REMARKS.

The Catskill Mountain House has lately been much en-
larged. The following notice should be recollected in
reading page 16.

Since last season an additional building has been
erected, (connected with the former one) 80 feet by
32, and four stories high, so that the present buildings are
140 feet in length, with a wing on the north-east end, of
34 feet ; a piazza 12 feet in width, and 140 in length in
front of the building, and flush with the second story.

Many improvements have been made at the San
Souci Hotel at Ballston Springs ; families are taken for
several weeks at a considerably reduced price, as is the
case at most of the principal houses there and at Sara-
toga.

The regular price of board per week, Aldridges and
Corey's at Ballston, is \$7 instead of \$8 as erroneously
stated.
