SCHOONERS AND BRIDGE.
 There are now two schooners in St. John harbor and a third is being floated in the yard. They are of the class which would be taking cargo if it were offered in the basin above the falls. They could go under the new highway bridge, but not under the new railway bridge as it is at present planned.

GRAIN HERE.
 The C. P. R. is present approximately 2,500,000 bushels of grain at this port. There are 1,500,000 in their elevator at Sand Point, and 500 cars full in the yard, while there are 250 more coming here today or tomorrow. Of this amount steamers in port will take away 485,000 bushels. Yesterday 102 cars were unloaded in the elevator, which filled it to capacity. Steamers are expected weekly to convey the grain to England and European ports.

DUE TODAY.
 The C. P. S. liner Minnedosa is expected to reach port in time to dock between four and five o'clock this afternoon. She is coming from Liverpool and Havre and approximately 800 from Havre, in addition to 2,000 tons of general cargo and a large consignment of mail and parcel post. The cabin passengers are expected to go away this evening in a special train, which will go to Montreal, Toronto and points west.

SCHOONERS LAID UP.
 Two large tern schooners, the Rose Anne Belliveau, Capt. R. M. Comeau, owned by Messrs. Belliveau of Belliveau Cove, Digby county, and the C. Maud Gaskill, Capt. C. F. Granville, hailing from Weymouth, are now tied up at Yarmouth docks. That is a most unusual sight and is something that has not been seen there for many years. Their owners claim, however, that it is necessary, for, owing to the unsettled condition of the freights, to operate the schooners would be doing so at a loss, and in consequence they have put them into dock until spring, when they anticipate and are very hopeful of improved freights offering.

ZERO WEATHER AND BITING WIND

The rapid drop in temperature was accompanied by strong to moderate zales from the northwest, which at times reached a velocity of forty miles an hour. At noon today the thermometer registered one above, and the wind had decreased to twenty-four miles an hour. Fredericton, N. B., Jan. 18.—From a maximum temperature of 33 degrees above yesterday there was a drop to four below during the night. This was accompanied by gusts, which reached a velocity of thirty-five miles an hour.

COPING WITH UNEMPLOYMENT

Some of the Cases That Come Through the Mayor's Office in a Day—Family of Ten Without Breakfast—List Growing.

Despite the fact that nearly fifty men have been placed on jobs through the mayor's office within the last few days, the list of unemployed has grown to more than 600 today. A great many of the names on the list are of returned soldiers, but the percentage of those entitled to government aid is small.

Between thirty-five and forty men have been sent during the last week to the city work of improvement in Millidgeville avenue and four or five men were given positions in the woods.

Long Trip For Nothing.
 Amongst the visitors at the mayor's office this morning was a local man who said that he, with two or three others, was sent by a private employment agency to a lumber camp about eight miles from Laurier station on the Valley railway. He said they went to Laurier by train and walked the rest of the journey to find that the camp had more men than it required. The mayor's caller said he made the whole of the return trip—thirty-five miles—on foot.

A Pitiiful Case.
 Another caller at city hall today was a returned soldier, forty-eight years of age, who is having a desperate struggle to keep his wife and eight children nourished during the present crisis. The children range from one to seventeen years in age, and some of the younger ones are down with the measles. He went overseas in January, 1915, and returned in August, 1918, after having been wounded. He received for a time a pension of \$15 a month but later sold it out to the government for \$300. He said that on account of the sickness in the home one of the older children was unable to go to her work, and the result was that there was not sufficient money in the house to give the youngsters any breakfast this morning.

After hearing the particulars of the case, the mayor's clerk got in touch with the Associated Charities, and a representative of that institution is going today to investigate the circumstances of this family.

See the 1900 Cataract Washer
At Work In Our Window Wednesday

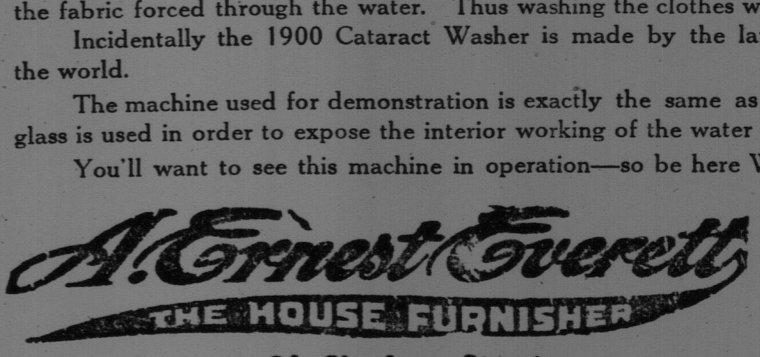

In order that the merit of the 1900 Cataract Washer might be apparent to the women of St. John we have arranged a demonstration of this famed washer in our window for Wednesday, Jan. 19.

The 1900 Cataract Washer is the pioneer of washers—also the peer because of its utmost simplicity, low cost of operation and because it works on the principle which governs the proper washing of clothes—the water is forced naturally through the fabric rather than the fabric forced through the water. Thus washing the clothes with no injury to the fabric.

Incidentally the 1900 Cataract Washer is made by the largest makers of washers in the world.

The machine used for demonstration is exactly the same as the one you'd buy except glass is used in order to expose the interior working of the water etc.

You'll want to see this machine in operation—so be here Wednesday.

Civil and Criminal Matters Before the Judges Today.

Before His Honor Judge Chandler this morning the adjourned case of the Cox Towing Company, Incorporated, of New York, against Dunfield & Company of this city was resumed. This is a claim for breach of charter party. The evidence of Messrs. Dunfield and Harry Heans, local manager of the defendant company, was taken this morning and adjournment made until this afternoon. M. G. Teed, K.C., and H. A. Powell, K.C., appear for the plaintiffs, and J. H. Ralston, of Halifax, and F. R. Taylor, of St. John, appear for the defendants.

In Chancery this morning, Mr. Justice Grimmer presiding, application for the appointment of guardians in the matter of Elsie Vaughan Ryan, infant, was made by Donald White of Halifax. The application asked that Mrs. White, wife of His Honor Mr. Justice White, and her brother, Mr. Vaughan, be appointed guardians. The matter was ordered referred to a master.

Before Chief Justice Hazen hearing was continued in the case of Baird vs. Jones, previously adjourned, a matter arising from alleged breach in connection with the sale of a business. The plaintiff claiming on an alleged promise by the defendant as to not re-opening of business in the city after the sale of the electrical business to the plaintiff, D. Mullin, K.C., appeared for the plaintiff, and Dr. J. B. M. Baxter, K.C., for the defendant.

Speedy Trials.
 Quite a number of cases were disposed of today by His Honor Judge Armstrong under Speedy Trials. Cecil Livingstone, already out on suspended sentence on a charge of theft, was given two years on a fresh charge of a similar nature.

Hugh Johnston, charged with stealing some articles from Arthur Godsoe, was allowed out on suspended sentence. This was his first offence and representations as to previous good character and overseas service were made.

Albert Middleton was remanded on a charge of breaking and entering the shop of James Macaulay and stealing therefrom.

Augustus E. Watters pleaded guilty to a charge of obtaining \$1,400 from the Colonial Hide Co., under false pretences, and was remanded.

Clarence Hill, previously allowed out on suspended sentence was brought before the court and after the evidence against him had been heard, was given another chance.

Alfred E. Bromley and Frank Connors, alias Theodore VanOttly, pleaded guilty to stealing from the shop of R. P. McDonald and were remanded. An effort will be made to have VanOttly deported to the United States, whence he came.

Well Carved Meat
Is Half the Meal

Good carving goes far toward the enjoyment of a juicy roast or tender fowl; and one is always more than justified in paying the difference between good carving sets and those of indifferent quality, as the higher grades are more durable, and their finer finish and better design correspond with other appointments of the well-ordered table.

The Carvers shown in our select assortment are richly enameled, come in three and five piece sets, with buck horn and ivory handles, and are all of thoroughly dependable quality.
