

A little vaseline to the wounds will be soothing.

3. *Breeding.* Not the slightest probability. And why try any such experiment when there are hosts of good ones that may be made and urgently need to be made. Many have been suggested in the REVIEW during the past two years

The receipt you sent me for buff Cochinchina cock, was excellent, he could not stand, and always broke down on his legs, he was cured in two weeks after I gave him the medicine, I got the medicine in the drug store and fed him mostly soft food, just as you said in your letter. In the morning I gave him a Compound Cathartic pill, at noon I gave him ½ teaspoonful of Chemical food, in the evening 6 drops of Nux Vomica, I repeated till bird was well. Two weeks after I started giving him the medicine, I showed him at Berlin Exhibition and won 1st prize. J. W. Huehnergard, Heidelberg.
