IS U. S. CHIEF ENGINEER.
With the American Army in France, July 14.—(By The Associated Press).—Major-General William C. Langfitt has been appointed chief engineer of the American Expeditionary Forces.

SHIPPING CONTRACTS LET.
By Courier Leased Wire
Washington, July 15.—Contracts for thirty additional steel cargo ships have been let by the Shipping Board to Japanese yards. Contracts also have been let for building twenty transports to the Bethlehem Shipbuilding Corporation at Alameda, Cal.

CONGRESS ON HOLIDAY.
By Courier Leased Wire
Washington, July 15.—The summer vacation of Congress began today. Both Houses met for routine business. The Senate adjourned until Thursday with agreement to Monday and Thursday sessions only until August 24. House leaders had similar plans.

MASTERS OF LOWER VOLGA.
By Courier Leased Wire
Amsterdam, July 15.—By the capture of Kazan, 430 miles east of Moscow, the Czech-Slovaks have become masters of the government of the Lower Volga, says a despatch from Moscow to the Berliner Tageblatt. The Czech-Slovaks, the despatch adds, also are utilizing War Minister Protzky's mobilization in the Ural Mountains on the Volga river and in Siberia for their own purposes by forming from recruits what they call "black guards" which they use to strengthen their own forces."

STRATFORD APPOINTS FUEL CONTROLLER.
Stratford, July 15.—The City Council to-night appointed William O'Donnell, local Fuel Controller. A by-law for early closing of stores selling furniture and household goods and furs was passed, and a fuel by-law authorizing \$15,000 expenditure for wood was given third reading and passed. Permission was granted the Teachers' Reading Circle to hold a Chatauqua here without payment of license. Dr. H. Baker was appointed to take the place of the late Geo. McLagan on the Park Board.

OFFER SHOPMEN M'ADOO AWARD

Decision Reached at Conference of Cabinet and the Railway War Board

MAY AVERT A STRIKE

Railways, It is Understood, Will be Allowed a Rate Increase

Ottawa, July 15.—To every railway employe in Canada, male and female, whether a member of a labor organization or not, the Railway War Board, representing all the private roads in the Dominion, both privately-owned and Government-owned, offers an increase in wages in accordance with the terms of the McAdoo award in the United States. Not only does it introduce that scale as it now stands, but it also agrees to adopt amendments which may be presented by the workers. It is a result of present negotiations between certain railway organizations and the Government of the United States.

This announcement was made late to-night at the conclusion of a conference between the Canadian Railway War Board and the members of the Cabinet. By placing wages on Canadian railways on a parity with those on roads in the United States it is hoped that labor disputes here will be averted.

The proposal made by the Railway War Board does not connote any change of attitude in the negotiations which have been in progress in Montreal between that body and the secretary of that organization, Secretary W. M. Neal, of the Railway War Board, expressed the willingness of the railway to accord to Canadian shopmen the increase granted in the McAdoo award, and the amendments thereto, in corresponding territory.

Whether or not the Federated Trades will accept the proposal it is difficult to state. It is believed here, however, that the Railway War Board's proposition will commend itself to other railway organizations. Some are said to have been asking about the application of the new United States schedule to Canada.

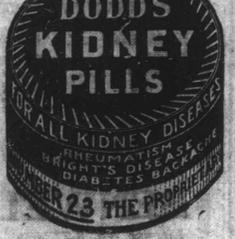

The suggestion of the Railway War Board is that the scale of increases shall be effective from the date of the expiration of the agreement which the several railway trades are now working. Some of these terminated on April 30, and in those cases the new rates will be applicable from May 1. Other agreements expire on July 31, and the increases will be operative from August 1.

Provides Graduated Scale
The McAdoo award provided a graduated scale of increases in the salaries of all employes of United States railways who were receiving less than \$250 a month. The percentages were based upon wages paid on December 31, 1915. The application of the McAdoo scale in the United States involved an increase of from \$200,000,000 to \$400,000,000 a year in railway operating costs. In Canada the adoption of that scale will, it is estimated, add somewhere in the neighborhood of \$45,000,000 to the expenditure of the railways.

To meet the increased cost of operation, it is well understood here the railways will be granted an increase in freight rates. United States railways have in the past year been allowed to increase freight and passenger rates on three occasions. First, an increase of approximately 5 per cent. was authorized; then a second increase of 10 per cent. was sanctioned, and finally, a third increase of 25 per cent. was permitted.

In Canada freight and passenger rates were raised approximately 15 per cent. this spring. The further augmentation now about to be accorded will, it is said, apply to freight tariffs, but not to passenger rates, just what percentage of increase will be permitted to provide for the added expenditure in wages has not yet been determined. The determination of the amount hereof, presents a somewhat difficult problem, inasmuch as the new tariffs must be equitable to both railways and shippers.

The War Board's Statement.
The statement of the Canadian Railway War Board follows: "The Canadian Railway War Board issued to-day an order increasing the wages of railway employes in Canada as follows: That not later than the first of August 1918, and so much earlier as the various wage schedules have expired, dating back in many instances to the first of May, 1918, the so-called McAdoo award affecting the wages and hours of service of railway employes in the United States shall be put in force in Canada. This decision has been reached after prolonged consideration and will apply to all railway employes whether male or female, earning on Dec. 31st, 1915 less than \$3,000 per annum. The increase in each and every case applies to the position.

IMPRESSON GOOD AFTER FIRST DAY OF ENEMY THRUST

The Results of Yesterday's Fighting on the French Front are Satisfactory

By Courier Leased Wire.

On the French front, Monday, July 15.—(By The Associated Press).—The impression of the results of the first day's battle in the new German smash on the French front is gained generally on the southern side of Rheims, although orders found on German prisoners announced that the first day should take place generally on the southern front line of departure.

On the battle front east of Rheims the enemy did not even get beyond the advanced line, the invincible resistance of the French troops preventing him from attaining the main combat line. With the French on the section west of Rheims, fought American and Italian troops, French and British, and other Allies in keenness and courage.

It was a brilliant operation in which the American troops ejected the enemy from the positions he had gained on the southern side of the Marne. The Americans counter-attacked vigorously this evening with remarkable dash, driving the Germans back across the river near Poses.

Earlier in the day this part of the line had been the scene of the most desperate fighting, when the Germans started to throw pontoons across the stream. A few German elements succeeded in getting over in boats, chasing the Allied troops away from the banks while in American engineers began to lay the bridges. Six of these bridges formed a lattice work and rapidly joined the banks on either side. Two of the bridges were most substantial, each between 20 and 40 feet in width.

French airplanes played great havoc in the German ranks while the bridges were under construction. The German planes were shot to height of 200 metres, dropped bombs on two of these bridges while enemy troops were crossing. The bridges were broken and the soldiers thrown in the river.

The aviators constantly bombed the other bridges and did great execution among the Germans on the bridges as well as on the banks where the enemy was concentrated in great masses.

When the Germans had crossed the river, the fighting which already was heavy, became fiercer. The French and Americans, holding the southern side fell back onto their principal combat positions. They fought all the way and counter-attacked occasionally, creating confusion in the ranks of the advancing foe.

Then, late in the evening, the Americans started a dashing counter blow which resulted in the Germans withdrawing pell-mell to the river.

REINHARDT KILLED.
By Courier Leased Wire
Amsterdam, July 16.—Captain Reinhardt, commander of the air squadron of the late Captain Baron von Richthofen, has been killed during a trial flight. The Lokal Anzeiger says. The squadron claims 177 aerial victories under Captain Reinhardt.

TO WITHDRAW PROCLAMATION?
Peking, Saturday, July 13.—(By The Associated Press).—The British, French and Japanese ministers to China have strongly protested to General Horvath, the anti-Bolshevik military commander, who has formed a temporary cabinet for Siberia, asking him to withdraw his dictatorship proclamation on the ground that it is unwise and untimely.

The proclamation, the ministers say, is calculated to cause a situation which may impede the movement of the Czech-Slovaks which movement at the present time is all important. General Horvath is requested to reply to the diplomatic protest.

ALDERMEN MUST NOT HOLD TWO POSITIONS.
Peterborough, July 15.—By the effect of one of the latest amendments to the Municipal Act, Ald. John Edgar must either resign from the City Council or relinquish his honorary office of Fuel Commissioner.

The same Statute demands the resignation of both Ald. Jos. Saunders and Ald. William Langford from either the council or the local board of health to which they were appointed by the council. Mayor G. H. Duncan to-day stated that the new Act will have to be entered.

ALBANIAN DRIVE GOES FORWARD

Pursuit Column in Devoli Valley — Austrians' Admissions

By Courier Leased Wire.

Paris, July 15.—The War Office says to-day: "Entirely unprovoked July 14.—On the Struma, patrol engagements resulted in favor of the Greeks. West of the Vardar and north of Monastir, the enemy displayed great military activity. In the region of the Lakes, west of Progradska, we repulsed a Bulgarian raid."

An Albania one pursuit column in the Devoli Valley has gone beyond Gramsh and reached the outskirts of Cerkini and Cruja, where it is in contact with the position organized by the Austrians. The number of our prisoners has been increased by about fifty. Our left has joined with the Italian right, which occupies the heights of Cafa Darsa."

Vienna, July 14.—The Austrian War Office admits further advance by the allies in Albania. Its report says: "Albania the enemy is gradually pressing forward against our new line of resistance. In the Devoli Valley a French squadron has been repulsed."

Failure to Register Brought Fine of \$180.
Woodstock, July 16.—Stephen Palmer, of Norwich, was fined \$180 in the police court to-day for failing to register. He gave as his reason for not registering that his motor car registration was only for the purpose of getting men under the M.S. A. and he "was not going to be a military man." The fine was \$10 a day for each day Palmer had not been registered, which totalled up \$90. The court was also asked to pay \$130 costs on a charge of having obscene pictures in his possession.

GAS REGULATIONS.
Sarnia, July 16.—Gas regulations have been somewhat modified, according to orders from the Dominion Railway Board to the local Gas Company. Gas for instantaneous heaters in barber shops and stores is now permissible. Living apartments over stores or offices will be allowed use of gas, but these stores will have to install other means of heating. Owners of stores with living quarters above will have to operate two heating plants if they wish to use gas, as this commodity will not be allowed to be used in offices or stores.

EDITORS SAW TROOPS.
By Courier Leased Wire
London, July 16.—(Via Reuter's agency).—The party of Canadian journalists, who are guests of the ministry of information, visited the largest military center in England yesterday, where they witnessed the final gas mask tests. Here the use of the drafts are sent to France. They also witnessed gun drill and barbed wire parade in which the Canadians completed a section of fifty yards of entanglement in fifteen minutes. The party was subsequently present at a splendid bayonet display by men from the provinces of Saskatchewan, Alberta and Quebec, many of whom only a few weeks ago were working on Canadian farms.

Major Geo. Peckis, M.C., V.O. of Victoria, who has been in nominal command of the 116th Battalion since the beginning of the present year, has been promoted to lieutenant-colonel, with command of the unit.
