POPULAR SCIENCE.

**THE SCIENTIFIC AMERICAN
 TO BE GREATLY ENLARGED.**

THIS widely circulated and Popular Journal of the
 Industrial Arts and Sciences enters its twenty-
 second year on the 1st of January next, and the
 Publishers propose to signalize the occasion by en-
 larging it to the size of the most costly Scientific
 Journals of Great Britain, without, however, in-
 creasing the subscription price.

It is almost superfluous to speak of the great value
 of this Popular and Useful Journal to all classes, and
 especially to Mechanics, Manufacturers, Inventors,
 Engineers, Chemists, Agriculturists, and all who love
 to read of the wondrous progress which now marks
 every department of Mechanical Engineering and the
 Industrial Arts and Sciences generally.

The Editorial department is very ably conducted,
 and many of the best writers in this country and
 Europe are contributors to its pages. Many of the
 articles have the charm of romance about them, and
 inspire the mind with noble ideas.

The Scientific American has the largest circulation
 of any similar journal in existence, but it ought to
 have a million of readers in this growing country.

The engravings of New Inventions, Tools, Imple-
 ments for the Farm, Workshop and Household are
 very numerous and are splendidly executed by the
 best artists in the world. This feature of the paper is
 very striking, and has won the praise of the united
 press of this country and Europe.

Another feature peculiar to the Scientific American
 is the official publication of every Patent granted by
 the Government Patent Office. Each number con-
 tains the weekly issue of Patent Claims, with copious
 notices of new inventions, together with Reviews of
 Foreign Inventions and Discoveries in every depart-
 ment of Science.

Whoever reads the Scientific American is instructed
 and entertained, without being bothered with hard
 words and dry details.

The American and European Patent Offices, in con-
 nexion with the Scientific American, form an immense
 Museum of Mechanical Novelties, which furnish con-
 stant employment to a large corps of Scientific
 Examiners who prepare drawings and specifications
 for Patents.

Now is the time to send in subscriptions to the
 Scientific American, so as to begin with the new
 volume.

The numbers for a year make up a splendidly
 illustrated volume of 623 pages. Terms:—\$3 per
 annum; \$1 60 for six months; \$1 for four months;
 Clubs of ten and upward, \$2.60 each; Canadian sub-
 scribers, \$3.25 per annum, always in advance. Spec-
 imen numbers sent free; also, a pamphlet of advice to
 inventors. Address

**1867 IRELAND'S 1867
 FREIGHT AND PASSENGER LINE**
 FROM

Montreal to Kingston, Toronto, Hamilton, St.
 Catharines and vice versa.

ON opening of Navigation the following First Class
 Steamers will form a Line for the Transportation
 of Freight and Passengers, viz:

OSPREY.....Capt. SMITH.
 AMERICA....." MOORE.
 BRANTFORD....." HANNA.
 (new composite steamer now building at
 Hamilton.....Capt. MALCOMSON
 CITY OF LONDON....." POLLOCK.

The above steamers, having first class accommo-
 dated for passengers, will afford to families during the
 summer months, a cheap and comfortable mode of
 travelling, and give merchants quick dispatch in the
 transportation of Freight.

THE STEAMER CITY OF LONDON,

will be continued as last year in the Lake Erie trade,
 viz:—From Montreal to Ports Dover, Burwell, Ryerse,
 Bruce, and Stanley, calling at Hamilton and Toronto,
 as the trade may require.

Freights as cheap as by any other Line.

For Freight or Passage apply to
 E. D. MACKAY.....(MacKay's Wharf), Hamilton.
 S. F. HOLCOMB.....Exchange, Toronto.
 NOLAN & NZELON.....St. Catharines.
