Wholeson and the control of the contr

American markets nothing else could be expected. Wheat was firm and higher. This was particularly so in that of Manitoba growth, dealers in which will not book orders. At the moment there seems to be no settled basis of values. The wide range in prices of reported transactions proved this. A round lot of white and red new Ontario fall wheat of 62 up to 64 lbs. to the bushel changed hands west at 90c for export, while 62 lb, white lying in same direction was bought at 100 to 91c; 8000 bushels No. 2 spring lying on the Northern found a purchaser at 87c. No. 1 Manitoba hard was wanted on 'Change at \$1.14 without sellers. Off the board No. 2 hard was reported at 91.102; 1 car 100 2 hard changed nands at \$1.08\% Montreal and west. On call board No. 2 hard was reported at \$1.10 Peterboro and west, No. 3 hard at \$1.10 Peterboro and west, with \$1 bid, and No. 2 \$1.00 bushels. On treal freights, with \$1 bid, and No. 2 \$1.00 bushels. On the selletted are reported at 96 west. Peas sold on call at 70c west and 71c was bid for 10,000 bushels. Oats seem to be gradually sinking into obscurity. Enough, however, was seen of them to-day to demonstrate their dull and weak condition; white offering at 37c on spot and at 34 outside with buyers at 87c. Bran sold at 3910.75 h.b. west. Flour was in better demand, but transactions were confined to ungraded stuff.

Counselman & Day advise any one who is short of August wheat to get out of it. You cannot afford to take the chances of a squeeze in it.

Drummond & Brown's correspondents state that it has been absolutely impossible to fill stop orders or any others at the prices customers expect. Sometimes, of course, in their favor, but other times against them, there has been a great deal of realizing and it is possible there has been enough of this class of selling to satisfy the urgent demand for a while.

EPPS'S COCOA BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hunneds of subtle emaladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets by Grocers, labelled thus: JAMES EPPS & CO., Homospathic Chemists, London England.
