# U. S. SURVEYORS AND SAINT PAUL

Sir Robt. Finlay Quotes Them in Boundary Dispute.

#### AND MAKES GOOD HIS POINT

American Counsel Accepting British View as to Measuring From Tidewater.

London, Sept. 22. - Towards the close of Friday's proceedings before the Alaskan boundary tribunal, London, Sept. 22.-The Duke of Man-Dickenson, on behalf of the United employed on the construction work of Mail, who writes that an unpleasant chester has purchased for \$315,000 States, withdrew their claim that the Kylemore Castle and estate, compris- line should be measured from the ing 13,000 acres, situated on Lough head of tidewater. The term, he

Yesterday Attorney-General Finlay romantically situated residence in Ire- the reports of Mr. Mendenhall to the contemplated a line measured at right \$2,500,000 in building the castle and angles to the general trend of the coast, which might cut the longer inlets, and proved, by reference to the United States maps of the survey of 1894-95, that these instructions were carried out, and that these surveys were carried only to a point ten leagues from the mouth of Taku In-

let and other points. This is very important, as these surveys were conducted under the treaty of 1892 to acquire information necessary for a delimitation of the

boundary. Sir Robert Finlay showed that in their case the United States are sometimes constrained to adopt the British view of the line. Thus they speak of the shore line several times, meanterritories. He argued that anyone

drawn parallel to the coast, as the United States contend, for reproducward to officiate at the christening the baby started to cry, Peter the Great and a big lioness jumped from their pedestals. By this time the lions were all roaring in chorus and among the ail roaring in chorus and among the irrespective altogether of the mountains. We could not suppose they contemplated an impossible therefore, we must conclude that they meant the line asked for by Great Britain, which was perfectly feasible. He took up the barrier theory, and showed by many references to the law of territorial waters that Russia's barrier would not be broken by a line crossing the inlets where they narrowed to six miles, because all above that line formed part of their own territory, subject only to

He claimed that even if no mounthe treaty the line of the coast from which the lisiere was to be measured i. e., Bernier's Bay. Under the North claim ten miles, but would be satis-"chain" in the treaty distinguished be-tween the word "parallelment" in the treaty, and the general word, "paralthe former merely calling for general parallelism, a parallelism uch as it was possible to observe. He quoted from the negotiations to near the coast; that the Russians were apprehensive they might be so Pomona, Cal., Sept. 22.—After a fast near that if the base were taken for begun on Aug. 5, and lasting 45 days, lere at all, as the mountains might a boundary Russia might get no hisnearly drove him insane, Frank Richards, water's edge. He invited the tribunal aged 55, fell into a swoon on Sunday and to answer question 5 by a direct negative, and the sixth question by holding that where the mountains fall, the width of the lisiere should be of the ocean, and in case of a deep ters of the ocean from the territorial
