

# THE HUMAN BODY IS AN ELECTRIC BATTERY

**Startling New Discoveries Prove Beyond All Doubt That "Electricity is Life."**

**Men of Science Demonstrate the Value of Electricity As a Cure for Disease.**

**Remarkable New Invention Meets With Great Success.**

That the human body is electrical is no longer a mere theory among scientists and up-to-date physicians. It is generally conceded to be an absolute fact.

Professor Edgar L. Larkin, discussing the new physiology, writes as follows:

"A man, brain and body, is a battery, and nerves correspond to wires. It is now certain that transmission of sensation over them is electric. Nerves have been cut and a galvanometer inserted. The needle moved, proving that nerve power is electric. The human system is an electro-chemical battery and the life principle is electrical. The electric age is here. Drugs are hard hit on all sides, and an intelligent physician tells me he has almost entirely stopped their use. The word health now means a normal supply of electricity in the body and the word disease means an insufficiency of that power."

Dr. Albert J. Atkins, the eminent California scientist, is still at work proving that every principle in what we call our electrical science is merely borrowed from the human body. We propel railroads, trains and automobiles by means of electricity and think it wonderful, but the human dynamo has always known how to propel itself with skill and almost absolute safety in either walking or running, and now Dr. Atkins shows us that the millionaire in his automobile and the hobo on foot are alike carried forward by electrical force.

"With a man's stomach as the only electric battery," says Dr. Albert J. Atkins and E. J. Lewis recently charged an ordinary telephone apparatus so that it conveyed sound," says a San Francisco morning paper.

"It demonstrates that the human body is an electric battery."

"The experiment consisted in the swallowing of two platinum electrodes, so that they touched the walls of the living stomach."

"By means of copper wires the electrodes were connected with a telephone and a microphone, a sensitive instrument which greatly intensifies sound."

"There was absolutely no mechanical or chemical battery in the circuit, yet the moment the electrodes were swallowed sufficiently to touch the walls of the stomach, human electricity flowed over the wires rendering audible sounds. The electric charge measured from seven to eight volts on a western galvanometer."

## Find Cure for Appendicitis

Dr. Harvey Archibald, of New York city, has discovered that appendicitis yields to the action of electricity pretty nearly as mists are dissipated by the sun. When a case of appendicitis comes into Dr. Archibald's office, the physician trains the powerfully penetrating electric ray upon the sore spot. Right away the swelling goes down and the excruciating pain stops short. And after five or six days, Dr. Archibald says, the cure is always complete.

## Electricity the Basis of Human Vitality

Professor Jacques Loeb, after 10 years' research and experiment, made this statement:

"A part of the chemical energy of foodstuffs is transformed into electrical energy, which in turn gives energy to the muscles and organs of the body. Electricity, and not heat, is the life of the body. These discoveries are going to upset the theories of medicine as administered by the physicians of today, and it is settled that electricity is the basis of human vitality."

The new cure is nothing more or less than the process of bombarding the congestion about the appendix with electric rays and a high-frequency current. The treatment causes the blood to return to the central circulation system, the congestion departs for the simple reason that the cause of the congestion has been removed—and that's the end of the appendicitis.

## Keeps Old Age at Bay

"Electricity will restore elasticity and buoyancy of youth," declares a famous New York physician, writing in the Medical Times.

"No matter how old a man may be nor how young in years, whenever his arteries begin to harden, to resist the increased pressure of the blood, then he actually is old. Then the electric treatment must be applied, and after a few times nature takes up the work and carries it on, and the patient gets young again—or at least he is able to resist the encroachments of old age."

"By electric stimulus the system is energized, the blood made to circulate equally, the digestion aided, the waste products stimulated, the repair tissues are assisted and the normal working of the bodily functions restored."

## Electricity Will Supersede Drugs

I maintain that electricity is the power which runs the human body—the force that keeps the heart going, the blood circulating and the various organs performing their functions like so many machines. I claim that electricity works the miracle of digestion and assimilation and converts the food into blood and bone, tissue and muscle and supplies the brain with power to think.

I have had my theories confirmed by the world's most learned scientists and today the use of electricity as a curative agent is spreading to every corner of the civilized world.

While others were speculating and arguing over the merits of electric treatment, I have gone ahead achieving results and I can point with pride to men and women in all walks of life who regained their health and strength through the use of my Electric Body Battery.

Before I talk further regarding the use of my appliance you must understand that the human body is an electric organism, deriving its motive power from the digestion of food in the stomach. This electric force

generated in the stomach is taken up by the nerves and conveyed to the different organs of the body, and is their life. So long as there is sufficient electric energy to satisfy the demands of nature, the vital organs perform their regular functions properly, but just as soon as the natural electric force is overtaken in any way the organs become weak and inactive and sickness or disease is the result. Now, you can't cure the trouble until you restore the lost force. Nature must have more electricity, or vitality, as it is termed by medical men, in the ailing part. You can't renew this force by dosing the stomach with poisonous drugs, which only help to drain away the vitality that you have. When every organ of the body has all the motive power—electricity—it needs, weakness and disease can not exist.

Now, the purpose of my invention, is to restore this electric force in a natural, scientific way. When the stomach is unable to supply the demands of the vital organs you must assist nature by filling your nerves with galvanic electricity.

My appliance is a generator of a powerful but soothing current of electricity, worn about the body while you sleep. It sends a subtle stream of electric life coursing through the nerves and vital organs for hours at a time. Its touch is gentle, without sting or burn. There is no shock. All you feel is a glowing warmth.

Electricity fills the nerve cells with new life. It drives out pains and aches, builds up vitality and strength and cures to day such troubles as lung, kidney, nervousness, rheumatism, insomnia, female complaints, varicose veins, weakness of any kind and all stomach, kidney, liver or bowel disorders.

## The Product of Experience

I have devoted years to the perfection of my appliance. I have removed all defects as fast as they appeared in actual use, and have supplied new features from time to time, so that my appliance is in a class by itself. The current can be regulated to any degree of strength by the pressure of a finger upon the regulator arm.

Compared with mine, all other electric body appliances are products of the blacksmith's hammer. It is not upon this point, however, that my success has been founded. My immense business is due to my knowledge of the effect of electricity upon the ailments to be treated and the best way to obtain that effect.

I study the effect of electricity upon the ailments to be treated and the best way to obtain that effect. I explain how the application of my appliance may be suited to the demands of each particular case. When you consider that electricity is life to the organs into which my appliance sends it, you can see how we get our results. My success is due to the cures effected by my appliance. If I did not cure, my business would have died out long ago.

When I say that my appliance cures, I don't ask you to accept my word alone as evidence. I can refer to people who got back their health through the use of my appliance, and they will tell you what it did for them.

## Here is Proof

Rheumatism quickly removed. Electricity dissolves the acid and strengthens the kidneys.

RHEUMATISM CURED—NEVER FELT SO WELL FOR THIRTY YEARS.

Cochrane, Que. Dear Sir—I cannot say too much for your Belt. I consider it completely cured me of Rheumatism and I never felt so well for the last thirty years. I would recommend it to any rational man suffering from weak or kidney disease. I only wore my Belt for one month.

Yours truly,  
WILLIAM HONAN.

## A REMARKABLE CURE OF PARALYSIS.

Blanche, Que. Dear Sir—No doubt you have forgotten me, for I bought my Belt from you twelve years ago, and after wearing it for three months, was cured, and have been well until this summer, when in July I had a stroke which paralyzed my arm and one leg. I have been under treatment with hot baths and have used an electric battery on my arm and leg, and although I could walk a little, still I had pain, so I thought I would try my old Belt, and to my great surprise, after wearing the Belt for one night, I had no more pain, and after using the Belt one week, I started having and helped make fifty-two loads of hay, with only one man to help me. I have used the Belt every night, and have done a lot of work at harvesting since then. I know that my Belt gives me great strength, and I do not believe in using drugs.

Yours very truly,  
CHARLES JACOBSON.

## CURED OF LUMBAGO.

Dear Sir—I write to let you know of the success of your Belt. Before getting it, some of my friends tried to persuade me that I was foolish to get one. But I had a sort of faith that the Belt would help me, and it has. For two months before I got your Belt, my wife had rubbed my back night and morning, with all kinds of liniments, salves, etc., most all of which I got from local doctors. Since I have used the Belt, all the hand rubbing has ceased, which has been a great comfort to my wife and myself. I had Lumbago, and I had it probably worse than you suspected.

Yours respectfully,  
FRED CHAPMAN.

## BELT CURED WHERE DOCTORS FAILED.

Dear Sir—I have worn your Electric Belt for about three months now, and now I feel like a new man. I have had doctor after doctor, and they have failed to do me any good whatever. Therefore, I must say, that I cannot recommend your Belt too highly, and I intend, that wherever I may go, or wherever I may come in contact with, to recommend it as a sure cure.

Sincerely yours,  
HERMAN O. COOK.

Originals of above statements can be seen at my office, 214 St. James street, Montreal, Que. Copies of these and hundreds of others, together with an 84-page book telling all about this home electric treatment by my body appliance, are furnished free if you will send or call for them.

"THE WORD HEALTH NOW MEANS A NORMAL SUPPLY OF ELECTRICITY IN THE BODY AND THE WORD DISEASE MEANS AN INSUFFICIENCY OF THAT POWER."—Professor Edgar L. Larkin.

## Health Without Drugging

M. d'Arsonval, a well-known savant of the Physiological Institute of Paris, in an address at the Institute, said that electricity would be the medicine of the future. He showed that it is excellent for certain maladies and described the difference between sudden shocks and the slow method by which it pervades the system without the patient's consciousness.

## Electricity is Nature's Medicine

Professor Andrew MacConnell, president of the Society of Universal Science, in a recent essay, made this statement:

"The only difference between a well man and an invalid is that the invalid is not producing enough electric power to run the functions of his body and keep the vital organs up to the necessities of life."

"With some 200 scientific experiments from recognized scientists it has been conclusively proved that Drugs are poisons, and poisons wreck the nerves."

## HOW THE NERVOUS SYSTEM CONVEYS ELECTRICITY TO ALL PARTS OF THE BODY

TELEPHONING WITH POWER FURNISHED BY THE HUMAN STOMACH

"This power is electricity; that by understanding the laws governing the production and control of electricity in life, any human can cure himself in a few weeks, can increase his working capacity, can increase his vitality to the point of having an overflow of happiness and joy, and also that any person feeble from age, may in the same way regain his youth."

"When one falls into any form of disease, he simply does not produce as much electricity in his body as when well. We see, too, that age is just like a disease, that one begins from ignorance of the laws of electric production to gradually decrease his generation of electricity until he finally reaches the point where he is unable to produce enough to keep his vital organs running. This means death. The same amount of electricity in a man of 70 would make the same power as a man of 30. This proves the prolonging of life a scientific matter of keeping the production of electricity up to the normal needs of the body."

## The Danger in Drugs

Many people believe that when a drug gives relief it is doing good. That's a big mistake. Drugs can only give temporary relief, and it is always at the expense of the nerves and vital organs.

If you have a pain or an ailment of any kind, you don't want to fool yourself into the belief that you are getting well when you are not. That's all you do when you dose yourself with drugs.

It is easy enough to stop a pain by stupefying the nerves with poisonous drugs, but the pain will return as soon as the stupor passes off. You can force a weak organ to act by giving it a powerful stimulant, but you can't restore its natural strength that way, and it will be weaker than ever when the drug stops working.

That is why temporary relief is dangerous. Drugs do not remove the cause of the disease and every minute that they give relief the disease is getting a firmer hold upon your system. As long as the cause remains the trouble stays there, and the only way to get rid of it is to assist nature. Nature wants strength, vitality, power to fight disease and drive it out, not poisons which only make it worse.

Electricity is nature's medicine, and the proper use of it will restore you to perfect health. Disease always results when you break nature's laws. If you continually overwork the stomach you will have stomach trouble. If you abuse any organ of your body you must suffer for it afterward. Then the real cause of disease is due to the weakness or inactivity of some part of the body machinery. The reason any organ breaks down or fails to work properly is because it has not enough vitality to withstand the strain when it is overtaxed. This vitality is nothing more than electricity, the motive power of the human body. Now, to cure the disease, you must renew the vitality or electricity of the part that causes the trouble. When this is done the disease can not exist, for the cause is removed.

## Electricity for Weak Nerves

A great many people suffer from ailments caused by weak, impoverished nerves, and try to cure these

PROF. E. L. LARKIN

## RESTORING THE BUOYANCY OF YOUTH BY ELECTRIC TREATMENT.

If you are weak, run down, nervous and ambitious; if you suffer from frequent headaches, and have spells of despondency, it means that your nerves are starving for new energy.

My appliance saturates the nerves and vital organs with electricity and drives out pain and aches.

It builds up strength and vitality in every weakened organ and drives out pain and aches.

If there was any nourishment in drugs, they might do some good, but you know there is not.

Drugs are drugs, stimulants, narcotics, antidotes, poisons, not food. Electricity is life. It soaks into the nerves, and transforms the sluggish into a bundle of vigorous energy.

Because you have experimented with faradic batteries and bells, or taken electric treatment from physicians without being cured, is no reason why my method should prove a failure. The doctor's battery can only be applied for a few minutes at a time, and that is not enough to effect a cure. Besides, that method is inconvenient and expensive. My appliance can be used all day or all night without interfering with your work or rest. It takes up none of your time.

My appliance cures rheumatism in its worst form. It cures pains and aches, weak nerves, general debility and any other trouble which can be cured by restoring life force.

No matter where you live, you can use my appliance as successfully as if you could come here to my office.

Books Worth \$2.00 Free

To any man or woman who will mail me this coupon I will send free (closely sealed) my finely illustrated book regarding the cause and cure of disease. The book is written in plain language and explains many secrets you should know. One especially for men; also one for women, 84 pages.

Don't spend another cent on doctors and their worthless medicines.

Electricity cures to stay cured. You should know about it.

Don't wait another minute.

Cut out this coupon right now, and mail it. I will send the book without delay, absolutely free.

M. C. McLAUGHLIN, 214 St. James St.

Montreal, Que.

Dear Sir—Please forward me one of your Books as advertised.

Woman Saved From Dangerous Operation

A large percentage of women's ailments are so perplexing that operations are often recommended by physicians. Such operations are not only dangerous, but they sometimes cause serious complications.

My appliance cures women's ailments without the need of any operation. It restores the vitality and strength of the body, and drives out all disease.

My appliance cures women's ailments without the need of any operation. It restores the vitality and strength of the body, and drives out all disease.
