A MAJDLIN FESTIVAL
Degeneration of Tonlon's Demonstration in Honor of Russia's Fleet.

RUSSIANS NOT ENTHUSIASTIC
Brief Replies to Frenchmen's Effusive Speeches—Lush Expenditure of Money and Speech—German Views the Demonstration calmly.

Tonlon, Oct. 15.—Few persons slept in Tonlon last night. The streets were almost as crowded as on the 13th. The demonstration was held at three o'clock yesterday afternoon. The illumination of shops and private houses did not cease until after midnight and thousands sang and caroused under the electric light without a sign of weariness.

When the officers' ball at the arsenal closed shortly after six o'clock the dancers came out upon a street and sang and caroused. Bands playing the Russian anthems and the Marseillaise were leading from every side. At eight o'clock the great crush was worse than before since the celebration began. Everybody was shouting "Long live Russia!" "Long live the Czar."

Mayor Ferraro gave his luncheon in the name of the municipality at 11 o'clock. After the luncheon he presented a gold champagne cup to Admiral Avellan and a silver champagne cup to the Russian officer. The presentation speeches were effusive, but they evoked no corresponding response from the Russians. The Russian officers followed his example. None of the officers were leading to politics. Until evening the demonstration was remarkable for the absence of drunkenness and for every other line of enthusiasm degenerated into madly embracing and drunken howling.

The Mayor of Tonlon, the Prefecture and the Russian officers who have come from other cities. Later there was a performance at the Grand theater which the Russians attended at the invitation of the municipal government. The chief feature of the performance was a Franco-Russian ballet.

Tonlon, Oct. 16.—The streets are crowded and the enthusiasm of the people over the arrival of the Russian fleet continues. The harbor is full of craft and their owners charge fabulous sums to the excursionists who wish to sail out and view the warships. Later there was a performance at the Grand theater which the Russians attended at the invitation of the municipal government. The chief feature of the performance was a Franco-Russian ballet.

VALKYRIE NOT DISGRACED.
New England Sees the Result of the Contest for the Cup.

London, Oct. 16.—The Daily News says: "Yesterday's race proves that Valkyrie has not been sailing in anything like her proper form. The experiment of lightening her was a singularly bad one. However the Vigilant will deserve the prize that must have been given her. It will also be felt that she was not disgraced and that the Valkyrie when in proper trim is slightly if at all inferior to the best American boat."

The Times says:—"Yesterday's race will be memorable in the history of the race for the America's cup. It is only comparable to the race for the Breston Reef cup between the Britannia and the Navy-boat. Though defeated the Valkyrie did so well that her performance suggests a doubt whether her two previous discomfitures did her justice. The Valkyrie has shown herself the better boat to windward than the America would have us believe. Probably the only safe moral is that it is much easier to defend the trophy than it is to capture it, owing to the sagacity of the challenger crossing the Atlantic."

The Daily Chronicle echoes the sentiments of other papers and says:—"The Lord Dunsavon does not care again to challenge there are doubtless plenty of yachting men here willing to step into his shoes."

WAR OF EXTERRINATION.
Fanatical Tricemmen Pledge Themselves to a "Holy War."

Madrid, Oct. 16.—The Government received yesterday a long statement from the Governor of Melilla. The leaders of the Kabyles, he said, had just concluded a conference at which the representatives of thirty-one tribes had sworn solemnly to fight as allies in a war of extermination against the Spaniards at Melilla. In view of this information the Government ordered yesterday evening that an additional artillery force with thirty-six guns embark for Melilla.

Melilla Still Menaced.
Madrid, Oct. 16.—Despatches from Melilla say that the Moors are again meeting the garrison. They have fortified the highest positions near the fortress and are mounting cannon thereabout.

Will Great Britain Intervene?
Paris, Oct. 16.—The Memorial Diplomatic office origin to a rumor that Great Britain has offered her services as a mediator between Spain and Morocco in an attempt to settle the dispute between the two last countries regarding the indemnity demanded by Spain for the recent attack by the Moors upon the Spanish garrison at Melilla.

Moors Assault Europeans.
TANGER, Oct. 16.—The celebration of the Mohammedan festival Monday was a scene of rioting in a suburb of Fez, known as New Fez, and several Europeans were maltreated by Moors. A cook employed by a United States dragoon was set upon by a mob and severely injured. He was stoned and otherwise assaulted. He was severely wounded. He was followed by a French artist, who made sketches of the "Powder play," was greeted with a shower of stones. He would have been killed had it not been for a Moorish soldier and a foreign postal official, who intervened to his assistance and extricated him from the mob at considerable peril. Several outrages of a similar character have since occurred. A number of those who took part in the rioting have been arrested.

MUST COMPROMISE.
In No Other Way Can Republicans Gain Anything from the Senate.

WASHINGTON, Oct. 16.—Notwithstanding the interesting and important character of the matter now pressing in the House upon the question of Chinese immigration and registration, the silver situation in the Senate, with its relative subject of rules for the management of that body, easily holds first place in public attention.

At the earliest possible moment, just when this moment will arrive doubtless depends largely upon the nature of the forthcoming compromise, for if it is not acceptable to the silver Republicans and Populists they can and probably will introduce a bill for the purpose of its enactment into law. The probable course of events meanwhile is a continuance of the debate for a few days at least.

A vote will be reached by unanimous consent of the House at 3 o'clock this afternoon on Mr. Creamer's bill, to amend and modify the Geary Chinese restriction and registration act. Several amendments will be offered to the bill as reported from the Committee on Foreign Affairs, which will not materially alter the measure.

Immediately after the vote on the Chinese bill Mr. Cox (Texas) will call his bill for the better regulation of National banks, and when this is out of the way the bill to establish a uniform system of bankruptcy throughout the United States will be taken up, and its consideration will doubtless exhaust all the remainder of the week.

The voyage in the Spanish Cabulet, caused by the resignation of Senator Gonzalez, Minister of the Interior, has been killed by the appointment of Senator Fuigueras.

A Murderer's Terrible Record.
COLUMBUS, O., Oct. 16.—William Whelan, a colored man, confessed yesterday to Chapman W. R. Dudley of the state prison, that he was the author of four mysterious and brutal murders that have been made out near Yellow Springs in the past year. The victims were William Koehler, Louise Keyes, Allen Wilson, and an old farmer named Huggins. The first two were murdered on the same day.
