Master Bawlf, being the smallest boy in the Junior ranks, was appointed "mascot." Another was equally eligible, but they did not need any *Moore*.

Certain hatters in the city have informed the Junior Editor, that the heads of many of last year's student have considerably increased in size. To several days I was in a sorry plight over the matter. It was only after I had observed the conduct of the older boys toward the new comers, that it occurred to me that the disease was only a case of "big head" caused by the assumed superiority of the former over the latter. Boys, you overtop yourselves, because you were at College last year. Superiority is better displayed in class, by excellence in studies, by good bearing in the dormitory, study hall, recreation, and above all in the chapel. Make your new comrades feel at home; nobody likes the bully or those boys who cruelly tease a helpless comrade.

Thirty husky youths don their uniforms daily, to contend for places on the first team. From present indications, it looks as if we would not only humble the pride of those "would be" seniors, but the "Juniors," and the city teams had better see to of their laurels. We are ready to meet all "comers."

Jnniorate II—6 Smallyard II—I.

Our second team suffered its first defeat on Sept. 25th. Their opponents, who hail from Juniorate Hall played a superior game, and won. We forewarn the victors from across the street, to be prepared to get a stinging defeat, at the next meeting.

Durocher will be our star *punter* this year.

Teddy Gr——x will be our star *kicker*.

The Junior team would like to secure the valuable services of A. Fillips the "famous full back."
