THE LIFE PILLS AND PHENIX BITTERS PURIFY THE BLOOD.

PURIFY THE BLOOD, And thus remove all disease from the system. A single trial will place the LIFE PILLS and PHCNIX BITTERS beyond the reach of compe-tition in the estimation of every patient. The genuine of these medicines are now put up in white wroppers and labels, together with a paraphiet, sailed "Moffat's Good Samaritan," containing the directions, &c, en which is a drawing of Broadway from Wall stress to say Office, by which strangers riskling the city can very sauly find us. The wrappers and Samaritans are copyrighted, herefore those who procure them with white wrapper can be seared that they are genning. Be careful, and do not buy those divide strangers that if you do, be astidded that they come direct from us, or dont touch them. <u>(T</u>) Frequencia and add by

DR. WILLIAM B. MOFFAT, 336 Broadway, cornenof Anthony street, New York.

BENJ. PARSONS, Goderich, Jan. 28, 1848.

HURON HOTEL FOR SALE.

THE Subsriber having nearly completed his improvements on the HURON HOTEL, and being desirous of giving up business in that line, gives notice that he is willing to dispose of the entire premises on reasonable terms. As a Hotel, the pro-porty is a most eligible investment, being surpassed, or perhaps, equaled by none in the District, sither for extent of business or accommodation. Stabling, sheds, Hay-lofts, &cc., &cc., are all on an extensivo scale. The House is large, substantial, commodious, and well furnished, and will be sold with all its furniture and appurte-nances at a fair value. One-third of the purchase money will be required down, and liberal time will be given for the remainder-In the meantime.

In the meantime. The proprietor begs leave to intimate to his friends, customers and the public gene-rally that the late improvements and addi-tions which he has made have rendered the tions which he has made have reserved the Huron Hotel capable of yielding very superior accommodation, and of giving general satisfaction, and in returning his honest thanks for past favors, wheles to assure the public, that while he remains proprietor, no labor nor expense shall be

which, I think, has been sufficiently demonstrated already ; although its application to the subject on hand has yet to be consider-Hay Andrew Hamilton Hugh Houllon Thomas Jones Mr. Kirley John Kippan Duncan

upper regions of the atmosphere, and of course it must favor the disease. By all experience, Cholera prevails most in low, damp, marshy regions, where evaporation is increased.

damp, marshy regions, where evaporation is increased. Moisture is among the best conductors of electrcity. Choiora generally travels along the shores of seas, lakes and rivers.— Messrs. Jameson and Scott remark, that "troops in India, marching in cool and dry weather, onjoy a considerable immunity from the disease." Does not the Editor of the Irritish and Foreign Medical Review make a blind grasp at the idea advanced in this paper, when he says, in reviewing Dr. Kennedy's work? "That moisture, per se, is not powerful

"That moisture, per se, is not powerful "That moisture, per se, is not powerful in spreading the disease, may be presumed from the retardation of the virus by seas and broad rivers, but it, does not follow from this that moisture may not be one of the conditions twich is necessary to constitute the peculiar condition of the air necessary for the rapid development. It is certainly in this direction that we look for some prob-able elucidation of the unknown laws of the choleric virus." The following extract from an editorial

in this journal, vol. 4, page 319, is authority to which it gives me pleasure to rafer, in support of this position :-"A careful examination of all the evi-

erns.

dence with reference to the origin and pro-gress of the cholers, discloses this impor-tant fact, that a humid atmosphere, wet and sultry weather, and marshy situations, are peculiarly adapted to its development. Exceptions will undoubtedly be found to the complete truthfulness of this observation, but in its main leatures the observation will hold good, and may be safely acknowledged as a rule. In 1817, the summer was a pe hold good, and may be safely acknowledged as a rule. In 1817, the summer was a pe-culiarly rainy one at Jessore, and the city itself is surrounded by marshos. In 1846. Dr. Thom of the 86th regiment, stationed at Curachee, observes that the 'thermometer stood at from 98 deg. to 104 deg. Fahren-heit, and the quantity of "moisture was greater than I ever saw in any part of the world, at any season, the dew point being at world, at any season, the day part of the season world, at any season, the dew point being at 38 deg., and the thermometer in the shade being at 90 deg., the lowest range; even
