Mr. Duncan Campbell has been appointed chief superintendent of the telegraph branch of Glasgow General Post Office. There is a sad falling off this year in the number of visitors to Burns' Cottage at Alloway. Even the American rush has dropped off greatly. Rapid progress is being made with the erection of the new slaughterhouse for the Aberdeen Flesher Incorporation in Hutcheon street, Aberdeen. Something of a crisis is approaching in Aberdeen, owing to the gloomy outlook for the winter in

There is in possession of Mr. Jas. Young, Alderwood, Ayr, a pocket ink bottle which Burns used when he was an exciseman. It is contained in a leather case four inches in length and one inch in breadth.

Kilmarnock folk are determined to assert a right-of-way through Dean Castle grounds. The gate placed across Dean avenue by Lord Howard de Walden's factor was forcibly removed and thrown into the river.

The late Mr. John Munro, merchant, Elgin, in addition to other bequests, has left his dwelling house, The Knolls, to be converted into an incurable hospital, and the rest of his estate as an endowment for the institution.

In the old Kirkyard of Largs is to be found an interesting place of sepulchre, called Skelmorile Aisle. The legend runs that it was erected in 1630 by Sir Robert Montgomery as an act of expiation for a cruel and blood-thirsty act in early life.

The late Mr. Alex. Young, cashier, Dundee Ironworks, Coatbridge, who committed suicide in Edinburgh, was well known and very popular in the town, and his character was above reproach. He was session clerk in the Lundyvan parish church.

BEST IVORY FROM AFRICA.

Ivory comes from hippopotamus teeth, walrus tusks, narwhal horns, whales' teeth and boars' tusks. At present ivory costs about \$7,200 a ton; the price of billiard ball ivory has reached the record figure of \$860 a hundredweight. The best ivory comes from Africa. Mammoth tusks are found in extraordinary abundance in Siberia principally, but they are not very highly esteemed, though they run to an enormous size and indeed hold the record, being sometimes twelve feet long and weighing 200 pounds. The natives of Africa regard ivory as the standard of wealth and store it up in their villages for hundreds of years, constantly adding to their stock, and thus the supply continues and will continue for many years.

Attacks of cholera and dysentery come quickly, there seldom being any warning of the visit. Remedial action must be taken just as quickly if the patient is to be spared great suffering and permanent injury to the lining membranes of the bowels. The readiest preparation for the purpose is Dr. J. D. Kellogg's Dysentery Cordial. It can be got at small cost at any drug store or general dealer's, and it will afford relief before a doctor can be called.

They Drive Pimples Away. — A face covered with pimples is unsightly. It tells of internal irregularities which should long since have been corrected. The liver and the kidneys are not performing their functions in the healthy way they should, and these pimples are to let you know that the blood protests. Parmelee's Vegetable Pills will drive them all away, and will leave the skin clear and clean. Try them, and there will be another witness to their excellence.

"Selling a deodorizing powder."

"Last time I saw you you were selling an insect powder to be sprinkled on the floor."

"I know; now I am going round to the same houses selling this disinfectant to get the smell of the insect powder out of the house. Next week I'll sell a mixture to drive away the smell of the disinfectant."

"So! Miss Mary, dey tell me dat you shall tell my garachter by my hand!" "Well, to begin with, you're a German." "Arch! it is wonderful!"

GOLD GUNS MELTED.

Costly Weapons of an Indian Prince
Converted Into Bullion.

I learn with profound regret (writes a Westminster Gazette correspondent) that H. H., the Maharajah Gaekwar of Baroda has melted down and converted into bullion the celebrated gold and silver cannon of Baroda. I say "with profound regret" for sentimental reasons.

Of these costly but useless toys, the silver guns were the inspiration of the former Gaekwar. In order to "go one better" than his predecessor, the late Gaekwar (he who was charged in 1875 with the attempted murder of Col. Phayre), had the gold guns cast and mounted at a cost, it is said, of £100,000. They reposed in the state armory and were the wonder and admiration of all visitors to the capital.

On State occasions, however—such as coronations, marriages, etc.—the gold and silver guns were always brought out to take part in the procession. They were "horsed" by teams of magnificent white oxen, which were fittingly caparisoned, i.e., in cloth of gold for the gold guns and cloth of silver for the silver guns.

The native gunners and drivers regarded their charges as sacred and the writer has seen offerings of rice, fruit, fowls, etc., deposited upon the muzzles of these weapons in the Baroda barracks. Such offerings have now "had their day and ceased to be." For the present Maharajah-Baekwar happens to be a man of both practical politics and practised economy, and he would not maintain the "guns" for merely sentimental reason.

Sniggins (angrily)—"Do you know that your chickens come over to my yard?" Snooks—"I supposed that they did, for they never come back again."

For Inflammation of the Eyes. — Among the many good qualities which Parmelee's Vegetable Pills possess, besides regulating the digestive organs, is their efficacy in reducing inflammation of the eyes. It has called forth many letters of recommendation from those who were afflicted with this complaint and found a cure in the pills. They affect the nerve centres and the blood in a surprisingly active way, and the result is almost immediately seen.

A DUBIOUS PROPOSITION.

"Is the man you pointed out to him a law-abiding person?" "I don't know that you could call him that, yet he fairly lives in the courts."

It will be noticed in the Singer Sewing Machine Company's advertisement that there are three addresses at the bottom of the announcement. Any one writing will please address them at the nearest one of the three places to his post office.

Singer Talks

7. Singer First Cost is the Whole Cost

Of course you can buy a sewing machine for less money than you would pay for a Singer—all the world knows that. But consider this: When a Singer is bought and paid for, it is paid for—it lasts a lifetime.

A cheap machine is never paid for. Every cent expended for repairs must be added to the original cost—it's an endless system of instalments. These instalments, added to the first cost of the machine, soon exceed the cost of a Singer, and after each successive repair (if you can get another part) the cheap machine grows more and more second-hand—one step nearer the junk heap.

The time lost, the trouble and the worry outweigh many times over the difference in the cost between the "cheap" machine and the Singer.

There are two kinds of machines—good and bad—and the good kind is the Singer.

THE MOST APPROPRIATE.

"How is Nell going to make up that flame-colored dress?" "I guess with a flare skirt."

The never failing medicine, Holcway's Corn Cure, removes all kinds of corns, warts, etc.; even the most difficult to remove cannot withstand this wonderful remedy.

Tiny tubercles on the skin of scrofulous people produce the hideous disease called lupus. Weaver's Ointment, used in time, will save the skin from destruction. Apply to all affected parts. Cleanse the blood with Weaver's Syrup.

"Are you going to settle anything on your daughter?" asked the young man with the cigarette and languid air. "Well, it rather looks, if she marries you, that she is going to settle something on me," replied the parent.

Death Comes to All.—But it need not come prematurely if proper precautions are taken. "An ounce of prevention is worth a pound of cure," and to have prevention at hand and allow a disease to work its will is wickedness. Dr. Thomas' Electric Oil not only allays pains when applied externally, but will prevent lung troubles resulting from colds and coughs. Try it and be convinced.

"You say she married for love; but I happen to know that the man she married is worth a million." "Of course; the million is what she loves!"

"Can you conceive," asked the professor, "an eternal vacuum, a portion of space unoccupied, an empty void, into which nothing ever enters, from which nothing can ever come, which maintains inviolate and for ever its own eternal emptiness?" "I can," replied the student immediately; "I have a 'fountain' pen."

It's queer how some people imagine they are having a good time when they do things you dislike.
