MAY SHIP SALMON IN COLD STORAGE

Frozen Fish Will Be Sent From Siberian Waters To London

SAME MAY ALSO BE TRIED HERE

Local Salmon Companies Likely to Adopt Similar Measures to Hold Trade

A fishing project for the purpose of competition with the British Columbia salmon in the British and European salmon market has been launched by a British and Japanese company, according to advices received here yesterday morning by the steamer Tosa Maru of the Nippon Yusen Kaisha line. The steamers Zenobia and Zephyrus of Messrs. Turner, Brightman & Co., have been secured and fitted throughout with refrigerating apparatus and cold storage chambers, and will be despatched to the Okhotsk sea to carry fresh salmon from Siberian waters to London. An experimental cargo has been carried from the Amur river to Riga and Hamburg, where the fish had a ready sale. Investigation has shown that the salmon taken in Kamchatka waters is superior to that of the Amur and the new arrangement proposes to import regular cargoes from those waters. The salmon will be frozen and kept in cold storage chambers until placed on the market. It is understood that a project is being considered for the shipment of British Columbia salmon to Europe under similar conditions. At present Enderbarger & Co. and W. & Co. are operating mild-curing establishments on the wharves of the inner harbor in connection with a chain of similar establishments, ship cured salmon to Germany. On being landed at the inner wharf from the local trawls the salmon is cut, the inside being removed and the sides washed, cleaned and salted. It is then placed in cold storage here in barrels and later is repacked and repacked being sent across the continent in refrigerated cars for shipment from New York to Germany in cold storage, being smoked on arrival before being placed on the market. The project now being mooted has in view the shipment of whole salmon which are frozen after being landed from the traps and kept in cold storage until marketed as are the fish from across the Pacific. It was considered that it would be a mistake to place any but the best fish on the London market in competition with the Canadian and Alaskan salmon to which Londoners are accustomed, says the Kobe Chronicle. Negotiations were then entered between the Salmon Steam Fishing Company, under whose control the Zenobia is sailing, and the Russian government, and permission was at last obtained to bring a cargo of the best fish to London this year. The Zenobia consequently left the Tyne last month for the fisheries in the Okhotsk sea. Until now these waters have been visited only occasionally by the gunboats. Commander Bondy of the Russian navy, will join the Zenobia on arrival in Japan, and will conduct her to the fisheries. Without his help the ship would never succeed in navigating the dangerous shoals which have acted in the past as a barrier between the Sea of Okhotsk and civilization. The underwriters at Lloyd's have declined to insure the risks on any ship, but the Zenobia, which owing to the sailing with the approval of the Russian government, will be navigated according to the only complete charts of the fishery. Heretofore the salmon fisheries of Kamchatka, Saghalien and the Siberian littoral have been exploited by both Russians and Japanese, with sailing vessels, the Japanese using mostly small schooners similar in size to the

scalers of this port. The Russians have established land depots from which shipments of fish have been made to Vladivostok and these distributed by the Siberian railway or the steamers running to Odessa.

Murder in Toronto
Toronto, June 11.—In his restaurant in York street this afternoon E. F. Waudell was shot and killed by John Boyd. After making sure of his victim's death, Boyd walked coolly around to Queen street, where he was arrested. The shooting was due to Boyd's insane jealousy of a woman employed by Waudell.

Judgment Against Clergue
Toronto, June 11.—Judgment for \$33,556.79 in favor of the Vivian company has been issued by Justice Britton against F. H. Clergue.

The Japanese Question
San Francisco, June 11.—D. S. Richardson, foreign secretary to the Japanese consulate, was despatched yesterday with U. S. attorney Devlin in a long conference. It is said that the meeting was the outcome of the receipt by the Japanese consulate of an important cable message from Tokio. The officials of the consulate and the district attorney maintain the greatest secrecy as to the questions discussed and as to the despatch from Japan.

Tourists Beat Moosejaw
Moosejaw, June 11.—Lacrosse game between the touring representatives of Canada and Moosejaw today was one of the greatest ever played here and was won by the visitors by a score of 4 to 1. The game was fast and thrilling throughout. The attendance was one thousand.

HOPE GIVEN UP FOR MISSING NAVY MEN

Thirteen in All Lost From Ships Stationed at Hampton Roads

Norfolk, Va., June 12.—It was reported today that the disaster in Hampton Roads on Monday night, which resulted in the sinking of the U. S. battleship Minnesota, and the drowning of eleven men, including six midshipmen who were returning from the army and navy ball at the Jamestown exposition that night, and five seamen who made up the crew of the launch, was caused by the launch being run down by a tug and a coal barge which the former was towing. The report, which it was stated, has been made official by on board the battleship Minnesota, did not give the name of tug or barge. It was said, however, that the tug stopped in the Roads immediately following the accident, but finding no trace of the object which had been struck, or any sign of life or anything in the water, resumed its course with a coal barge in tow. The presumption is that the launch, being a small craft, sank immediately. Newport News, Va., June 12.—Shortly before noon today articles were washed ashore at Buckroe Beach, supposed to have come from the ill-fated launch of the Minnesota, which was sunk in Hampton Roads on Monday night. The articles consisted of missing portions of cloth similar to the clothing of the children on the launch, a sleeve from the blouse of a sailor, and a portion of an awning similar to the one that covered the launch. Norfolk, Va., June 12.—Search is being made for two men from the torpedo boat destroyer Worden, who left that vessel at 8 a.m. yesterday in a small launch for Newport News. They had some trouble with the engine and started to return to the Worden. They have not been seen since.

Washington, June 12.—A dispatch was received at the navy department at 2:15 p.m. from Secretary Morton. It was dated at Fortress Monroe, and made some inquiry about a departmental matter, so the officials here are now satisfied that the secretary is all right.

LEADING PHYSICIANS RECOMMEND

Carnegie's Swedish Porter

Because it is the purest and most nourishing malt beverage on the market. Unrivalled for the invalid, and in cases of convalescence the finest restorative. It combines the purity and strength of Dublin Stout with the full flavor of the London Porters.

CHINAMAN ARRESTED ON CHARGE OF THEFT

Former Employee of Montana Restaurant Accused of Robbing Till

A Chinaman was arrested yesterday afternoon on suspicion of being the person who entered the Montana restaurant, in the vicinity of the Outer wharf, on Monday night and stole the contents of the cash drawer, amounting to about \$30. The prisoner is known by the name of Hop. Hop was a dishwasher in the restaurant and on Tuesday when an investigation of the robbery was going on he suddenly disappeared from the premises, leaving some of his clothes behind him. The transfer was interrupted and the detectives took charge of the sack, which was found to contain about \$70 in silver, corresponding with the money that had been stolen. The Chinaman was taken to police headquarters, where Mr. Goldsmith identified one of the silver pieces as a coin he had deposited in the cash drawer on the evening of a number of days. Mr. Goldsmith and his wife, who live above the restaurant, were away from home on Monday night and the restaurant was locked. A window of Mrs. Goldsmith's bedroom was left open and an entrance was effected through this by means of a ladder. Hop will appear before Magistrate Hall this morning for a preliminary hearing of the case.

STANDARD BRED HORSES FOR BRITISH COLUMBIA

Sixteen Have Been Imported From Oregon by Fancliers in the Vernon District

Sixteen standard bred horses have been imported by fancliers at and in the vicinity of Vernon. They were purchased from F. H. Larabee, of Brooknook farm, Deschutes, Oregon. Those among whom they will be distributed are R. W. Nell, S. O'Neill, Mrs. Greenhow, D. Greenhow, and Smith and Nuttle. It is stated by Dr. Toimie, who just returned from the interior, that a finer collection would be hard to obtain, a number being "bred in the purple" their sires having an international reputation. Some are descended from Vice Regent and Alfonso. All are registered. In the opinion of Dr. Toimie the inclination of the farmers of the principal agricultural districts of the province to produce good horses is already having the effect of improving the stock. He believes that every possible encouragement should be given those who have taken the initiative in that direction.

JAPANESE ANGERED AGAIN.

Report of Attack on Countryman at Berkeley Causes More Comment.

Tokio June 12.—The Asahi's correspondent at Washington reports an attack upon a Japanese horticulturist at Berkeley, Cal., resulting in the destruction of a greenhouse and other property. This has fanned the flame of indignation already strong here, and has served to confirm the popular belief that violence of the kind is not accidental, but the result of deep-rooted feeling against the Japanese.

San Francisco, June 12.—Referring to an alleged attack on a Japanese horticulturist at Berkeley, Thomas G. Walker, representing the Japanese Association of America, states that it was a trivial affair. Some boys had thrown a few stones at a greenhouse belonging to a Japanese, but the damage was slight and the association would take no action, leaving the local authorities to deal with the offenders.

CASE FOR PROSECUTION COMES NEAR CLOSURE

Defence in Haywood Titled to Be Rejected Wednesday

ORCHARD GOING TO DENVER

Evidence Taken in Re Peabody Intended for Peabody Haywood

Boise, June 15.—In a case against Wm. charged with the murder of Governor Steunenberg, submitted to the jury, a dozen witnesses tend to show that the case was a surprise to and clearly pleased the jury.

In response to a request for notice from the time it should assume, Senator Borah yesterday as the time, later, however, that he early day in order to the trial now stands a Tuesday morning, it would not be able to the end of next week.

Among today's witnesses, Governor Peabody, of his daughter, Miss Cora, neither was on the stand in the Colorado labor and a conference of the defence decided the better tactics to refrain questioning. Against a sustained motions and motions to prosecution got the admission hearing on a perjury testimony. That the "have Adams," which is in 1907, where it is to kill Fred Bradley, a to Haywood Denver, shown by the original on New York banks, for were purchased at the Bank of Denver, Ha that during 1904, 1905 a was frequently remitted to the executive board of the Federation of Min Simmons, went to the to kill Steunenberg. sent in January 1906, a Steunenberg, and the Simpkins, presumably had.

Then came the twist of mine bomb was set of an extended enquiry into conditions of about Cripple Creek and martial law days tried to show that the wanted deportation of that the use of the mill, granted, that union ston Tuesday morning, and mitter acts of violence others to violence, the homes and district controlled by the mine of deputies, who were thugs and criminals. New the state comp history of the Peabody that it was dug of the Cour d'Alent Ha Boise, and taken to having its casing lead plumber who made it Peabody and his family bomb cover every mine displayed before the v From the vantage of the general thread of and successively offered of Miss Peabody, the of Orchard that he an followed the Peabody the testimony of ex-G that he saw Orchard, and that he repaired Orchard testified, test that at various times it Pettibone and Orchard gather, and confirm Vaughan of the trip to Vaughan made to Can proof was adduced the was at Pocatello in sumably to meet and tions done" at a carl miners, as related by Judge Wood will go Monday to continue the Orchard, charged with Frank Steunenberg, an no session of the court Orchard will be tak for a formal appearance is called.
