The Price of Employees' Suits.

To the Editor of The Advertiser:

In reply to Mr. Watson as to receiv-
ing \$13 75 for uniforms for street rail-
way men, he may have got it, but how
much did he give back to the company,
as there were several, briefly outlin-
ing on them at a much less price than
that, and they were too high. We will
give you a few who tendered for them:
Mr. Armour, East London, whose price
was \$10; Mr. Bird tendered them at \$9;
Mr. Baker, South London, \$9 25; and
they were all too high. We can give you
others, but it would be taking up too
much space. These prices are for the
union price for making coats, and Mr.
Watson had the coats partly made at
Greene's wholesale house, so he got
them up partly shop-work, and, as he
said, got a big figure for them. Mr.
Watson's own words are that he ten-
dered on overcoats at \$9, and the con-
tract was given to Mr. Chapman for
\$11 50, so there was something wrong
there; but it all goes with the street
railway employees. They dare not say

PERPLEXED PEDAGOGUES

When Should They Demand
Health Certificates From
Pupils?

Parents Dissatisfied With Present
Rules—An L. O. I. Cadet Corps To
Be Established—Board of Education
Has No Funds.

The duty of school teachers in de-
manding a certificate from the medi-
cal health officer after a pupil has or
is supposed to have had some infec-
tious disease was discussed at the regu-
lar meeting of the board of educa-
tion last night.

Trustee Wilkins raised the question
and said a great deal of dissatisfaction
existed among the teachers and par-
ents. He cited the case of Mrs. Geo.
Stinson, living on Maitland street
north, whose child was unwell for a
few days but with no contagious dis-
ease, and when she wished to send the
child back to school, a certificate had
to be obtained from the medical health
officer. Mr. Hutchinson first asked \$2
for the certificate, but finally gave it
up for \$1.

Some of the trustees said it was un-
derstood the certificates would be given
free, but they also knew of cases
where a fee has been charged.
Dr. English considered Dr. Hutch-
inson quite within his rights. He was
under the jurisdiction of the board of
health and the board of education had
no power to order him to give the
certificates free.

Mr. McRobert said he would not have
made the motion he did about the
certificates if it was decided to
make them compulsory, if the medical
health officer had not assured him that
no charge would be made for them.
Mr. Teasdale thought it most ab-
surd for a teacher to demand a cer-
tificate because a child was feeling un-
well and stayed at home for a day or
two. Such a teacher should be com-
pelled to get a certificate from the
health officer to ability, he said. Chil-
dren with infectious diseases were not
ill one day and well the next, and the
teacher should take the mother's word.
The medical health officer was not
charged to give certificates, and it
gave him a lot of extra work, said
Dr. Teasdale. He believed the law was
too stringent.

Mr. McRobert defended it. A string-
ent law was necessary to keep the
physicians in line, he said.

No action was taken. It was thought
the teachers would take warning and
be more careful about asking for cer-
tificates.

The finance committee reported a
depleted treasury. There are no funds
to make the proposed grant to the late
A. G. Stewart, or to establish a kinder-
garten for the same. The committee
suggested that the most rigid economy
will have to be exercised, the report
states, and in any event the overdraft
at the end of the year will be con-
siderable.

Inspector Carson and Principal Mer-
chant submitted no reports.

The report of No. 1 committee con-
tained several recommendations con-
cerning the extension of fees to high
school students, also that a kinder-
garten be established in connection
with Maple avenue school Jan. 1, 1929,
and that No. 2 committee make re-
commendations for the same. Miss
Florence M. Wilson be appointed as an
assistant in Lorne avenue kinder-
garten; that Miss Northcott be added
to the substitute staff; and that a
kindergarten be established at the Col-
legiate Institute, the \$50 grant from
the government be given to the drill
instructor for his extra services.

All the recommendations were
adopted.
On motion of Trustees Gillean and
Hamilton no more teachers will be
in need in connection with the text
book. He was strongly opposed to
teachers "airing the effervescence of
their imaginative brains" instead of
going by books.

Applications from Mr. Justus Wright
and Principal of the new school, Rich-
mond street north, were referred to
No. 1 committee. W. Parker's appli-
cation for the position of janitor of
the school was sent to No. 2 com-
mittee.

Progress was reported re the adju-
stment of teachers' salaries.
Those present were Chairman Logan,
Mrs. Byrnes, Messrs. McRobert, Bay-
ley, Evans, McCormick, Boyle, Dr.
English, Weldon, Dr. Teasdale, Dr.
Ziegler, Bridle, Hamilton, Gillean and
Strong. Inspector Carson, Principal

"THE COMING MAN" THE DETROIT SUICIDE

Rev. Dr. Anna Shaw Tells a London
Audience What Some of His Char-
acteristics Must Be—A Capital
Lecture.

"The Coming Man" was the subject
of a lecture by Rev. Dr. Anna Shaw, of
Philadelphia, in the Dundas Center
Church last evening. The edifice was
fairly well filled, as this talented lec-
turer is no stranger to London audi-
ences, and has always had a reputa-
tion of being a forcible and pleasing
speaker. The lecture was a capital one,
both interesting and instructive, and
the speaker was frequently ap-
plauded. Her illustrations were clear
and distinct, and the lecture abounded
in considerable humor, which was very
effective. Rev. Dr. Saunders occupied
the chair, and said he was pleased to
be able to introduce one who had aided
so much in the reforms of humanity.

Dr. Shaw, in her opening remarks, said
she thought the new man should re-
ceive part of the attention that the
new women had been getting for some
years. Men were distressed and afraid
that women would adopt the men's
wardrobe. There was no fear of this,
as women always wanted to look their
best, and no human being ever looked
well in men's clothing. (Laughter.) The
new man was to be created of God.
The women were not the sentimental
sex today; it was the men. The first
thing that was required of the new
man, for the new woman, was that he
be physically a man. The girls of to-
day were physically stronger than
those of 25 years ago. They should get
more into outdoor sports and life, and
leave their crazy quilts and knitting
for pleasure alone. One man attempt-
ed to make a crazy quilt, but he was
crazy before he started. Gymnasium
work at college was good for girls.
The boys of today were not so strong,
physically, as their forefathers. This
was due to the use of narcotics, to-
bacco and yellow journalism. The new
man would get an idea of the dignity
of man, and refuse to let himself ac-
quire bad habits, not because of wor-
ship, but because he was a new man.
The new man must be an intellectual
man. It took a much better man to
run an electric car than the old horse
conveyance. He must have confidence
in his own mind, and a steady hand. The
demand of today was for developed
minds, not developed brawn.

The W. C. T. U. speaker said,
had taken up all good reforms, and
was doing a noble work along these
lines. There was an old saying that
the world was everyone a living. This
was not so. What the world did owe
man was a chance to earn a living. It
was said that a woman was usurping
right, and should go back to the work
of the mothers and grandmothers. The
work of these mothers and grandmothers
was knitting, butter making, candle
making, and numerous other
arts, which were all done now by ma-
chinery invented by man. Man digni-
fied woman's work. A female cook
man, with a fancy name, in a
Boston hotel, got the same salary as
the president of Harvard university.
Co-operation between employee and
employer is the life of business. Men
and women should co-operate. Women
should get equal pay for equal work.
This would do away with the cry of
cheap woman labor. The new man must
be a moral man, created in the image
of God. His spiritual life should be
developed. The recent plebiscite vote
was a grand one, and when this was
carried out, what hope there would be
for the manhood and womanhood of the
future!

A cordial vote of thanks was tender-
ed the lecturer, accompanied by a beau-
tiful bouquet of flowers.
Rev. Dr. Shaw goes to Ottawa in a
couple of days, where she will address
the provincial convention of the W. C.
T. U.

Proves to Have Been That of a London Cigarmaker.

The young man who committed sui-
cide at the Michigan Exchange Hotel,
Detroit, has been identified as Fred
Kennedy, a cigarmaker, of this city.
He had been missing since Saturday
afternoon after getting his pay at the
factory of Mr. S. R. Manness, and the
first positive knowledge the young
man's wife or parents received of his
whereabouts was sent by Mr. Joseph
H. Grenfell from Detroit last night.
Deceased was 27 years of age, and
month ago resided in West London.
His father, Mr. James Kennedy, lived
at 288 Hill street. The reason assigned
for the rash act is dependency. His
friends noticed he was strangely down-
cast of late, but had no idea of how
despondent he had grown.
Mr. J. H. Grenfell, of Wellington
street, in whose name the suicide ac-
cidentally at the hotel was identified in
yesterday, and identified the body. Rel-
atives of Kennedy have also identified
the remains, and last night Mr. Chas.
Kennedy left for Detroit, expecting to
return with the body at 4:30 today for
interment.

tion of the handsome premises, and
finally in his office a lunch was served,
and after some speeches and
many congratulations to Mr. Amyot on
his new works, the
