business ability for every one who wants to be a manufactures. What Protection promises to do is simply this: to beep our own home market for our own home producers. If you upgue that a Protectionist government is bound to prevent over-production is some way or other you must on the same principle hold that a Free Trade government is bound to prevens over-importation. Better beware, or you will have on your hands a bundle of incon-sistencies that cannot be defended. There may in time to come be over-produc-tion in this line; though we have Mr. Walker's opinion to the effect that as yet there has been none. But we venture to give a reason why such over-production is even less likely in the future than is might fairly have been regarded in time past. The North-west is a rapidly growing and expanding market for farm machinery, and for a good many years to come will be able easily to absorb all the home production. One thing only is necessary to insure this-that the linkes on foreign farm implements be main-taned, not merely at high figures, but at prohibitory fourse. Canada has really no more business to import respers for her wheat harvest than she has to import the wheat ji-ent. For she can produce both at bome as the ply as can be done in the States. Against can be done in the States. Against

Toronto winning after two men were out in the last immgs. Nothing short of hard luck lost the game for the home team. Atlisson was injured in the eighth imming and Oberlander went into the box for Toronto. He was batted hard by London. Quinu drove the ball to the fence for three bases, Sowders followed with a two-bagter. Howe hit for a single, and an error by Kearns at second base yielded London four runs. For Toronto in the minh Burke struck out, Rickley flied to Messit, Decker hit for three bases sending in Connors. Lewis was hit by a pitched ball, Mohanghlin hit for a single bringing home Massits in left field played a wonderful game, apturing no less than six men in that position. The washnessed the game.
