## 'THE CANADIAN CHILDREN'S COT."

A Design to endow a Cot by special subscriptions from children, to be called

## THE CANADIAN CHILDREN'S COT,

was formed upwards of five years ago. Subscriptions amounting to \$99 were deposited in the Post Office Savings Bank, in January, 1881; but no addition was made to the fund except \$6, and the interest on the deposits; which brought the amount up to \$127.87, until the year now ended. At the last Annual Meeting two ladies, comparative strangers in Toronto, one of whom had long taught in a Sunday School established in the country by her mother many years ago, had their attention attracted to the Endowment Scheme by a suggestion from one of the speakers that, if the children attending Sunday Schools only knew that by so doing they could constantly secure the comfort and care of the Hospital for one sick child all the year round, they would gladly do what they could. The result was that these ladies devised and acted on a plan for reviving the interest in the scheme, by sending to friends and children at a distance small cards marked in squares, each square representing five cents, and each card a dollar. The response is shown by the contributions which appear in the following statement, amounting to \$170.19. Two thousand dollars will be required.
