Illies Must Build More Ships To Equal Submarine Losses

hortage of Shipping Is Most Vital Fact in the Present Situation and the Building of Merchant Ships Is of The Utmost Importance

London, Sept. 28-The controller of shipping has authoriezd the Associated Press to make the folwing statement of the shipping situation and the urgent need for the United States to undertake the rchant shipbuilding programme on a broad scale:

"IT IS OF THE UTMOST IMPORTANCE THAT THE UNITED STATES SHOULD REALIZE

"IT IS OF THE UTMOST IMPORTANCE THAT THE UNITED STATES SHOULD REALIZE are clogged with sour waste.

"IT IS OF THE UTMOST IMPORTANCE THAT THE UNITED STATES SHOULD REALIZE are clogged with sour waste.

"When listed stomach, liver and bowels are clogged with sour waste.

"When listed stomach, liver and bowels are clogged with sour waste.

"When listed stomach, liver and bowels are clogged with sour waste.

"When listed stomach, liver and bowels are clogged with sour waste.

"When listed stomach, liver and bowels are clogged with sour waste, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs."

and in a few hours all the foul waste, the sour bile and fermenting food passes out of the lowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothing the winter it may the other allies as her own forces will add. the other allies as her own forces will add

"However large and powerful the army which the United States trains during the winter, it may rendered absolutely useless as an addition to the fighting forces against Germany if there are no ips to transport it except at the cost of stopping the flow of vital necessities to the present armies. 10 VESSELS DESTROYED OVER BUILDING PROGRAMME.

"The loss of shipping since the beginning of the ruthless U-boat war is now roughly equal to the tal losses prior to that time. By next spring Germany may be expected to destroy 200 vessels in ex-

"Next spring, this year's harvest will be largely exhausted and the need of supplying Italy, rance and Great Britain will be largely increased. At the same moment, the United States will need a fornia Fig Syrup Company? Hand arge increase in vessels to transport its army and to maintain it.

"What must be the programme of the United States? It must be large enough to outbuild subparine destruction. Even if this means the building of six million tons a year, which is three times the nors, for many years a customs official est the British have done and five or six times what the United States has previously done. This is not who are glad to know that their wounds are not dangerous, and who wish them eir armies, navies and munitions. To build six million tons of shipping would require about 3,- a speedy recovery. 00,000 tons of steel, or less than ten per cent. of her output. It would take not more than a half million Private Geo. Bulmer Killed in Action.

"The task thus outlined is small compared with the effort put forth by the principal belligerent in

r example, increased her army from 250,000 men to more than 5,000,000 men. "Great Britain added as well 250,000 men to her navy and trebled it in size, while in munitions he British effort whether measured in money, men or material has been greater than what is needed for an adequate American shipbuilding programme.

"Before the war all the shipping in the world was only worth about the same capital as the wo big English railway companies. IT WOULD BE THE MOST INCONGRUOUS THING IN THE HISTORY OF WARFARE IF THE WAR, IN WHICH SUCH IMMENSELY GREATER STRENGTH HAS BEEN EXERTED IN OTHER DIRECTIONS, SHOULD HAVE THE ISSUE DECIDED BY FAIL-URE TO SOLVE THE PROBLEM OF BUILDING SIX MILLION TONS OF SHIPPING A YEAR IN A COUNTRY WITH SUCH VAST RESOURCES AS THE UNITED STATES.

'What is the present situation regarding U-boat losses? "It is clear that the submarine war will fail in its main intention. It will not starve Great Brit- Save in and it will not interfere with the adequate supply of munitions. But British shipping strength still s being constantly reduced, and we have not yet reached the point where building equals the losses. Under the circumstances Great Britain's position as the supplier of the allied needs is handicapped. But of main importance is what it means toward the efforts of the United States in the war and unless the 25-cent "Danderine" Makes Hair situation is faced, the great military effort of the United States will be crippled from the start."

OFFICERS FOR TRAINING DEPOT

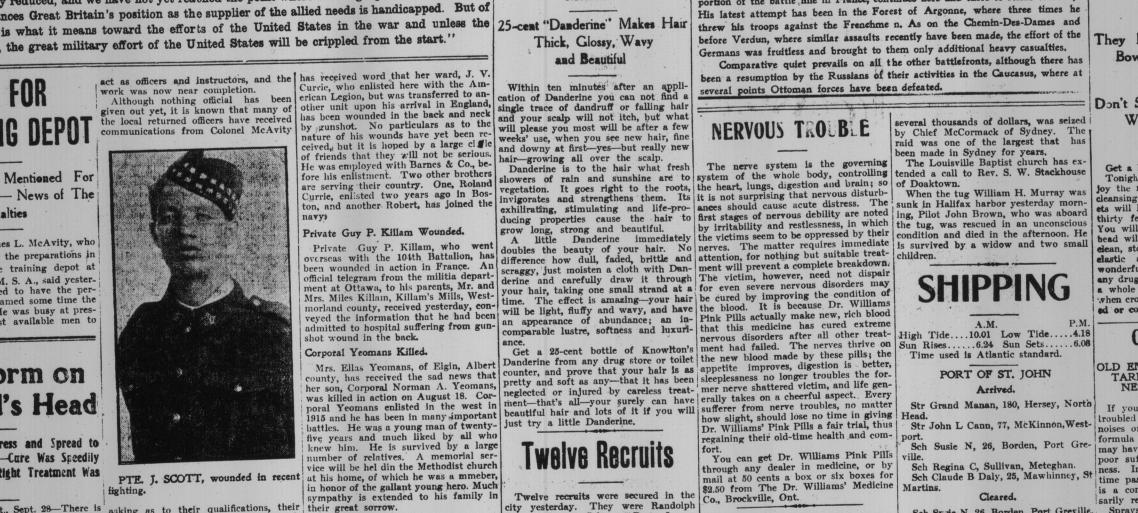

Returned Men Mentioned For Approintments — News of The

Lieut.-Colonel James L. McAvity, who is now looking after the preparations in connection with the training depot at St. John under the M. S. A., said yester-day that he expected to have the per-sonnel of his staff named some time the first of the week. He was busy at pres-ent getting the best available men to

Ringworm on Child's Head

Caused Great Distress and Spread to Neck and Ears-Cure Was Speedily Effected When Right Treatment Was

ber head which looked like ringworms. They were spreading fast, and I tried home treatment, but nothing helped her, I took her to the doctor, and he opened some of the sores, which were as big as the yoke of an egg. The salve he gave me to put on was very severe, and the poor child would cry for an hour or more after an application. For six weeks it continued to spread all over her head and came down to her neck and ears. She suffered terribly. At lest some kind ladies told me about Dr. Chase's Ointment, so I got a box, and the first time I put it on she was relieved of pain, and the second time the swelling was all gone. Before we had finished the first box the sores were nearly all gone. I

Nation-Wide Conspiracy To Hamper U. S. War Activities

Chicago, Sept. 28-Formal return of a blanket indictment charging nation-wide conspiracy to hamper the government during the war, was made today in the United States district court here against 166 leaders of the Industrial Workers of the World

Arrests speedily followed the return. Almost before the court proceedings had reached the state of the discharge of the jury, Daputy Marshals were on their way to the local I. W. W. headquarters in expensive automobiles, donated and driven by patriotic wealthy women and quickly returned to the federal building bringing prisoners with them.

In the first hour, thirty-five men were thus haled into the marshals office and later were questioned by investigators for the department of justice. Among the first to be taken in custody was William D. Haywood, secretary of the national organization of the I. W. W. who was questioned September 5

Only leaders in conspiracies or those personally culpable in connection with ers can rest easy after giving it, because it never fails to make their little "in-

> permitted to escape during the court proceedings, which occupied only a few ments to the clerk of the court and a few brief words from Judge Evans, that they had done their duty as citizens, a duty which the courts said was "quite as important as any obligation which rests on a citizen."

> overnment attorneys taking pains to specify that no others were touched, After he had been questioned by Hinton G. Clabaugh, of the department of

justice, Haywood was held in default of \$25,000 bail. After the first automobile loads had reached the federal building, more perons were taken in custody until approximately 150 had been brought in to be questioned. Sixteen were taken in a second descent on the L. W. W. head-

Haig Holds Positions Won

At last accounts Field Marshal Haig was holding and consolidating the we are able to confidently look the world in the face. We did not will this salient positions won from the Germans in Wednesday's battle east of Ypres, the extension of which would give him a dominating point from which to operthe extension of which would give him a dominating point from which to operate against the Ostend-Lille railroad and also a position flanking both the northern and southern portions of Crown Prince Rupprecht of Bavaria's line.

All the commanding positions taken by the English, Scotch and Australian troops in the latest drive have been firmly held by them, despite numerous furious counter-attacks delivered with huge effectives, in which the Germans suffered terrible losses in men killed or wounded. The Berlin official communi cation reports that to the east of Ypres the British artillery again has assumed the proportions of drumfire, which is always an indication that Haig has in store for the enemy a still further relentless attack against his lines.

Crown Prince Frederick William, probably imbued with the idea that at some time he will be able to pierce General Petain's front along the southern portion of the battle line in France, continues here and there to strike violently. His latest attempt has been in the Forest of Argonne, where three times he threw his troops against the Frenchme n. As on the Chemin-Des-Dames and
