Ald. McBride Speaks. Ald. McBride, who has been a consistent opponent of Col. Langton's appointment, outshone all his previous protests and occupied more than three-quarters of an hour of council's ime in endeavoring to show why the colonel should not be appointed. "I think this council has been so belittled in the eyes of the public that it will take a hundred years to recover," de-clared the alderman. Referring to Controller O'Neill's attack on the Langton opposition, he said: "Never have I heard so many base charges made against members of this council. The controller declared that Mayor Church in voting for Langton was only trying to do his duty by the city in an effort to break the deadlock, and that the question of relationship did not enter into it at all, especially as the mayor had stood for promotion all along the line, and until he saw that nothing could be accomplished by doing so. the order for evening prayer as printed in the draft book with amendments be approved."

It was proposed in the order of the evening prayer that the minister shall say the exhortation after reading the usual passages of scripture. In churches where morning prayer has been said the words between "dearly beloved brethren" and "I pray and beseech" may be omitted. It was contended that the words should not be omitted, as many who were not present in the morning would miss one of the finest parts of the service. Canon Murray agreed with the majority of the speakers that the whole of the exhortation should not be left out. The speaker felt that ministers should have the option of omitting the exhortation on, week-day services.

A. H. Bachus, K.C., of Aylmer, said one of the great inducements held out in many of the churches was that the ovening service would be shortened. He thought it would be a great mistake if the joint houses did not stand at the back of the committee who had in view the shortening of the evening service.

Dr. Williams, the Bishop of Huron, reminded the synod that a set of questions had been sent out, and among them the omission of the exhortation in the evening service. The result was that a large number of the rank and file were for omitting the exhortation.

It was moved by the Bishop of Kootenay and seconded by Archbishop Balfour, "that the words "all kneeling preceding the second rubric of the collect be struck out." The motion was lost. The Bishop of Kootenay said he hoped the house would not undertake the work of reversing the collects which had been prepared by masters with great care.

It was moved that the word "both" in the sentence "that both our hearts may be set to obey they commandments," in the sentence "that both our hearts may be set to obey they commandments," in the second collect at evening prayer, be struck out. The motion was lost.

Before submitting the drafted revision to the joint houses, the Bishop of Huron said it was not the intention of the committee to secure a snap verdict or rush it thru the house. He laid emphasis on the amount of personal sacrifice which every member of the committee had given to the work, and in conclusion, said: "I wish you to decide carefully or what has been done."

Chancellor Worrell of Toronto supported the bishop in a vigorous speech.

Chancellor Campbell of Quebec, who took objection to the motion, contended that the jurisdiction in the matter of the report was vested in the provincial synods of Canada.

In support of his argument he cited various statutes affecting the Anglican Church in Canada.

His Grace Archbishop Matheson promised to give due consideration to the objection.
