

MURRAY JAMESON OF CLOVER HILL, KINGS COUNTY IS KILLED

(Kings County Record) The sad intelligence of the death of Murray Jameson, Clover Hill, was received on Tuesday by his parents, Mr. and Mrs. Alex. Jamieson. Murray Jameson was every inch a hero, and the story of his military service might well bring the blush of shame to some of those who drilled with him at Camp Sussex.

He was in New York when he was killed, and wrote home that he intended to enlist, and first thought of going with Major Anderson, of Moncton, who was then recruiting an artillery unit. Murray had been with the 19th Battery. He decided not to go, however, in deference to his mother's wish, and later thought of joining the 26th. Finally he resigned a splendid position with a large hardware concern and left for England, where he enlisted with the Middlesex Regiment, one of the crack infantry battalions of the Motherland.

For some months he fought in many actions, and although he was wounded, he never wrote of his injury to his parents, not caring to cause them unnecessary worry. On June 21st he entered the trenches, and after two weeks' service was badly wounded during the big offensive, in which none won more credit than the Middlesex Regiment.

The letter conveying the sad news of his death was as follows: Dear Mrs. Jamieson: I regret to inform you that your son, Private Jameson, of the M. G. Corps, has died of wounds in the hospital on July 4th. He has been laid to rest in a quiet cemetery near. A cross bearing his name, regiment and date of death will be erected and a record kept.

I hope that God will be very near you and give you grace to carry your cross. It may be consolation to know that your son has died for his country and that his sacrifice will not be in vain. It must one day produce the fruits of liberty and righteousness. Please accept my deepest sympathy. I remain, yours truly, REV. R. F. WEARMOOUTH, C. F.

MR. MACKIEGAN HOME FROM TORONTO

Practical Beginning by General Assembly Special Committee on Church Union

A practical beginning has been made by the special committee of the Presbyterian General Assembly on church union, which has been meeting in Toronto this week. Rev. J. A. MacKiegan, who is one of the eastern members of the committee, returned to the city today, after attending the sessions.

The object of the committee, Mr. MacKiegan said, is to carry out the decision of the assembly to effect a union with the Methodist churches by legislation which will be brought one year after the end of the war.

The need for a meeting at present arises from several circumstances. Already there are requests from the west for guidance in the formation of new union churches and the committee is dealing with these. The demands of the social service work are also pressing and in this co-operation will be arranged as fully as possible.

Advantage was taken of the presence of Rev. Dr. Chown, superintendent of the Methodist Church of Canada, and Rev. Dr. T. Albert Moore, who paid an informal visit to the committee. The new situation arising out of action of the assembly was discussed by the Methodist representative, and practical suggestions were made for the furtherance of a working basis of co-operation.

Special Committee Appointed A special committee was appointed to confer with similar committees of the other churches for the purpose of determining policies. Provision was also made for the appointment of co-operative synodical committees. To these committees were referred matters relating to union churches. The following is the special committee: Rev. Dr. Baird, convener; Rev. Dr. M. A. McKinnon, Regina; Rev. Dr. E. J. Wilson, Vancouver; Principal Dyde, Edmonton; President Murray, Saskatchewan; Rev. Dr. Wallace, Toronto.

No Legislation Policy The committee agreed that no policy in regard to legislation should be adopted until after full consultation with the other churches. The executive consists of members of the general committee resident in Toronto, with Rev. Dr. Clark, Montreal; Rev. Dr. Herdridge, Ottawa; Rev. Dr. Drummond, Hamilton.

THE WHEAT MARKET Chicago, July 22.—Black rust damage increasing and the infected territory widening, caused a fresh advance today in the price of wheat. The opening, which ranged from 1/4 to 1/2 1/2 higher, with September at 124 to 124 1/2 and December at 127 to 127 1/2, was followed by a moderate reaction, but then another upturn.

THE FERRY SERVICE The ferry steamer Governor Carleton struck an obstruction yesterday afternoon while entering the West Side slip and broke her propeller shaft. This put the propeller on one end out of commission, but the boat was kept on the service until nine o'clock at night, carrying passengers and light teams. By that hour the steamer was taking water so freely that she had to be laid up and the city was without a ferry for the rest of the evening. Fortunately the Lowlow was ready for use and she was put on the route this morning. The work of repairing the Governor Carleton is already under way.

TENDER ACCEPTED The tender of H. Jacobson was accepted by the assignee, Walter E. Foster, for the stock of Jacobson & Company.

The persevering landscape painter knew that he had an observer looking over his shoulder at the easel. He knew from the rustle of skirts that the observer was a woman, yet he worked steadily on. Presently the observer spoke: "A charming landscape," she said. "Ah, you flatter me," said the artist, modestly. "Compared with the original landscape it is a very poor thing," he meant the original," said the observer.

CITY STREET WORK Work on the new concrete pavement in Main street is rapidly nearing completion and it is expected that it will be finished on Monday. So soon as the concrete is laid it will be necessary to close the street car track on the north side of the street, west of Douglas avenue and Adelaide street, to harden. By next Friday the cars should be running again and the new pavement will be opened for traffic by the following Monday, if the weather continues favorable.

In South Market street the paving work also is progressing well. The curbing has been reset and most of the old material removed. This street will be finished before North Market street is started to allow traffic to reach the market on one side continually.

The work of stripping the old building in front of the rear and two face of the street has been completed and the shells that are left will be torn down in a few days. When the buildings are out of the way a start will be made towards widening the street. When this is finished there will be an extra width of nineteen feet at this busy corner.

AUTOMOBILE CHANGED INTO RAILWAY INSPECTION CAR A car for use on a railroad track by the general manager of a western line, has been constructed by remodeling an eight-cylinder touring automobile and equipping it with wheels having a steel lining and railway-wheel flanges. Eight seats face the rear and two face the front. The steering wheel has been removed, but otherwise the car is operating as an ordinary automobile. By means of an air jack fastened under the car the latter can be raised off the track and turned about by one man.

(Continued from page 1.) He was questioned by the commissioner as to why he had not cast the log and said that he had found that it varied and had not used it. Closely questioned, he said the chief reason he had not used it was because he did not think it was his place, and he thought the commander might tell him to mind his own business. He did not want to use the instrument without the permission of the master. This concluded the morning hearing and adjournment was made until 2:30 o'clock.
