Found Prisoner in Sessions Not Central Bureau for Control of Guilty on Clear Evidence. Declares Court.

"I do not agree with the verdict. I ever heard clearer evidence than that unfortunate women." Speaking to the prisoner he said: "You will appear before the board of police commissioners on Tuesday next." These remarks were made by Judge Winchester in the sessions last night at 8 o'clock when after deliberating for an hour the jury returned a verdict of "Not guilty" in the case of James Sheehan, charged with living on the earnings of prostitution.

Sheenan was the driver of a taxicab and four women testified that they used his vehicle for nefarious purposes, for which he received \$1 for about twenty minutes' ride. Sheehan claimed that he did not know what happened in his taxicab and only harged the tariff rate.

Norman Wilson, another chauffeur, giving evidence for the defence, stated they were there for public convenience and intimated that it was none of their business what occurred in the cab. In view of this evidence the judge ordered him to report before the police inspector of the division today.

UNIVERSITY MEDICAL TEST IS MORE THORO

Comparison is Drawn With Medical Council's Final Examination.

THE MEDICAL INQUIRY

University Professors Give Evidence Before Mr. Justice Hodgins.

To further ascertain the relative merits of the medical council's final examination of university students as compared with the examination the student passes in the university itself, Mr. Justice Hodgins of the Ontario Medical Commission yesterday heard explanations from several university

xaminers. When Prof. McPhedran of the Toronto University declared that the examination of the medical council was not so thoro a test as the final university examination. Mr. Justice Hodgins asked in what manner. The professor explained that each student is put thru a course of term examination with six patients and made to demonstrate clearly that he has a knowledge of

Not Fair Test. The final year, he said, was devoted entirely to practical work. The year's record makes it impossible for the student to pass the university examination unless he is competent. In contrast he pointed out that the council examination covers the diagnosis of only one patient and the test is made before the council in the afternoon, covering only half an hour, There is too much chance in that. have known five students fail because they were dealing with an unusual lisease of which they had seen but little," he said.

Latitude Allowed.

Further questions from his lordship licited the information that the university allowed a latitude of ten per cent for the student failing to quite come up to his passing marks on the final when his term's work was good, and Dr. King of the medical council interjected the opinion that the method allows numbers to pass who had no

right to.

Prof. Goldie defended the system, and declared he did not know of a single instance where a man had been passed when falling below the 45 per cent. mark on any subject, except when his term's report was exceptionally good. Dr. Clarence Starr testified that in

he surgery department it would be impossible to ascertain the knowledge of a student in a single exam without for many weeks.

Prof. F. N. G. Starr of the university also held that the university test
