Many for Cook Banquet

New York, Sept. 17.—The sale of tickets for the welcome-home banquet to Dr. Frederick A. Cook, is making the committee in charge that there are plenty of persons who have faith enough in the cook's claim to pay \$5 each for the privilege of attending that function.

Not a Case for Sympathy

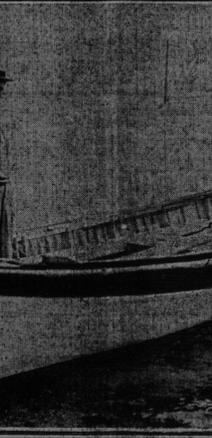

The case is not in one in which an appeal for sympathy could be entered. In the case of a homicide it might possibly be different. A crime done for revenge had a different aspect, but this crime of damaging one's fellow men and fellow women of the most perfect virtue and spotless character, had a far different light.

His Honor, Justice White, in addressing the jury said he would make a few observations. Some of the jury might have read Free Speech. If such was so, they should leave it out of their minds altogether if they wished to give the prisoner a fair trial.

Since the number of guests is limited to 1,200, the committee believes that the demand for seats will exceed the supply and is making preparations to keep tickets out of the hands of speculators.

Bandits Hold Up a Train

Five Robbers in Daring Outlaw Deed, But Get No Booty. CLIMB ON ENGINES

Compel Engineers to Open Express Safe and Robbers Flee—Possé in Pursuit of Them.

Leadville, Colo., Sept. 17.—A daring attempt by five bandits to rob the second section of the Denver and Rio Grande passenger train No. 5, was made about 11 o'clock last night about four miles west of Malta, a small station near Leadville. The express car was dynamited. According to the trainmen no booty was secured. It is believed the robbers climbed on the two engines of the train at Malta. The train had proceeded but a short distance when two men crawled over the tenders and compelled the engineers and firemen to march back to the express car. Engineer Smith, of the first engine, was told to hammer on the door and order the express messenger to open it. The latter refused and a charge of dynamite was placed under it and the door blown open. Three of the robbers rushed in, covering the express messenger with revolvers. Several charges of dynamite were placed under the safe, but without result except to wreck the interior of the car. After firing revolvers and pistols, the robbers fled. One of the trainmen in the meantime had reached Malta and Sheriff Campbell with a posse at once started in pursuit.

It is said the safe contained a large sum of money. The train was known as the Chicago and San Francisco express.

Scares Burglar

Onset Bay, Sept. 17.—Mrs. Charles S. Sprague of Boston and Miss Sprague were alone in their bungalow in Fifth street, Shell Point, when at 3 o'clock in the morning a sound awakened both, coming from the direction of the kitchen. Mrs. Sprague had her firearms in the house, but her first thought, she says, was of burglary. She shouted: "Give me the gun, Jack!" "Jack" was cool, too, for she said: "Don't point the gun this way!" The burglar jumped to the side door out of the kitchen, unlocked it and jumped over the rail and ran away toward the beach. Mrs. Sprague followed him, but the marks of his shoes, deep in the dirt, remained to corroborate the story. While the man had gone the women's shrieks aroused the cottagers in the neighborhood, and J. H. Hinder, next door, and two men both coming to his house for the rest of the night. The burglar got nothing.

To Become Wine Producing Place

Spokane, Wash., Sept. 17.—Arrangements have been completed by the Inland Empire Vineyard company, organized in Spokane, with a minimum capital of \$200,000, to establish the most extensive vineyards and the largest wine and grape-juice producing plant in the United States. Jacob Schaefer, president of the concern, says the vineyards will be on the Clearwater and Snake rivers, near Lewiston, Idaho, and Clarkston, Wash., where all varieties of European grapes thrive. Albert Angermayer, a grape-cultivist, reports that many parts of the inland empire are better adapted to grape growing than some of the famous districts in Germany and France, as the drained phylloxera cannot exist in the volcanic ash soil. He announced that the company has options on more than 5,000 acres of land in the inland empire, adding that 2,000 acres will be planted to grapes early in the coming year.

Doctors Studying Strange Disease

Washington to Issue Weekly Bulletins on Pellagra

Washington, Sept. 17.—So widespread has interest in the strange malady, pellagra, become among the health authorities and others throughout the country that Surgeon General Wyman of the Public Health and Marine Hospital Service has decided to issue a weekly bulletin dealing exclusively with the developments of that disease. This step has been decided upon as a result of requests from practically all the state boards of health, which are watching the progress of the disease, particularly in the south, with much concern. The proposed report will show not only the statistics of the disease, but will include the distribution of the disease. The statistical data for the publication will be furnished by the medical authorities of the various States and Territories. This information, it is believed, will be of great aid in determining the cause of pellagra and help materially in the efforts of the government to check its progress.
