BHOCKING SUICIDE.—The people in the usually quiet neighborhood of Sea Cow Head, were thrown into a state of excitenent on learning that the daughter of Mr. James Sherry, farmer of that place, was found on Thursday night last, with her throat cut. Ann Sherry, the female in question, was about thirty-five years of age, and had been afflicted with deafness for a long period, and this probably has led to the impression that she was rather simple. Nothing, we believe, in her previous conduct was evinced to load any person to suspect that she had any intention of taking her own life. Lendon, Dec. 10.—Gambetta telegraphs from headquarters of General Chausey, that Chausey continues taking many prisoners and inflicting heavy losses on the enemy. From this you will judge how false are the German despatches which state that the Army of the Loire was crushed. Chausey, with only half that army, is still able to oppose successfully the German advance. In the last sortic from Paris, the loss of the Freich was 6780; and the Germans 8000.
