The Local Wheat Market Continues to Advance.

THE OUTLOOK FOR WHEAT.
Macy & Pennington, New York, writing on Friday, says: "Beecham estimates Great Britain will want 180,000,000 bushels, France 8,000,000, Germany 2,000,000, and Holland 8,000,000, Italy 2,000,000, Spain and other smaller countries, 30,000,000, making a total of 230,000,000 bushels. The extra amount needed by Germany and France appears about 50,000,000 bushels, and is the only significant item in the report. It indicates an additional call upon American granaries at a time when public stores are practically empty. Thus far the farmers do not sell freely and speculation continues to grow. It looks as though dollar wheat in Chicago would be easy. The Price Current says winter wheat condition not essentially changed. Spring wheat indications fully maintained; while on the other hand, Mr. Pillsbury of Minneapolis, reports that shipments reveal less yield and poorer condition than has been expected. Price current says corn has had some relief, but its general position is hardly maintained. May sold at 91 cents in Chicago today, thus verifying our letter. They have now made a suggestion of dollar wheat, which really looks to be no higher than 90 cents did last month. It is a relief to the market."

CANADIAN POLITICAL EXPORT.
A London letter of Aug. 17 says: "It may be within recollection that when the first cargo of turkeys, geese and chickens came into Liverpool after the McKinley tariff and did so well, I suggested an all-the-year trade. If prices paid them and since gave profit to the shippers, there is a mine of wealth for Canada untapped in this trade. Our imports mostly come in to Chicago. The rest of the year the people—the masses—do not eat poultry. Not because they don't like it, but because it is too dear. Yesterday I paid 25 cents for a fowl weighing under 2 lbs. Only those with money and a taste for luxury in Canada—now that she has got cold storage—could afford to buy such a fowl. The rest of the year, when the price is low, she could make a trade which does not at present exist—an all-the-year-round trade. It is a trade made up of people on to eating poultry as an alternative to meat."
