## 23 CATTLE BURNED

St. John Milkman Loses His Entire Herd This Fire.

ST. JOHN, N. B., May 24.—(Special.)—Twenty-three head of cattle, composing the whole milk herd of John Hannah, were burned to death last Monday night, in a fire which destroyed his barn. It is believed to have been caused by a tramp going in there to sleep and lighting a match to locate a place. There were rumors of a man being burned to death in the fire, but search has revealed no evidence.

The dredge Beacon Bar, owned by the Maritime Dredging Co., was sunk at the bar of the same name in St. John harbor to-day. In some towing operations a scow struck the dredge, knocked away a plank and the dredge filled and went down, only her house showing. She will probably be easily lifted.

## WORLD WIDE PEACE

Inauguration of a Movement Bearing the Name of King Edward.

LONDON, May 24.—A proposal to inaugurate a world-wide peace movement, bearing the name of the late King Edward, was made by Sir William Mather, at a meeting of the peace society this morning. The suggestion met with prompt approval, and speakers who followed Sir William intimated that there was reason for the belief that Emperor William of Germany was desirous of taking a very important part, if not the actual leadership, in promoting a peace league of the world.

The annual meeting proper of the society was held at Guild Hall to-night.

## AN AMBITIOUS FLIGHT

Glenn Curtis Will Attempt to Aviate From Albany to New York.

NEW YORK, May 24.—Glenn H. Curtis will attempt on Thursday the most ambitious flight over the water that has ever yet been essayed in an aeroplane. Under the terms of competition offered by The New York World, he will try to fly from Albany to New York, keeping over the Hudson River, with one stop, altho two stops are allowed.

For the last six months Curtis has been making preparations for the prize of \$10,000 offered by The World for a flight from New York to Albany or reverse with one stop. Recently he has been conducting experiments to determine the ability of his latest model to light on the water and float without upsetting. Without air tight compartments to sustain the aeroplane upon the water, Curtis believes that he could fly from Albany to New York in one lap. However, he has equipped himself with life buoys and the weight of the life buoys necessarily deducts from what would otherwise be available supply of gasoline.

## TWO ALD. SAM MCBRIDE.

## BROOK NO INTERFERENCE.

Either Senator Cullom or Senator Keam makes the full motion that the Senate go into executive session. It requires about as much effort to do this as to move an adjournment, but it is a public duty over which the elder and the younger man have become rivals.

"What would happen if any Senator besides Cullom and Keam made the motion to go into executive session?" I asked.

"They wouldn't go," responded Senator Burkett. "And if they went their proceedings wouldn't be legal. It's just like asking to dispense with formal readings of the journal. Keam has been doing that every morning for a long time. One day another Senator suggested it, and Keam was quickly on his feet. 'Let the journal be read,' he said, and it has now become the custom that unless Keam makes that motion it is not just the thing to do."—Washington Correspondence.
