J. G. Beaty, 21 Mellada-street, received the following from McIntyre & Marshall this evening:

Wheat—There has been a fair trade in wheat to-day, considering the short session and approaching helklays. Cables bottle at once.

were a fraction lower; weather perfect, Recepts at primary points nair majdon, with clearances the same. Market opened off and has ruled at about ½c decline for May all day, tovernment report of risterday and general favorable conditions responsible for decline. There seemed to be plenty of December for sale by elevator concerns and this option went out a full cent break on the day. Minicapolis reports a good demand for cash wheat there at May prices. Close is easy at low point of day. Cora has ruled rairly steady on buying by several local professionals. It was thought government report would have more effect, but prices only lost ½c to ½c. There was fair selling by commission houses and there seemed to be plenty of December on tap. Elerator people were sellers of the January, but Harris-Gates took most of their offerings, 284 cars, here today, with 355 estiliated for to-morrow. Oats have been easy and firm at different fillies today, without special feature. Some selling which was credited to commission houses. Provisions sold off on heavy run of hogs and lower prices at yards, but declines were not as much as expected. The officings all well-taken by packers and market steadled on the buying and demand from shorts in January stuff.

A Small Pill, But Powerful.—They that judge of the powers of a pill by its size would consider Parmelee's Vegetable Pills to be lacking. It is a little wonder among pills. What it lacks in size it makes up in potency, The remedles which it carries are put up in these small doses, because they are so powerful that only small doses are required. The full strength of the extracts is secured in this form and do their work thoroughly.
