Are You Passing Up Your Opportunity?

WE OFFERED LAST YEAR (1,000,000 City of Berlin Bonds for \$50.00. We are now buying them back for \$14,000

WE ARE OFFERING TO-DAY

1,000,000 City of Vienna Bonds for \$50.00. In twelve months we will buy them back at market price which may be

1.000.00 Dollars

3,000.00 Dollars,

5,000.00 Dollars.

About eigtheen months ago we advised our clients to buy City of Berlin Bonds. We offered them at fifty dollars for 1,000,000 Mark Bond, to-day we are buying them back at fourteen thousand dollars.

Recently we paid one of our clients thirty thousand dollars for German bonds which cost him two hundred dollars eighteen months ago. Other of our clients have received as high as from one to ten thousand dollars in profits. We would be glad to substantiate the above statements to responsible parties who are interested.

Almost unbelievable profits have been made by small investments in German Bonds, and the profits already made are only a fraction of the possibilities which await the man who has the FORESIGHT TO INVEST NOW IN FOREIGN BONDS.

The United States was financially bankrupt after the Civil War. Those securities could be bought for a song yet in a few years the Americans were on their financial feet again and to-day are considered the richest nation in the world.

England, too once faced what seemed to be a financial disaster. With Napoleon virtually pounding at her gates, British bonds went next to nothing, but the victory at Waterloo sent them sky-rocketing. The Rothschild family accumulated the major portion of its wealth by investing in these bonds and selling them when Wellington's victory became known.

The experience of France, at the end of the 18th century, is known by almost everyone. Her bonds sold for 7.00 each at the time of the French Revolution. They looked hopeless but in two years went back to 95.00, making fortunes for those who had the courage to invest in them. When millions of men and populations of nations lend their collective efforts to the task, NOTHING IS IMPOSSIBLE. REMEMBER YOU ARE INVESTING IN BONDS NOT IN PAPER CURRENCY.

The plucky and far sighted man who realizes the opportunities which the present market conditions present, will cer-

tainly buy foreign government and municipal bonds while they are still within his means. These men will undoubtedly come out on top in reasonable space of time with a fortune. IMMENSE PROFITS AVAILABLE.

When advising clients last fall to purchase German bonds, a great deal of criticism was directed to investors, by most of our Canadian Newspapers, yet those who had the courage to invest in German securities last fall, reaped enormous profits, by re-selling these same securities this year; so, this is a convincing proof that, "NEWSPAPER GOSSIP IS NOT AL-Do not allow the biggest opportunity in your life to pass unheeded. \$50.00 invested in German bonds last year made a

profit of over fourteen thousand dollars. \$50.00 invested now has still bigger possibilities. If you have a fifty dollar bill you want to put to work for you, do not neglect sending it to-day

This loan is for building purposes and secured by the taxable resources of the municipality of Vienna. Vienna is the Capital of Austria, has a population of two million, is the seventh largest city in the world. Chief industries are: Machie ery, clothing, textiles, chemicals and malt liquors.

We strongly recommend the above bonds for big profits. The par value of 1,000,000 Kronen is \$208,000.00. Should the Austrian money advance to only one per cent., these bonds would have a market value of over \$10,000, per 1,000,000

Kronen Bonds, this would give you a very substantial profit. BONDS AND INTEREST COUPONS MAY BE CASHED AT THIS OFFICE AT ANY TIME. If you are a holder of German or any other foreign security and wish to sell, kindly let us have the particulars and we will pay cash for same or exchange for other Bonds.

Quotations on all foreign bonds on request. For prompt attention always address letters to Bond Department
