BOYS!

The next suit you have coming to you, tell your mother or dad that you want a Turner suit. Your pal probably gets his there—that's why he's so well dressed. Turner suits are made for "real regular fellers" like you. They are built to let you feel free in them. You can't beat them for wear, style or fit. And what will appeal to your folks more than anything else is that the Turner Boys' Suits cost LESS than you pay for the ordinary kind.

QUENCH YOUR THIRST WITH

Board of Trade Tonic

Enjoy its palate-tickling piquancy. It cools and refreshes, does Board of Trade Tonic, and rouses the lazy warm weather appetite, whetting it to the keen edge that makes you fit for meal time.

Drop in for a Board of Trade Tonic at the

GARDEN CAFE, - - - Royal Hotel

Don't Judge a Carbon Remover

by the Black Smoke which comes out through the Exhaust.

Many Carbon Removers Contain a fusil oil which causes smoke.

D. B. Carbon Remover Contains No Oil or Grease.

The process of removing Carbon with D-B Carbon Remover is similar to the way Peroxide works on a wound. A demonstration on a park plug will show you the effect it has on carbon and the way it works in the cylinder.

THE TEST: Take out No. 1 spark plug (be sure it is warm, not hot). Fill with D-B Carbon Remover. Watch results.

D-B Carbon Remover is the new scientific way of removing Carbon. The chemical action separates the carbon from the metal in such a way that it is pulverized at the first explosion, and passes out through the exhaust.

D-B CARBON REMOVER has no effect on oil; is a help in starting; won't hurt metal, and is GUARANTEED NOT TO INJURE THE MOTOR IN ANY WAY.

Free Trial for the Asking.

LOCAL NEWS

TRAFFIC CASE.
Roy Henderson and David McKay failed to appear in court this morning to answer to charges of exceeding the speed limit in Main street on Sunday evening at 8:20.

BURIED TODAY.
The funeral of Mrs. Maltida Cunningham took place today from her late residence, 44 Millidgeville avenue, to Cedar Hill. Rev. Mr. Spencer conducted services.

PICNIC TODAY.
The Exmouth street Sunday school picnic was held at Grand Bay today. A large number attended, going up by train and motor. The usual games and races were enjoyed. The picnicers were accompanied by the new pastor of the church, Rev. H. E. Thomas.

BASEBALL.
Arrangements have been made for the use of the East End ball grounds, on Wednesday evening when the I. O. G. T. ball team of No. 1000, will play the team of the Exmouth street Sunday school. The game will be played at 7:30 p.m. and the usual games and races will be enjoyed. The picnicers were accompanied by the new pastor of the church, Rev. H. E. Thomas.

LOCAL RIFLE MATCH.
A rifle match was held this afternoon in the north end beginning at 1:30. It was the first match of the Canadian Rifle League and was competed in by three teams of ten each from the permanent force rifle association. The shooting was at ranges of 200, 300 and 400 yards.

POLICE COURT.
The case of G. Langfield was resumed in the police court at noon today and the examination of the books practically completed. Mr. Reicker, accountant of the International Longshoremen's Association was on the stand. The case was adjourned until two o'clock. E. J. Henneberry appeared for the association. One man was arrested last evening charged with drunkenness. He was allowed out on making a deposit and failed to put in an appearance this morning.

A SHOWER.
The many friends of Miss Mollie Long will be interested to read of a shower which took place at the home of Mr. and Mrs. Patis, Milton, Mass., in honor of her marriage, which will take place in September. The gifts included many in cut glass, silver, linen and china as well as many others of a very useful nature. The guests numbered forty-six and all had a very pleasant evening. Very dainty refreshments were served and hearty congratulations were extended to Miss Long.

CHIEF WEATHER MAN IS HERE

Sir Frederick Stupart, in City Today, Speaks of Drought—Expects Break Soon.

That the present long-continued drought is the result of an abnormal distribution of atmospheric pressure and which accompany rain was the opinion expressed this morning by Sir Frederick Stupart, director of meteorological service for Canada, who is at present in the city on a trip of inspection. The drought is widespread throughout Canada, Mr. Stupart said, with the exception of British Columbia, which has more rain than is required. Ontario, Quebec and the maritime provinces are suffering from forest fires and the situation in some places is becoming critical if it is not already so. In the western provinces there have been thunder showers recently, which have done much to improve conditions. Sir Frederick places no faith in the ability of rainmakers' Hatfield to produce rain in Alberta, and ascribes the coming of rain to normal and natural conditions rather than to any success of Mr. Hatfield's schemes.

Forest fires in Ontario are on the increase, he said, and are being strenuously fought by fire rangers and their men. It is many years since such a continued dry spell has been experienced and the results are far-reaching. Even now rain would do no good to the hay crop, as it is gone beyond recall. It is estimated that there will be about a two-thirds hay crop. He expressed belief that there would be a break in the weather in the near future.

Sir Frederick Stupart is engaged in making inspection of some of the meteorological observatories in the maritime provinces. He had visited Halifax, Sydney and points in Prince Edward Island. St. John is his only stopping place in New Brunswick. His inspection of the local observatory was carried out today, and he expects to leave tonight or tomorrow on his return to Toronto.

BETTER REPORT FROM NEW CITY WATER TESTS
Following up the matter of the purity of the city water supply, Dr. H. I. Abramson, provincial pathologist, has made an examination of four samples, two taken in the city and one each at Loch Lomond and Lake Latimer. His report will be presented to a meeting of the board scheduled for this afternoon. Although the details of the examination have not been given out, it is understood that the result is much more satisfactory than previous tests.

Commissioner Jones yesterday examined the screens through which water passes into the mains at the outlet of Lake Latimer to ascertain if any fish had become entrapped. He said this morning that he found the screens were clear. Mayor Schofield, Commissioner Jones and members of the board of health will go this afternoon to Loch Lomond and Lake Latimer to examine conditions there.

Commissioner Jones and his superintendent examined all the hydrants in the low-lying sections of the city this morning and reported that outside of a little rust in those hydrants which had not been used for some time, there was no trouble experienced.

TWO HOUSES IN EAST ST. JOHN BURN

Homes of Timothy Chaisson and Jacob Pynn.

Loss Placed at \$11,000 or \$12,000. With Some Insurance—Outbreak in the Early Morning—But Little Saved.

Within a couple of hours two fine new dwellings and their contents were destroyed, entailing a loss of between \$11,000 and \$12,000, and sixteen people are homeless as the result of fire which occurred between five and six o'clock this morning in Park avenue, East St. John. Only the foundations and chimneys of the homes of Jacob Pynn and Timothy Chaisson remain, and the stricken families this morning are receiving the sympathy and help of the community.

While the origin of the fire is not definitely established, it is known that it had its origin in the house of Mr. Chaisson. He said that his son, Albert, arose about five o'clock this morning and lighted the fire in the kitchen stove, returning to bed as had been his custom. A little before six o'clock Mr. Chaisson was awakened by the smell of smoke and, going down stairs found the kitchen in flames which were gradually eating through the ceiling to the upper floor. He managed to get his wife and eight children from the house before it was all afire.

Separated from the Chaisson home by only a few feet was the house of Mr. Pynn. Everything on the countryside was honeycombed and it was not long before the outer wall of his home was on fire and about an hour later nothing was left of the dwelling but a heap of smouldering ashes from which reared a chimney and the outside concrete wall. Scattered through the ashes were a few indestructible articles such as stoves and metal utensils.

The Chaisson family saved practically nothing but the few clothes they were able to snatch in their hasty exit to safety. Mr. Chaisson, who is a carpenter by trade, built the house about two years ago at a cost of about \$3,000, and has \$2,000 in insurance. His future, which he valued at about \$1,000 is only half covered by insurance.

Mr. Pynn was also the owner and builder of the dwelling in which he resided with his wife, two children, and his parents-in-law, Mr. and Mrs. Frederick R. Philip. In the house was the furniture of both families. It was not until his own house had caught that Mr. Pynn was aware that there was danger and although he and Mrs. Pynn had two children were able to escape without difficulty, Mr. Philip had to be lifted through a window and even then was slightly scorched. Mr. Pynn valued the house at about \$5,000 and the contents at \$2,000. The dwelling is insured for \$2,000 and the furniture for \$500. All the insurance on both properties is carried by C. E. L. Jarvis.

A few household effects were taken from the Pynn home before it was entirely enveloped, but so rapidly did the flames spread that salvaging operations had to be stopped in a very short time. A great many of the residents of the vicinity gathered and offered assistance but there was very little they could do on account of the absence of fire fighting equipment and water.

Fire Department Called.

A telephone call was sent for the fire department and No. 1 chemical engine responded, but the flames had made such progress in the houses that the service was of no avail. A stream, however, was placed on a small shed at the rear of the Pynn home and it was saved after being slightly scorched. Chief Blake was present and directed operations. Both families lost most of their personal effects, including jewelry and other small valuable property. The only clothes they have are those in which they stood as they gazed on the remains of what were their homes early in the morning. Mr. Chaisson saved hardly anything except an organ which was near the door on the ground floor. Mrs. Chaisson was somewhat indisposed after the fire and after being taken to the home of a neighbor was attended by a physician. It is not expected that any serious results will follow.

Charles Russel placed at the disposal of Mr. Pynn and his family a vacant residence which stands almost opposite the scene of the fire in Park avenue.

HAPPY DAYS

R. K. Y. C. Cruise is to Begin on Next Saturday Afternoon.

The annual cruise of the Royal Kennebec Yacht Club of Millidgeville will start from the club house on Saturday afternoon, July 16, at 2:30 p.m. The destination is to be Fredericton, with stops along the river. The annual church service will be held on Sunday, July 24th, at Sand Point, on the St. John river, Rev. Dr. J. A. Morrison, the club chaplain, will officiate. The following yachts are expected to take part in the cruise: "Yagabond," Vice Com. Walter J. Logan.

"Louisa," Harry Heans.
"Wanderer," Fleet Capt. James Barnes.
"Atlanta," J. Fraser Gregory.
"Canana," J. Walker.
"Sunol," M. Wilson.
"Scout," Roy Smith.
"Gracie M.," Robert Anderson.
"Canada," Fred S. Heans.
"Wingene," George Wilson.
"Stix," Gordon Holder.
"Suffragette," T. T. Lantulum.
"Nena," Rear Com. Geo. Mullin.
"Harold Bustin," Harold Bustin.
Walter J. Logan, vice commodore, said today that the R. K. Y. C. extends a cordial invitation to any boat owner of the St. John Power Boat Club that would like to go on the cruise and spend a week on the river with the boys, to go along and join with them in making it a good cruise. This also includes members of any outside clubs.

ENGAGEMENT.
Judge Jonah and Mrs. Jonah, Sussex, have announced the engagement of their daughter, Frances Annett, to George Malcolm Carson, of Cyprus River, Miramichi.

Serviceable House Dresses

AT

Most Moderate Prices

A HOUSE DRESS is one of the most useful and serviceable garments included in a lady's wardrobe. The big feature of a House Dress is that it not only wears well itself, but it is such a saving on other clothes. Come and look at these—they have style and comfort combined with durability.

Let Us Place A Washing Machine or Vacuum Cleaner In Your Home FREE?

The family that has a Eureka Vacuum Cleaner or the A. B. C. Washing Machine is the one family in your street that is getting MORE work done and in the shortest possible time.

You will eventually get one or both of these wonderful time and labor savers; and, to steal a phrase from a famous flour ad., "Why not now?"

Here's a proposition this store makes to you:

Take your telephone or pencil in hand and tell us to send to your home for FREE trial one or both of these machines; or come in person on the same errand, and we will place these machines in your own home, send an experienced man to demonstrate the machines, and you can have these wonder workers work for you without cost or obligation, implied or apparent.

This means much to you at this time of the year. Bad enough to wear away the hard face of the washboard on normal days—to say nothing of these days with Old Sol hitting right and left. Or to spend the afternoon pounding away the surface of the carpet with a broom, when a Vacuum Cleaner will clean in the natural way in a jiffy.

We've thrown out the suggestion. Will you accept? Then 'phone Main 353.
