Smoke Blossoms. "Did you ever see a smoke blossom?" Well, the way to make them is this: Buy one of the latest new CAT CIGARS. Light it and blow a ring in a still atmosphere, and then watch it. The smoke making the ring revolves towards the center as you look towards it. While it is floating away a part of the ring shoots slowly away from the rest forming a loop. When the two sides of the loop come almost together the loop seems to burst at its apex and a lily-shaped blossom appears thereon. Try it. Manufactured by
