VERY QUIET FOURTH OF JULY.

People Glad to Get Away From tire Cities.

Notable Gathering at the American Society Banquet in Old London.

Boston, Mass., July 5 .- A clear and cool Fourth of July day, in contrast to a week of severe heat, which had preceded it, was experienced in Boston and vicinity. Thermometer at 74. New York, July 5 .- The observance of Independence Day was more than usually quiet this year. There were flag raising ceremonies at sunrise at the Battery and all the blockhouses in Central Park, but they were attended by very few people. Nearly everyone who could do so left the city on account of the intense heat, and the streets were almost deserted. IN OLD LONDON.

London, July 4 .- Five hundred persons sat down tonight at the banquet of the American Society in London, given at the Hotel Cecil. It was a remarkable gathering. Across the up-per end of the great hall, and interspersed between the members of the United States embassy and prominent Americans, sat members of parliament and representatives of Great Britain's loyal colonies. Morgan Richards, flanked on the right by Mr. Choate, on the left by Robert Hanbury, M.P., presided. Representatives of India, Canada, Australia, New Zealand and Cape Colony were present. General Hamilton was a prominent figure. Chancellor McCracken, of the University of New York, attended, and scattered through the hall were representatives of all phases of material progress in the United States.

The chairman toasted King Edward, the toast meeting with a warm recep-tion from the audience, who sang the British National Anthem.

Dr. Parker, of the City Temple, who proposed the toast of President Mc-Kinley, said in the course of his "Despite the traditional prejudice, which happily has been weakening during the past year, it is now well recognized that no other nation can sustain the relation to Great Brit-Great Britain and the United States now hold the peace of the world in the hollow of their hands." Three cheers were given for President McKinley, and these were thrice

repeated, and an additional three were given for "Old Glory." Mr. Hanbury, proposing a toast to the United States ambassador, referred gratefully to the sympathy and joy of the British people in connection with Mrs. McKinley's illness and recovery. Mr. Hanbury paid a warm compliment to the United States department of agriculture.

the decision of the United States supreme court in insular cases, he said: "Unquestionably the supreme court was called upon to apply the principles of the constitution to conditions of which the fathers of the republic never dreamed, but it by no means follows that this application was not within both the letter and spirit of the constitution. The power given to congress to govern the territories probably meant nothing more to the founders of the republic than the control of what was then known as the North-

Albany, N. Y., July 4.—Dr. Willis G. MacDonald, one of the leading surgeons of this state, procured, at great expense, from the Pasteur Institute, Paris, some anti-tetanic serum, with which to treat shotgun wounds on July 4 at the Albany Hospital. The doctor has kept the matter quiet, desiring to experiment and watch the result before making the facts known. In Chicago, Detroit and some other cities an attempt was made by the au-

thorities this year to suppress the "toy" pistol and cannon. The record The record of fourth of July casualties for last year was 72 killed and 2,791 injured. Of the killed 22 lived in Chicago.

THE PAPER COMBINE

Reasons Given tor Increasing the Price-The Manufacturers' Side.

Montreal, July 4 .- The royal commission investigating the complaint about the advance in the price of printing paper continued its session this morning. W. D. Gillean, assistant managing director of the Canadian Paper Company, defended the advance in price.

L. J. Tarte, of La Patrie, claimed that he would be in a position very soon to get his paper at 2c a pound, while the alleged combine is charging

James Hardy, secretary-treasurer of the Manufacturers' Association, says that the Laurentide Pulp Company had not been considered a member in good standing.

Hon. J. D. Rolland stated that his firm had given up the manufacturing of printing paper, as it did not pay at sent prices. Howard Price, of J. Wilson & Co.,

gave similar evidence. W. H. Rowley, secretary-treasurer of the E. B. Eddy Company, went into an elaborate explanation as to why the cost of manufacture was greater now than some years ago. For one thing the price of sulphur had risen several times its former cost, on account of being made contraband of war. Then the procuring of supplies from the woods had been greatly interfered with for several seasons. The investigation has been adjourned until the 16th inst.
