

DIFFICULTY WITH VOTERS' LISTS

Premier Borden at Last Makes Statement as to South Renfrew.

IMMIGRATION DEBATE

Conditions in This Province Not Satisfactory, Says the Former Director of Colonization.

Ottawa, Jan. 29. — Since Premier Borden informed Sir Wilfrid Laurier that the issue of the writ for the South Renfrew by-election would be dealt with on Saturday someone has frightened him again. As a result, when the Liberal chief renewed his question at the opening of Parliament today, the Premier once again began to mumble excuses. "There is some difficulty with regard to the voters' lists," he sought to explain. "Some of the lists for 1911 are ready to be used, and others are not ready. We are investigating, but it will take a little delay."

This time Sir Wilfrid laughed outright. "There cannot be anything in that," he observed. "The South Renfrew vacancy occurred on Saturday, 7, while the Ontario elections took place on Dec. 11, four days after." There was no reason that lists which were good for the Ontario elections should not be good enough for the by-election.

Whereupon Mr. Borden bristled. "I am informed by the Secretary of State that only a portion of the lists are ready to be used," he retorted. "The lists have to be prepared at least six days before nomination."

Sir Wilfrid pointed out that the Premier's position was a subterfuge. The law required lists that had been in force for six days prior to nomination. It did not require the preparation of new lists.

"Some parts of the country have only the 1910 lists, others have the 1911 lists ready," the Premier retorted.

"The objection is a very weak and sound one," began Mr. Clarke. Essex, when the Speaker ruled him out of order.

Then the Liberals laughed, and the Government hurried on to other business.

The Machine Busy.

If the Government were as to the necessity of using only up-to-date lists for the writ, it is very plain that the polling could be stayed off almost indefinitely. As a matter of fact, the Conservative machine politicians would like to delay it until well into the spring, when the farmers have returned from the woods. But the excuse for delay now given will hardly go down with any fair-minded elector. The law provides that in case the lists in any municipality have not been revised and forwarded to the clerk of the crown in chancery the lists last prepared shall be used. This would allow of the revision of the lists in the case of a by-election held in the case of a very small portion of the lists the polling could be stayed off almost indefinitely. The excuse given for withholding the writ is very plainly a subterfuge. The whole question will be thoroughly threshed out by the Liberals in the Commons tomorrow.

The east wants immigration about as badly as the west wants tariff concessions and larger markets. Members from Lake Superior to the Atlantic seaboard clamored for the new Immigration Bill. They joined their western fellows in urgent insistence that "something" should be done to make good the loss experienced by the defeat of the reciprocity bill. The debate started early in the afternoon, when Mr. Rhodes submitted a resolution calling upon the Government to institute a policy of publicity and immigration designed to promote the more rapid development of the Maritime Provinces. It dragged on through the whole night sitting, while Ontario and Quebec raised their voices in unison with the sister provinces down by the sea.

Mr. Donald Sutherland, formerly director of colonization for the Ontario Government, informed the Government that "everywhere" was not as satisfactory in Ontario as they would have the House believe. Ontario had twenty million acres in the northern half of the province which were being settled, while "men were walking the streets of Toronto persuading immigrants and laborers to go somewhere else."

Farming Crowded Out. Industrial ambition and mining methods had crowded out the great fundamental vocation of agriculture. This and the "mad rush for wealth" had resulted in the industrial cost of living. It was not till this stage was reached that the late Government had thought of reciprocity. It was not reciprocity, in Mr. Sutherland's opinion, that would settle the problem. Nevertheless, something had to be done to develop the country and get immigration. In the last twenty years in the richest districts of Ontario the population had fallen off upward of 112,000, and the demand for farm laborers could not be supplied. Last year the Ontario Government had advanced loans to farm laborers and domestic immigrants, no less than \$25,000. The member for Oxford charged that the railways were responsible in giving annual subsidies to the West, and the press was also responsible for the way in which Ontario was denuded of farm laborers every year. He concluded by urging the establishment of a federal labor bureau in every province, and that every province be treated alike.

Hon. Robert Rogers devoted himself to generalities. He had had a visit from Hon. James Duff, Ontario's minister of agriculture, and had arranged with him "a policy of co-operation and harmony." He had done likewise with Premier Flemming of New Brunswick. "We propose," said Mr. Rogers, "to inaugurate a policy by which we will give publicity to every province. I am not in a position now to say what the conditions are, but I am sure that the representative of the department of immigration, that we propose a policy of co-operation and to lend to every province every assistance in our power."

Hon. Frank Oliver, in a vigorous and forceful speech, showed what

had been done during the late administration, and pointed out the nebulous character of the so-called programme presented to the House by the present minister. He noted that in the preparation of and circulation of descriptive literature about Canada, the distribution of maps, etc., all the provinces had always been treated on a parity.

SACRAMENTO OPEN TO OTHER CONGREGATIONS

The St. Anne's Anglican Church of Toronto Takes Unusual Step.

[Canadian Press.]
Toronto, Ont., Jan. 29. — At St. Anne's Anglican Church last evening the sacrament of communion was thrown open to the members of any other churches or denominations who might be present. This course was taken by the Bishop of Hereford at a special coronation communion last year, and a storm of comment was evoked thereby. Before the last hymn Rev. L. E. Skye remarked: "The sacrament of the Lord's Supper will be administered at the close of this service. If there are any members of other churches or denominations who would like to be present, they are welcome to partake. It must be remembered that the Church of England believes in the 'communion of saints,' that is, of those who love the Master."

UNKNOWN BURGLARS SHOOT BERLIN MAN

Sylvester Yost Was Trying to Hold Them Until Police Came.

SAID HE WILL RECOVER

When Father Went to Get Help Men Fired Through Door and Then Made Their Escape in the Darkness.

[Special to The Advertiser.]
Berlin, Jan. 30. — Sylvester Yost was shot through the chest about midnight last night by unknown men. He was not seriously injured. Yost and his father discovered two men attempting to break into the C. P. R. tool-house, and Sylvester Yost remained on guard, while the elder Yost went away for the police. The men were alarmed and shot at Yost, and then made their escape.

Sylvester Yost was walking along the tracks with his father, Mr. L. R. Yost, about 10:30, and at that time they noticed two suspicious characters. When they reached their home they decided to keep a look-out for a few minutes, and soon they saw the two men force an entrance to the tool-house. The men ran down to the place and caught the intruders unawares. The door had been broken open, and the men could be heard inside. A railway tie was secured and the young man attempted to hold the door closed while the father went for the police. Three shots were fired from the tool-house, one of them taking effect. The men then forced their way out and ran away, with young Yost after them. They were lost in the darkness, however, and at an early hour the police had found no trace of them.

It is thought that the intention of the two men was to secure tools for a burglary. The strangers had their faces hidden by caps and storm collars, and neither of the Yosts could give an accurate description of them.

UNIVERSITY FUND NOW TOTALS ABOUT \$40,000

Governors Are Now On Look for Big Man for Institution.

The endowment fund of the Western University has now reached approximately \$40,000. When the announcement was made that the government had realized \$27,000 to carry out the work, a number of prominent citizens not actively connected with the management proffered their assistance, and while it was intimated to them that at the present time there could be no general plea for funds, they nevertheless subscribed over \$10,000, intimating that if more were necessary it would be forthcoming.

The governors are now looking for a big man to head the institution. A professor from Glasgow is being considered, and a number of prominent Canadians are mentioned.

The name of Dr. George H. Locke, librarian at Toronto, a well-known educationist, and an excellent organizer, is also mentioned, together with a gentleman connected with McGill University. The latter is a medical man, but is said to be unqualified in his line. Of course, the two gentlemen are applicants. The office is seeking the man.

RAILWAY COMMISSION MAY BE ENLARGED

The Government is Likely to Add Two More Members to the Board.

Ottawa, Jan. 29. — Legislation will probably be introduced this session to carry into effect the Government's policy in regard to the railway commission. The commission is the extended, as was promised by the present leader of the Government while in Opposition. The necessary legislation will likely be introduced this session.

It is understood that the proposal does not involve the establishment of a separate commission having jurisdiction in the West. The same like course is that the present commission will be enlarged by the addition of two members, one of them to be sub-chairman. The commission will then be large enough to allow the holding of say two sittings in different parts of the country at the same time. Under this plan the commissioners will not be grouped territorially, but will work together as one body with the whole of Canada as their territory. It will be necessary in the near future to appoint a commissioner to succeed the late Hon. Thomas Greenway. For one of the new appointments the name of Hon. A. C. Goddard is prominently mentioned.

Country and Produce Markets

CATTLE PRICES AT TORONTO MARKET

TORONTO, Jan. 29. — Today's market is a repetition of yesterday's at the Western Cattle Market, except that there are more common calves. It is estimated that it would be a difficult task to secure the two loads of good and choice cattle out of every 600 of the cattle offered today. Of the 1,240 cattle offered, about 1,000 to 1,100 were light and partially fattened butchers. The deluge of this class is attributed to the scarcity of feed. Sheep and lambs were very inactive, with a decidedly small run. The run of hogs is very light, there being only 300 feeders, hogs here and about 300 fat hogs. At the Union Yards there are 98 hogs. All hogs at both markets sold at \$8.50 fed and watered, and \$5.15 f. o. b. Receipts show 70 cars, with 1,240 cattle, 250 sheep and lambs, 600 hogs and 200 calves.
