Local Happenings

Results in Grade A came in as we were going to press. We understand that Roy Chute, Marlon Hopkins and Charles LeBrun, passed successfully but have not heard thus far about the others. Very likely success attended their efforts as well in most of cases, at least.

The Salvation Army held their street meeting on Saturday evening, also held a service at 2 p.m. on Sunday in the Gordon-Providence United Church vestry.

The work of putting on a new roof on the Baptist church building is to be commenced at once and the work of renewing the foundation of the building will be proceeded with at a very early date.

Norman P. Willett has sold his schooner, Lillian, to Capt. Clarence Winters, of Parrsboro. He intends putting her in the fishing business. He made the trip from Victoria Beach to his home port in fourteen hours.

Mr. Frank Dilmars, of Dilmars and Son, proprietors of the Sea Breeze House, Deep Brook, was in town Saturday. In discussing the tourist business, Mr. Dilmars states that the early bookings were not quite equal to those of last year but that business was on the increase and now promised very well indeed for the remainder of the season. The firm had sixteen cabins and cottages in addition to their well known and popular hotel and are thus in good position to cater successfully to the summer visitor business.

A McLaughlin-Bulck, said to be owned by Bruce, of Brooklyn, and a Ford said to be owned by Goucher boys from Brickton and of uncertain vintage collided at the corner of Queen and Granville Streets Sunday night with a comparatively small amount of damage. The Ford had filled up at Wear's gas tank and was on the wrong side of the street in its get away, while the McLaughlin which came up Queen St. is said by bystanders, to have been traveling about thirty miles an hour. Some mutual blame followed but finally honors were decided easy and the buses went different ways, each under its own steam.

The Masonic Strawberry Festival held last Wednesday afternoon and evening on the newly acquired Presbyterian Church grounds was highly successful and well attended. About \$150.00 was cleared. There were strawberries in abundance, genuine tasty cream and cake that would melt in the mouth and popular and leading ladies in the social circles of the town served and directed the preparations for feasting. The grounds formed a beautiful setting and were nicely decorated both by art and nature. The Bridgetown Band discoursed a fine programme and thus all essentials for success were present.

Messrs J. H. Hicks and Sons secured the contract for the construction of the new Parish Hall for St. Luke's Church, Annapolis, and have started on this work.

The Halifax Socials the team which a season ago, gave our local boys such a good match, will play here this afternoon at 2 o'clock. Get out, see a good game and encourage good sport. Plans are being made for a game in Middleton Thursday, when the locals will try to retrieve their recent defeat.

Messrs. E. J. Nicholls and Ralph Tompkins have purchased the Leslie Strong place at Carleton Corner, recently purchased from Mrs. Everett by Mr. Strong. The last purchasers take possession the first of December.

The Junior C. G. I. T. of St. James Church have returned from Camp at Hampton and the Baptist C. G. I. T. girls returned from Hampton Monday. All report a good time. Messrs. Windsor Tennis Club members are coming here on Saturday for a friendly match with the local tennis club.

The Quilt beds are becoming a scene of activity and a little later members of the Club expect to go to Dartmouth to play a match with the club in that town.

After a long vacation the watering cart had a spin about town on Tuesday. All the business men hope for frequent trips of the same nature. Oiling of the streets is a step much needed, for under present conditions neither exterior or interior of business premises can be kept in decent condition on account of dust. Even the frequency of rain during the past few weeks cannot satisfactorily eliminate the dust nuisance.

Attention is called by the advertisement to the usual calling of a Parsonage next Saturday afternoon, in St. James Church school room, under the auspices of the Pioneer Trail Rangers. The object of the sale is to augment the boy's camp fund. It begins at 2 o'clock.

A most enjoyable birthday party took place on Monday last at the home of Mrs. J. Nuttop, Bridgetown, in honor of her granddaughter, Miss Helen Latham. The guests, who numbered about sixteen, indulged in various games. Tea was served on the lawn after which the girls enjoyed themselves until dusk, when they departed to their homes well pleased with the enjoyable afternoon spent.

PROFESSOR ELLIOTT IN BIG UNDERTAKING

Former Annapolis County Boy Engineer Chosen to Reclaim 300,000 Acres of Salt Marshes in North Carolina.

Faced with the problem of converting 300,000 acres of North Carolina salt marshes into salable real estate and flowering garden plots, engineers from the southland turned to Minnesota for its solution, and announced last night that they have hired a Duluth dredging company and a Minneapolis reclamation engineer of national reputation to carry out the nation's biggest undertaking in land reclamation.

Preparing for a real estate boom which they say will eclipse the soaring Florida market, North Carolina land men are preparing to make a truck garden and real estate project out of the "open grounds" district on the Beaufort peninsula.

Searching scientific records dealing with land reclamation, they discovered what Minnesota has done to make its peat bogs into profitable investments, and obtained the name of G. R. B. Elliott, former professor of architectural engineering at the University of Minnesota, now a drainage engineer expert. They hired him, and then gave the contract for dredging to the Union Dredging Company of Duluth.

The great tract has a soil and climate admirably suited to heavy truck farming. Professor Elliott said. It is a peat marsh, similar in composition to the one near Albert Lea, where experts made potatoes grow where nothing grew before, and to the Mother Lake development project, just south of Minneapolis.

Professor Elliott faces the problem of taking the water out of that 300,000 acres of waste land. This he proposes to do with a network of ditches which will cut the peninsula into 200 acre tracts. Available water transport will make the region the most unique of its kind ever proposed as a truck farming ground, Professor Elliott said.

Application has been made for government aid on the project, and a senate committee has been investigating the situation.

The Professor Elliott named above graduated from the Lawrenceton High School of which O. P. Goucher, M. P. was then Principal. He afterwards took courses at Dalhousie University, Halifax, and at Columbia University, New York City; and went West, establishing in Vancouver a drainage business which reclaimed some lands about the mouth of the Fraser River. Later, he prospected for gold and molybdenum in British Columbia, from whence to the University of Wisconsin, and later to that of Minnesota, as a drainage expert, attached to the Agricultural facilities of those institutions. Some months ago he was called to North Carolina to give expert advice in the matter set forth by the Journal, which has now, apparently, borne fruit.

Professor Elliott is the son of the late J. R. Elliott of this Province, and the nephew of Leonard W. Elliott of Clarence and of the late Edwin J. Elliott of the same locality. (M. Monitor.)
