

---and this week it's "Bill" ---Sir "Bill"

IN its present series of sketches of Toronto millionaires, TORONTO SATURDAY NIGHT affords us a further opportunity to become better acquainted with Canadian men of wealth.

There are in Toronto perhaps thirty millionaires—some of them multi-millionaires. If these men were to pool their holdings they could buy up the city they live in, according to its assessed value. And you'll be surprised, too, at the number of men you consider just rich who figure in the roster of Toronto millionaires.

The histories of these impressive

personalities make absorbing reading. Vivid and illuminating glimpses are obtained of these shrewd, reticent men of Midas touch. So deep and personal are these thumb-nail autobiographies one is inclined to believe that the writer knows his subjects as a privileged and intimate friend. He reveals interestingly and frankly their habits, traits, opinions and achievements, in such fashion as to expose to view a very human and hitherto unknown side.

The subject of this week's sketch is William Mackenzie—only you say "Sir" to him now. The story of his career, beginning with the romantic period of pioneer transportation in Canada, is presented in a new, authentic, and withal broad conception of the man and his work.

Readjustment of Freight Rates, a Knock for Standard Oil.

CLEVELAND, Jan. 12.—Independent oil refiners have won a victory in a fight to obtain a readjustment of freight rates to points in Canada which will enable them to enter into competition there with the Standard Oil Company. W. E. MacEwan, traffic commissioner manager for the National Refining Co., has received word from the Canadian Railway Commission that the adjustment of rates goes into effect at once. It means a reduction of about 20 per cent. Mr. MacEwan has also filed a claim with the Canadian Railway Commission asking that the railroads be compelled to make reparation of the money above the thru rate, collected for carloads, shipments of oil that have gone into the Dominion since January 1, 1907.

Dividend Payers Turn Firmer But Price Changes Are Nominal

No Outstanding Features to Day's Operations in Mining Markets—
Prices Firm Up at Close of Session.

World Office,
Thursday Evening, Jan. 12.
There was a good deal of irregularity on the market dealing in Cobalt stocks to-day. Trading was generally at a low ebb, but was well distributed throughout the whole list, many of the inactive issues participating in the dealings to a greater extent than is usually the case.

Price changes in relation to the cheaper issues were purely nominal, being limited to small fractions in nearly every instance. The prevailing tendency seemed to be toward an easier range of values, as most of the alterations in quotations were in that direction.

Beaver dropped a large fraction early in the day, selling down to 26c. There was good buying around that level, however, and most of this loss was regained, while at the close bids were in evidence three-quarters of a point above the low figure.

Timiskaming was more active than usual, this being due apparently to an accumulation of selling orders, under which the stock declined 1 1/2 points to 76c, later rallying to 77c, and then selling off again at the close of the day. Little trading was made another fractional advance to 13 1/2c.

The dividend payers were, if anything, a little stronger. La Rose gained two points at \$4.41, and Trethewey up a like amount at \$11.18. Crown Reserve sold off to \$2.43 for a broken lot and closed at that quotation. The market brightened up a little at the close, prices in some instances showing an all round firmness.

WILL REPORT ON GOULD.

COBALT, Jan. 12.—H. H. Short, secretary of the Gould Consolidated, arrived in Cobalt this morning from Ottawa and confirms the report that the Consolidated intend to resume operations. They have retained the services of A. P. Seymour of the Cobalt Lake Mining Company to make a report on the property and advise as to what way the problem of drifting under Cart Lake should be undertaken.

COBALT LAKE AFFAIR

Manager Seymour Leaving—Will Have Surplus of \$60,000.

It is announced from Cobalt that A. P. Seymour, manager of the Cobalt Lake mine for the past 18 months, has resigned his position and will leave the company at the end of this month. Mr. Seymour has been offered the management of a large copper property in the Sudbury district, and still has the offer under consideration, but before deciding will pay a short business trip to the old country.

The World got in touch with Sir Henry Pellatt, president of the Cobalt Lake Mining Company, regarding the report, and was informed that M. R. B. Gordon of the Little Nipissing would succeed Mr. Seymour as manager as soon as the position was vacated.

Regarding the statement made in The Cobalt Nugget to the effect that the Cobalt Lake would probably show a surplus in the neighborhood of \$100,000 at the next general meeting, the president stated that this was a little too optimistic. The directors are hopeful that they will have a surplus of some \$60,000, as developments at the mine of late have been satisfactory.

In reference to the report that the Cobalt Lake had been heavily indebted at the time Mr. Seymour took hold of the mine, Sir Henry Pellatt said that this was an erroneous statement. The company had some \$37,000 from smelters at that time, and as the new vein had already been discovered, all that remained was to open it up, as which ore was in sight in large quantities.

GOOD NEWS FROM BAILEY.

Bailey stock has been exceedingly quiet in the markets dealing in mining shares during the last few days, mainly due to the absence of offerings. A Cobalt despatch yesterday announced another important strike on the property at the 75 foot level, two highly promising new silver veins having been picked up at that depth.

Development work on the Bailey is being proceeded with as rapidly as possible and further good news may be forthcoming in a short time.

EARNINGS ART HIGH.

The advance in Trethewey on the local markets and the good demand for the shares was due to the report that the company is having remarkable earnings and that mill results are much in advance of those of any time previous in the company's history.

SHUT OUT FOREIGN COMBINES.

WASHINGTON, Jan. 12.—Representative Humphreys' bill to shut out of long to foreign shipping trusts or combinations, received the favorable consideration today of the house committee on merchant marine. It would prohibit all foreign ships belonging to shipping commissions, under penalty of \$200 for each passenger landed, and the forfeiture of all goods brought in. It would also cancel the mail subsidy contracts of this government to American ships that belong to such trusts.

Avenge Rag Picker.

In afternoon police court yesterday Magistrate Kingsford gave three Jew batters a rude jolt in the shape of a fine of 25 and costs to each. They were John Wood, David Greer and Richard Boyd. They said that they were just having some fun with Harry Cohen, a rag picker. The fact that neither Harry nor the magistrate saw the joke proved expensive.
