

MINES AND MINING STOCKS

Report That Work is to be Resumed on Monte Cristo—Consequent Demand for Stock.

AN ONTARIO ZINC PROPERTY.

Rossland Mining Co.—Deer Trail No. 2—General News—The Mining Exchange.

It is rumored about the street to-day that work is to be resumed upon the Monte Cristo mine at Rossland. It is said that since Mr. Hosmer returned from Europe he has got things into shape for beginning operations again. It will be remembered that development was stopped some months ago, after a sensational rise in the price of the stock. The World yesterday wired for confirmation of the report, and a further statement regarding it may be found in another column this morning.

Rossland G. M. & D. Co. Editor World: Would you kindly let the public learn through your paper of the present whereabouts of "The Rossland Gold Mining and Development Company." There is a large amount of this stock around here, but none of the shareholders have heard for over a year from the company. It may be they have left Ontario completely and gone across the line to transact business. Mr. G. A. Farini was vice-president and Mr. F. H. Hopper secretary in 1897. Any information concerning them will be much appreciated by me. (Sgd.) Barrie.

The World understands that the above company owns several hundred acres of mining lands in the neighborhood of Rossland. Nothing, however, in the way of development is being done upon these properties at present, and the company seems to be devoting its attention to the Yukon country. Mr. R. S. Neville, the secretary-treasurer, recently wrote the following letter to a shareholder, who sought information:

"The expedition which went out to the gold fields, under the auspices of this and the Yukon company last April, located five claims in Northern British Columbia, about 35 miles from Salt Water. The ore is low grade, but of great extent, and free milling, and they say the prospects are very valuable. No experts' reports have been received upon this property, but an old experienced miner, who went with the men, said: 'I am informed that they were the most satisfactory locations he had ever seen, and it is possible that the prospects may turn out very valuable, as our people hope they will.'"

Very little work was done during the past year for this company. It was intended to send out this expedition. Several of the men were returned to the next month to the property, to go on with its development, and we may expect further news during the season.

The address of Mr. Neville is 18 West King-street, Toronto. Mr. Fullerton, who sold most of the stock of this company, placed in Toronto, is now doing business in Spokane, Wash., and is a Canadian Investment and Mining Syndicate."

An Ontario Zinc Mine. A Duluth wire reads: Another mineral industry has been added to the many of the Lake Superior country, and a successful beginning has been made in the mining since. Some time ago a company of Eastern Canadians, under an option, began mining and shipping zinc blende from a property on the north shore of the lake. They have now closed the deal, and are enlarging their operations materially with a view to becoming leading factors in the zinc market.

They are now shipping about 300 tons of their product monthly to Brussels, and will add to this amount with the summer season. The ore is very rich, running as high as 54 per cent. in zinc and averaging about 50 per cent. Zinc is mined in Missouri at a profit runs no higher than 14 per cent.

The mine has a number of strong veins exposed in the face of a cliff, and the work of mining is very easy and cheap. Geologists will be particularly interested in this development, as the presence of zinc about Lake Superior has not been commonly known.

Deer Trail No. 2. Messrs. E. L. Sawyer & Co. to-day re-

GOLD STOCK

FIVE CENTS PER SHARE.

We are organizing the Premier Gold Mining Co. to purchase and work Loca-

tion K74 in the Selkirk district, right adjoining the Foley mine. This location

contains 149 acres and numerous gold-bearing quartz veins are visible on the property. Very

little work has been done, yet enough to satisfy the promoters that the property is

valuable and that in all probability gold will be found in paying quantities.

Professor William Hamilton Merritt of Toronto says regarding this prop-

erty: "Concerning the general character of the veins it might be said

that they vary from large-sized veins running 2 1/2 to 12 feet in thickness down to

veins which average about 5 inches. In both cases the veins are remarkably per-

sistent and can be traced for long distances. These veins in general are composed of quartz

generally banded and carrying iron pyrites, zinc-blend galena, and some copper pyrites

in greater or less quantities associated with gold. The gold is for the most part

coarse, and this fact, together with the altered character of the granite for a con-

siderable depth, would indicate that the freuelling stage of these veins will extend down

to the places where they have been opened, but it will be a matter of great surprise to me if

prospecting operations on your prospectively valuable area do not disclose veins which

will support handsomely paying mines."

The company will be stocked for \$1,250,000, of which \$650,000 goes to pay for the

property and \$600,000 as Treasury Stock. To defray organization and preliminary de-

velopment expenses 200,000 shares (of \$1.00 each) of the Treasury Stock in the pro-

posed Company will be sold to subscribers therefor.

FIVE CENTS PER SHARE

In blocks of not less than 500 shares. Money to accompany out of town orders.

We believe this is a good proposition.

A. R. McFARLANE & CO., BANKERS AND

BROKERS.

DULUTH, MINN.

War Cloud

Treasury Stock in the WAR CLOUD MINING CO., BOUNDARY,

B.C., may be had upon application to F. H. THOMPSON & CO.,

34 Toronto St., at

5 CENTS PER SHARE.

The War Cloud is situated upon Pathfinder Mountain, about 15 miles north of

Grand Forks. It has a strong vein of gold-bearing quartz, which assays from \$9.30 to

\$57.46 per ton.

Development work will be vigorously prosecuted. A limited amount of treasury

stock only will be sold at 5 cents. The stock is assessable to the extent of 2

cents per share, not to exceed one mill per month.

We recommend this as a safe and profitable investment. Wire or write us

for quotations on all Republic, Rossland, Boundary and Camp McKinney stocks.

BENTON WALKER & CO., 246 113 Mill-street, Spokane, Wash.

Lake View Gold Mining Co'y

.....Of Republic, Wash.

The company is at present running a cross-cut tunnel, working night and day.

Will tap an 8-foot and a 4 1/2-foot ledge in about 60 days. Here are some assays from

the surface of both ledges: \$32.00—\$22.40—\$3.20—\$9.30—\$60.08—\$10.80 and \$6.20.

The company is offering now a limited amount of treasury stock for sale at 5 cts. per

share; per value of stock one dollar; non-assessable. Company's ground is 1200 x

1800 feet, in one body, surveyed, with good buildings. If you are interested in legiti-

mate mining, place your order with any reliable broker in Toronto, or direct to

Lake View Gold Mining Co'y

5 and 6 Van Valkenburg Blk., Spokane, U.S.A.

Demand is Strong for

Mountain Lion Shares

Of Republic at 85 Cents

FAIRFAX is a coming Mountain Lion, being an extension of ledge 900 feet

northwest. First block of treasury at 25 cts. and is in demand by the miners

of Republic. The equal of this is not to be secured in Republic.

BLACK HORSE at 5 cents is a buy. Adjoins Tom Thumb. Has ownership and

push that made the latter 25 cents. T. M. Hammond, mining engineer of Republic,

says best speculative buy in the camp; ledge showing same values as Standard.

Special facilities in furnishing Rossland, Camp McKinney and Republic stocks.

Maps and information cheerfully mailed. "Clough's Code."
