

FENCE TALK No. 1

Common sense and simple arithmetic can show you the economy of Page Fence as against any other fence there is.

Common sense will show you that because Page Fences are—by actual test—fully one-third stronger than the best of other fences.

Common sense shows you that the stronger fence is the better fence—because it can be stretched tighter, and will stand up to its work longer.

Page Fences, with their high-carbon (tougher, harder) steel nine-gauge horizontal wires, are a third stronger than the best of the other kinds. By harsh tests, this Page wire stands a strain of 2,400 lbs. The “hard drawn” horizontals in the other kinds break at 1,800 lbs. strain. Some of them break at less.

Simple arithmetic will show you that Page Fences, costing maybe a cent more a rod than the half-as-strong kinds, is actually five cents and more a rod cheaper—because fewer posts will keep them in better shape.

Figure it yourself. Using Page Empire Fences, say, you can safely set the posts half as far apart again as you'd dare to with ordinary wire fencing. That means two posts for Page Fence to three for the other kind.

What is it worth to dig post holes? What are fence-posts worth in your section? Figure out the saving for yourself—it is easy to do.

Here are but part of the reasons why you can't afford to buy other than the Page Fences—no matter what you pay. Let us send you a booklet (free) that shows you how to prove fence-value before you buy. Ask by mail of our nearest place.
