of the board are very reticent in members of the board are very reticent in regard to their proceedings, but it is claimed the bank itself is in a perfectly solvent condition, and that the runnored suspension would amount to nothing more than temporary embarassment and busi-ness would be resumed in a few days. than temporary embarassment and busi-ness would be resumed in a few days. Charles T. Elwell, vice-president of the bank, said the bank is solvent, and there is no reason why it should not go on. The trouble was all brought about by the deal-ings of the bank with the firm of Grant & Ward. On Monday the cashier was authorized to certify to the checks of Grant & Ward to the amount of \$750,000, it being inderstood that the firm would deposit sufficient security this morning to cover the indebtedness. They failed to make the deposit and in consequence, when the checks were presented at the clearing house there was nothing too meet them in the bank. The accounts showed that the bank owed a balance of \$550,000 to the clearing house, but this was reduced Canon Hoare remarked that the English people were ashamed that Gen. Gordon had been left in Egypt without support and without means of defence. Thereupon the audience, numbering 3000, rose and tumultuously cheered the speaker. The incident is considered of unusual sig-nificance, showing a strong undercurrent of feeling among people from whom such demonstrations are the least to be exthat the bank owed a balance of \$250,000 to the clearing house, but this was reduced to \$339,000 by the discovery that among the checks presented was over \$200,000 in nucertified checks of Grant & Ward. The pected. Official advices tend to confirm the ports that the garrison and inhabitants of Berber have accepted the favorable condi-tions offered by El Mahdi. bank made a payment to the clearing houses of \$210,000 in cash and the remainder in valuable securities, discharging the entire indebtedness. The surplus of the bank over and above the entire liabilities is
