March 12.—Port Elgin lost the Bowman Trophy here tonight, Wiarton defeating them by a score of 10 to 2. The ice was heavy, and, as the Port Elgin team are light, the game was not as fast as was at first expected by the many spectators, who came from far and near to see it. The locals played good hockey, but were unable to hold the visiting team down. The Wiarton bo played good, fast hockey, and had the weather conditions been favorable, the game would have been much more interesting. Anderson.

It was decided to enter a team in the Intermediate W.F.A. and probably the juniors also. The prospects are good for two teams this year, and no doubt Listowel will keep up the reputation as having a winning team.

This assertion was met with jeers and laughter from the government members, but in no wise dismayed Mr. Pugsley, who continued: "The information contained in the first lord of the admiralty's memoranda is so childish and intensely ignorant that it is enough to make a horse laugh." Some Conservative member asked Mr. Pugsley if he considered the sawdust wharf incident as laughable.
Mr. Pugsley: "That question merely shows with what levity the government members treat this all-important subject of naval defence. This is not a laughing matter; it is a very serious matter."

He then proceeded to point out some of the inaccuracies contained in the Churchill memoranda, Mr. Churchill had stated that it took a 170 ton crane to build warships. There were many such cranes in the Dominion of Canada, Mr. Pugsley maintained. As for Canadian soil not being solid enough to support such cranes, Mr. Pugsley dismissed the idea as being 'nonsensical." "Maybe he thought the soil in Canada was sawdust," suggested a Con-

United States ship builders, he said, had constructed yards capable of building dreadnoughts for less than \$4.000,000. Canada could do the same, and this fact showed the general inaccuracy of the statements in Winston Churchill's letters and memoranda.

Even the we did not possess expert riveters it would be a given by expert riveters it would be a simple matter to send to England for skilled men. Plenty of Canadian manufacturers in all lines of industry had done so. The high wages paid in this

The doughty member for Pictou then remarked that if Dr. Reid's statements were true Mr. Churchill's letter was, "an unwarranted intrusion into the affairs of Canada," as the information sent to him by Mr. Borden did not warrant the memoranda and letters tabled Monday night.

"All the information contained in the memoranda and letters, then," deciared the member for Pictou, "was a gratuitous insuit to the people of Canada." (Applause.)

Hon. Geo. P. The Runnymede Liberal-Conservative Association hold their second annual banquet this evening in the Annette street Masonic Temple.

Considerable dissatisfaction is expressed by parents of children attending the Annette Street School over the absence of drinking cups in the new building. The new school is complete in every other way, and has been open since September, but no sanitary drinking fountains have as yet been provided, and the pupils have not even the convenience of the germ-laden cup. Unless they are fortunate enough to possess a cup of their own, they must adopt the good old town pump proceedure of drinking directly from the inverted taps. Many of the parents are of the opinion that even the tabooed cups would not be so unsanitary as this method of drinking.
