Tuesday, November 8, 1864.

## LOCAL INTELLIGENCE.

FIRE-Yesterday morning about half-past six two of the supernumaries who sleep in the back part of the theatre were awakened by a strong smell of burning wood, and on and Ladder apparatus was speedily on the use. spet, closely followed by the Deluge and Tiger companies. The Deluge engine threw the first water and in a very few minutes Leonede about two weeks age ascending San thereafter the flames were extinguished. The from the under side, and was rapidly spreading to the scenery when discovered. The damage done to the theatre property will probably reach three or four hundred dollars, with it doubtless the whole block between Bastion and Fort streets, as a strong northwest wind was blowing at the time. The origin of the fire is unknown, and suspicions endiarism are entertained.

INDIAN TROUBLES .- Capt. Spring of the Leonede informs us that the prompt punishment inflicted by Admiral Denman on the West Coast Indians has been productive of day, passed off without any pyrotechnic dismost excellent effects. The natives, who play or other observance to recall to recoltreme, are now quite peaceable and apparently well disposed. Capt. Spring says if the authorities only follow up their former action by the execution of the villains now day week on the same peaceable and apparently in the execution to the same peaceable and apparently in the execution the delivered trees. being tried for the murder of poor Bamfield and who are known by both Indians and traders to have been deeply implicated in the affair, that a lesson will be taught these western savages which will not be effaced for vears.

COAL STRIKE-The schooner A. J. Wester which arrived from the Fuca mine yesterday, untainted population. The respective numbrings the report that a seam of coal had been Criminals 21 years of age and upwards, 3,842; strack in the valley about a mile behind Free men ditto, 2,708; Excess of Criminals, Clallam Bay, at a depth of one hundred and 1,134. The special correspondent of the fifty feet. The workmen having ceased boring when the schooner hove in sight, to assist in loading her, drew up the apparatus, when they discovered that it had penetrated a coal seam two and a-half inches. The thick-

brought down a day or two ago from the on society, restrained by no ties, public or neighborhood of Fort Simpson half a ton of domestic. "When the convicts arrive, whatdried cod-fish of excellent quality. The fish are put to road-making. They do not fatigue were in prime condition, plump and large, themselves, and seem to be content. The weighing from ten to fifteen pounds each, and men march to their work—perhaps in some fully equal in quality to the finest Newfound-land article. Owing, however, to having been selves in brush-wood huts, of all shapes and cured on board the schooner they were not sizes; but if the job be only of a temporary so thoroughly dried as if done on shore in character, they go under canvas, with gene-
