

# COBALT---Irregularity in Prices

## Mining Markets Shade Lower Irregularities Frighten Holders

### Recent Action of the Market Disturbed the Confidence of Holders and Kept Off Buyers.

World Office, Thursday Evening, April 22.

While some irregularity existed today a fair amount of business was transacted on the Cobalt exchanges, and as a rule at somewhat lower prices than yesterday.

There was a renewal of attempts to drive Temiskaming lower, but the stock is becoming scarcer and professional players for a decline are not meeting with the success they did some days ago. The larger priced issues, such as Nipissing, La Rose and Tremblay, were steadily firm and apparently unimpaired by the weakness in some of the smaller priced stocks. City of Cobalt, Peterson Lake, Cobalt Lake and Rochester all sold lower, a special effort seemingly being made to promote liquidation in Peterson Lake.

The recent action of the market has entirely disturbed confidence and holders of stock are exceedingly nervous and thereby tempted to sell out on any appearance of weakness. Under the market has assumed this feeling will undoubtedly continue and prices remain irregular until a more stable condition of affairs is perceived.

### EXPLOSION AT ELK LAKE

Three Men Injured by Dynamite Explosion at Delvina Mine.

ELK LAKE, April 17.—Three men were seriously injured in a dynamite explosion which occurred in the shaft of the Delvina Mine, situated about four miles from here. They were working in the shaft and an old hole was being drilled. It appears that the hole had been previously charged with dynamite, but for some reason or other, the dynamite failed to explode. The men were brought to Dr. Harcourt's hospital here, where four doctors were in readiness to attend their injuries. Late to-night the men were reported as doing as well as could be expected. None of them will lose their eyesight. Mirron, who is the foreman of the gang, is a married man and has two children. The other two men are single.

Philadelphia Mining Man at Elk Lake.

ELK LAKE, April 17.—(From the Man Up There) The town of New York, who is an experienced mining man, having spent some years in the western states, is looking after the interests of a Philadelphia syndicate. This is Mr. Flynn's first visit to the silver fields of Northern Ontario, and as he has only been here a few hours when seen by The World correspondent he was unable to express himself as to what he thought of the future of the district. However, his Philadelphia principals are of the opinion that there are some first-class mining opportunities in this district, and on that account he is here.

SURVEY ROAD TO GOWGANDA.

C. H. Fullerton, civil engineer, has been sent north by the department of public works to survey the route for the summer road to Gowganda. The estimated distance is 32 miles. Construction will begin about June 1.
