### MENZIES' TUNNEL MATTER UNDER QUESTION AT CITY HALL MEETING

#### Fear of Possible Suits Expressed—Commissioners Discuss Musquash

At this morning's committee meeting of the Common Council all the commissioners excepting Commissioner Thomson were present. There was some discussion of the erection of the boulder to mark the spot made memorable by the landing of the United Empire Loyalists. Commissioner Frink brought up the matter of the construction of a ditch to connect Menzies Lake with Ludgate Lake and question the right of the city to go ahead with the work. He feared suits on the part of owners or part owners in the rights of the former Lake. The bill of the New Brunswick Electric Power Commission for current was not dealt with owing to the absence of Commissioner Thomson.

The Mayor read a letter from the N. B. Division of the Red Cross Society, announcing a meeting of those interested on Friday, Sept. 14 at 4 o'clock. He and the commissioners were invited. Relief for Japan will be the subject. The Mayor said he had been advised by Dr. J. C. Webster, St. John's, that the committee on the boulder in Market Square to mark the spot of the landing of the Loyalists, He asked authority to write to the board saying that the city would not give up control of the site, that it did not know where a suitable boulder could be obtained, and that the city would be willing to look after the upkeep of the site.

Commissioner Wigmore moved the renewal of the lease to the Government of the site of the hatchery at Little River. This was passed. Commissioner Frink questioned the right of the city to make a ditch from Menzies Lake to Ludgate Lake. Commissioner Wigmore said the city had bought land which enabled it to go through.

Commissioner Frink advocated direct conferences with the owner of Menzies Lake. He thought this might avoid trouble later. Commissioner Wigmore said they were simply cutting a ditch through their own land between Menzies and Ludgate.

Commissioner Frink said Dr. A. P. Barnhill and W. A. 12 1923 at the Cathedral in St. John's. The Mayor said he had made a study of the matter. He thought it should be taken up soon.

Commissioner Frink urged that the Council spend a thoughtful evening in considering the matter and let no other interest interfere.

Musquash. The city commissioners indulged in some talk on the Musquash situation in view of the conference between the representatives of the New Brunswick Electric Power Commission and the New Brunswick Power Company.

Commissioner Wigmore remarked that it looked as if there was not enough power at Musquash, which prompted Mayor Fisher to say that the repairs to the West Branch dam would be completed soon and storage begun again there. Commissioner Wigmore said the ground was so dry that he doubted if any rainfall of less than a half inch would have any effect.

Commissioner Bullock said the position taken by the commission evidently was this: It had contracted to supply the City of St. John with current at 12 cents and if it could not do it from Musquash alone it would have to live up to the terms of the contract.

A dime looks like a dollar to a small boy. And a dollar looks like a dime to a bootlegger.

### JOHNSTOWN BANK AIDS IN DIVORCE

#### Mismatched Couples Loaned Money To Pay Costs Of Their Suits

Pittsburgh, Pa., Sept. 13.—Lack of funds no longer need prove a hindrance to mismatched couples who would obtain a divorce if they had enough money to pay attorney's fees and court costs, according to A. M. Custer of Johnstown, who is connected with the Community Savings and Loan Company of that city.

In an address here before the Retail Credit Men's Association Mr. Custer said that the newest thing in banking was the extension of credit to couples who sought freedom from the marriage tie. He described the system initiated by the Johnstown bank and said that not a dollar had been lost through the extension of credit to couples who sought freedom from the marriage tie.

Credit in the past had been extended to both wives and husbands, and in some cases had the bank's confidence been abused.

The preamble of the pact, which has also been accepted by the commission, declares that the treaty is based upon a desire to facilitate the application of Article Ten of the League covenant, concerning the maintenance of the territorial integrity of the nations, and to secure the reduction of limitation of armament to the lowest possible point consistent with national safety. International obligations would be enforced by common action.

### Danger Seen In Fiume Situation

(Continued from page 1.) An impasse in the issue with Yugoslavia. The time limit given by Italy to the Jugo-Slavs for a reply to her demands on Fiume expires within 48 hours, so that little time remains for further exchanges. The country remains tranquil and is awaiting the fulfillment of the formalities demanded by the council.

The Government has not yet received official notice of Italy's reported intention of demanding reimbursement for the cost of the Corfu occupation. The official attitude here is that nothing can provoke Greece into war.

### Barcelona Put Under Martial Law

(Continued from page 1.) "The Captain-General of Barcelona," it said, "last night proclaimed on his own responsibility a state of siege in that district, seized the communications and invited other districts to support his action."

"In order to explain this step he published a manifesto to the country declaring that the army called upon the sovereign to save Spain and asking for the dismissal of the present ministers."

"In certain districts it appears the military forces are disposed to concur in this attitude of rebellion."

"The Cabinet is in permanent session and will maintain its position, which it will abandon only under force should the promoters of this sedition decide to follow up their policy, with all its consequences."

"The King will arrive in Madrid today."

A communique issued by the military says proceedings will be brought against the Minister of Foreign Affairs and the President of the Council (the Premier), and that a Government will be established under the military authorities.

The movement, the communique declares, is loyal to the King, being directed not against the Sovereign but the Government.

It is reported that Santiago Alba, the Minister of Foreign Affairs, is under arrest at San Sebastian.

The actual beginning of the revolt occurred when General Llorens, last orders from Captain-General Primo Rivera, took over the Government of the Province of Barcelona, dismissing the former Government.

In the other Catalan provinces the military authorities have taken possession of the Government.

The movement does not seem to have met with difficulties in the Catalan region. Its fate in the rest of Spain is not definitely known.
