The chief baseball attraction to-day locally will be the city championship games at the Island stadium for the Star Trophy. Riverdales and Bohemians will play at two o'clock. Bill Pearson will umpire both games. Baseball fans will be surprised at the clever ball played by these teams, and a picked team of stars from the other seven clubs were begun to-day. It was announced at "astern League headquarters that Manager Jack Dumn of Paltimore, who, by right of his team finishing second, will manage the All Star team, will meet President Barrow here to-morrow for the purpose of making the final selections for the team that will take the field against Rochester on that club's home grounds in the opening game on Tuesday, Sept. 26. Messrs. Barrow and Paurn do not anticipate an easy task. At least one player and not more than three must be selected from each of the other clubs, and but I in all are to be chosen. With Patent Spring Steel Plate When you examine the Walpole you will

immediately see its superiority and advantage over all so-called hoof pads or bar shoes.

Made of high grade rubber—reinforced with tempered spring steel plate—the most resilient heel or hoof protection possible.

Possesses every feature of a bar shoe -- yet much

lighter. The spring steel plate takes the place of the old-fashioned bar—furnishes a larger bearing surface for the freg. Then it protects the heel—the one great advantage.

You know how quickly all other se-called pads become floppy when subjected to water, snow or slush, allowing the hoof to settle into the pad and bear on the corn or tender spots,

This spring steel plate coming next to the hoof with an even, firm pressure, overcomes this fault and positively relieves all soreness, tenderness, bruises or corns.

The Walpole affords the horseshoer an opportunity to regulate not only for, but sole and wall pressure to suit every individual foot. The rubber nexcelled for its holding qualities on ice or wet surfaces—wood, stone or
