Word has been received from Spokane, Wash, of the death of Mrs. S.P. Morgan, who although an invalid for some time passed away on Aug. 5th, after an illness of only four days with pneumonia. Mrs. Morgan was a former resident of Kerwood for many years, very highly respected and dearly loved by all who knew her.

The September meeting of the W. I. met with Mrs. Fred Cook. Miss Nona Wilson gave a very instructive paper on "How to avoid accidents is to Stop—Look—Listen. Keep poison under lock and keyn never sit in a draft when overheated most of our lung trouble is caused in this way. By this paper we would judge Miss Wilson got much practical benefit from the Short Course given by the Dept. of Agrculture last winter in Strathroy. A short sketch of the life of "Marion Keith" and a list of her books was given under the "Canadian Authors". These books are wholesome and interesting reading.

A plate of powerful heat

McCLARY'S Protected Element in your Electric Range is simply a plate of tough, fireproof, heat-conducting porcelain in which the coils are embedded close to the surface.

McClary's Protected Element becomes a plate of powerful heat, as you desire, when the current is turned on. It is absolutely trouble-proof—nothing can injure the high-resistance coils—they do their work speedily and efficiently.

Don't buy an Electric Range without a McClary's Protected Element.
