MISSION CIRCLE PLANS BIG DRIVE

Annual Membership Crusade Arranged at Askin Street Church.

MRS. CHILDS PRESIDES

Plans for the annual membership crusade to be held on Tuesday, Oct. 2, were made at Tuesday night's meeting of the Askin Street Mission Circle held in the junior schoolroom of the church. This crusade for new members and funds is held annually and is one of the biggest events of the year. Mrs. Ernest Moore will be convener of the refreshments, Miss Mabel Gregory of the decorations while the members of the executive will have charge of the program.

At Tuesday's meeting it was decided that the life members of the circle should undertake as their spe-cial work this year, the support of a child for a year in one of the mis-

sion homes in the Canadian west. Decision was also made to hold the meetings of the circle in the church schoolroom in future. Owing to the increased attendance it has become impossible to meet at the members The president, Mrs. J. H. Childs, presided over a very interesting program which included the first of a series of lessons arranged by the

president and given by Mrs. R. J. Garbutt. A letter from Miss Isabel Govenlock, Japan, was read, telling of her work there and the difficul conditions under which it was carried on at the present time. Mrs. Walter Biggs gave an interesting article on the life of Mr. Liu, who re-cently spoke in London. Miss Robertson told of the experiences of a worker in one of the Canadian mis-

Miss Howson outlined the temperance situation, making special reference to conditions in Manitoba and urging the members of the circle to do their share in connection with the coming plebiscite campaign. Miss Carrie Fitchett gave a delightful solo after which the vacation offering was taken. Refreshments were served with the girls on the program committee acting as hos-

GAS IN THE STOMACH

Overcome Trouble Caused by Fer-menting Food and Acid Indigestion.

Gas and wind in the stomach accom-panied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric eld in the stomach, creating so-called acid indigestion."

acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach clucers. Food ferments and sours, creating the distressing as which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advt.
