

accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing them to be from herds in such areas and that the animals offered for entry have been tuberculin tested with negative results within 30 days preceding their offer for entry. However, cattle from herds in such areas - other than range herds - in which one or more reactors to the tuberculin test have been disclosed shall not be imported until the said herds have reached full tuberculosis-free status under Canadian regulations.

3. Cattle from herds in restricted areas in Canada - other than range cattle and cattle from accredited herds - shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing (i) that they have been tuberculin tested with negative results within 30 days preceding their offer for entry, (ii) that all cattle in the herd or herds from which the animals proceed have been tuberculin tested with negative results not more than 12 months nor less than 90 days before the date of the offer for entry, and (iii) that the animals presented for entry, excepting only the natural increase in the herd, were included in the herd or herds of origin at the time of said herd tests. However, cattle from herds in such areas - other than range herds - in which one or more reactors to the tuberculin test have been disclosed shall not be imported until the said herds have reached full tuberculosis-free status under Canadian regulations.
4. Range cattle¹¹ shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing them to be range cattle and that they have been tuberculin tested with negative results within 30 days preceding their offer for entry.
5. No cattle other than range cattle or those from accredited herds shall be imported from

¹¹ Cattle of the beef breeds raised under range conditions in the western provinces of Canada.
