It's a Winner Every Time

The girl who can resist a diamond ring—especially when offered by an eligible "him"—is indeed very scarce nowadays. And by the way, so is the man who not give his affianced such a ring when he can get it so reasonable in our store.

When thinking of buying a watch ask for the "Regina." We have the official agency and issue a universal guarantee.

SIBLE STUDY DRAWING

MANY TO Y. M. C. A.

Interesting Discussions Around the Open Fireplace on Sunday Afternoons.

A gathering of an unusual nature devoted to the study of the Bible, which is conducted in the Y. M. C. A. by W. M. Kingston, which was organized last fall, has steadily grown in interest and attendance until now over sixty are enrolled. The association does not believe in competing with existing institutions and so the membership is open only to those who are not connected with any Sunday school or Bible class. At 2.30 each Sunday afternoon the members meet around a big log fire in the Y. M. C. A. and under the leader's guidance take up an analytical study of some portion of the Bible. At present the life of Christ is being studied and tomorrow's subject will be the sermon on the mount. The class is extremely informal in character and the discussions are participated in by all the members. No one is embarrassed by being asked direct questions and the contributions are purely voluntary.

The class was organized recently and now has the following officers: U. E. H. Buchanan, president; G. H. Watson, vice-president, and C. R. Halsey, secretary. It is open to any man who wishes to join, subject to the restriction mentioned above.

HAMILTON FACTORY

AGAIN IN OPERATION

Less Than a Month From Date When It Was Destroyed—Vast Improvement in Building and Equipment.

Out of the ashes of the old Hamilton and Gay factory has arisen a new structure, modern, convenient and well equipped, and in less than a month from the disastrous fire, which on January 28th, threatened to wipe out this promising industry, the mill is again working busily.

A temporary boiler and engine room have been erected which will be replaced during the summer by a fire proof brick building. A new engine has been installed and has been running since last Tuesday. The dry kilns have been finished and are receiving today a large stock of lumber. Steam will be turned on Monday in the drying apparatus.

The new plant will be much better than the old one and in no department will the improvement be more noticeable than in the dry kilns. Labor saving devices installed will so minimize the work that two men can now handle the lumber where seven were required before. The stock is unloaded direct from the cars into one end of the kiln and when ready for use will be taken out of the other end. Tracks have been laid to facilitate the handling of the lumber when it gets into the mill and an elevator will be used to raise it to the upper floor.

The rafters of the main building are being put in place today and before long the work of construction will be completed. The new plant will have a floor space of 16,000 square feet, enough to accommodate the growth of the business for some time.

Every building is being sheathed with galvanized iron and one result of this improvement will be a much lower insurance rate and a consequent saving in premiums.

Already some of the machinery is in operation, the planer and rip saw having been started today. The big moulder and moulder will be ready by Tuesday and by the end of the week all the machines will be running.

On the lower floor will be located the rotary and self feed rip saws, the bed planer, the band resaw, the moulder and several smaller machines. The moulder is a large machine and will have a capacity of 10,000 feet a day. Listra's will be found the moulder, mitering machine, rip saw, adjustable cut saw, miter, attacker, tenoner, double headed variety moulder, the turning lathe and some other minor pieces of apparatus.

To operate the new plant A. E. Hamilton, the former owner, is organizing a stock company, under the name of The Hamilton Woodworking Co., Ltd., with a capital stock of \$75,000, of which \$50,000 is common stock which will be held by Mr. Hamilton. The balance is in the form of preferred stock and \$20,000 is being offered for subscription, the remainder being held in the treasury. The shares are of \$100 each.

Considerable stock has been taken up already, and subscribers being: Thea, Nagle, Stetson and Carter, W. Tennant, Emerson and Fisher, Ltd., J. M. Queen, Dr. Mott, John O'Shea, J. M. Queen, W. E. Earle and T. H. Eastburn. The willingness with which it is being taken is substantial proof of the new faith in St. John and its industries which has lately been making itself felt in the community.
