

MILES
BRITISH TROOPS CAPTURE GOUZEAUCOURT WOODFIELD MARSHAL HAIG'S MEN
CONTINUE ST. QUENTIN PUSH

Advance Progresses in Spite of Prevalence of Heavy Rain, Over Ground Deep in Mud --- British in Outskirts of Gouzeaucourt—Further Gain in Flanders.

British Army Headquarters, Sept. 9.—(Canadian Press despatch from Reuter's Ltd.)—British troops have captured Gouzeaucourt Wood.

With the British Armies in France, Sept. 9.—(By The Associated Press)—In Flanders the British have gained another 1,500 yards to the west of Wyttschaete and from reliable sources it is learned that the Germans have removed virtually all their artillery to the east of the River Lys to cover the lines they held prior to their April offensive.

West of the Lys the Germans had left only old or captured guns which they had planned to destroy or abandon when the time came.

Quentin Front

The advance on the Quentin front progressed in spite of the prevalence of heavy rain, over ground deep in mud. A fresh German division has arrived in this sector and the enemy resistance as the rearward movement goes on seems likely to be stiffened somewhat before the Hindenburg line is finally reached.

Heavy artillery duels were reported at many places along the line. The thrust launched by the British just to the north of the Arras-Cambrai Road seems to have made some progress. Further south the British were on the outskirts of Gouzeaucourt, with the line being steadily drawn around Pelzere and Epehy. The enemy machine gunners have been offering strong resistance in this neighborhood.

German Guns Busy.

British forces have advanced to the east of Ronsel, about seven miles east of Peronne, and Ronsel is now under a heavy fire from the German long range guns. The enemy is reported to be leaving Hendecourt, southwest of Gouzeaucourt, in response to continuous pressure. The crowded enemy trenches at Oppy, east of Arras, are being gassed. Fires continue to burn at some places and within the last few hours, fires have been observed in Douai. Further indications of growing discontent in certain sections of the German army have been received. A number of Germans recently captured were formerly in Russian captivity. They express themselves most bitterly against their military leaders.

Made The Goats.

They say they have been told they would be used on the line of communication but instead they were put through the field recruit departments and placed as infantry in the trenches.

Many Germans are becoming increasingly worried over the prospects of winter, not only for themselves but for their families, who in many cases, according to the Germans who were captured, are near starvation. Nearly all the German soldiers going home on leave are taking with them to their families whatever food they can lay their hands on at the front and in as large quantities as possible. Many captured letters to the Germans at the front mourn the lack of food and warm clothing.

BEAUTIFUL SETTINGS EMPLOYED IN SPECTACULAR PRODUCTION OF "BLUE BIRD."

"The Blue Bird," the big Master-Link spectacle which will be shown at the Imperial theatre next week has established new records in film production, presenting the largest settings ever staged inside a studio, among them the Black Palace of Night, the Palace of Luxuries, the Cave of Miseries, the Azure Palace, Memoryland and the Cathedral of Happiness. In each of these settings scenes are shown which would ordinarily constitute an elaborate feature photoplay. The greatest number of actors—not supers—ever assembled in one picture appear in "Blue Bird," aggregating about 1,000. There are many specialties in which prominent players of the stage and screen take part. Rose Roland, the well-known dancer, leads a ballet in symbolical dance numbers. In photographs the picture 150,000 feet of negative was used. A great deal of this was in multiple, triple and quadruple exposures. The story is a philosophical dissertation upon life, endowing all things with life and speech, and giving glimpses into the hereafter. The dead awaken, with messages for the living, and the unborn are shown impatiently awaiting their advent upon the earth.

Garnet Wigle.

Halifax, Sept. 9.—News of the death of Campbell, N. B., of Garnet, son of Rev. Hamilton Wigle, was heard with sorrow by his many friends and friends of the family here.

An audience in themselves. Much of an audience at the opening performance of the new show. "Yes, all the collaborators were there."

will return again Thursday to play "Rip Van Winkle." The veteran actor and his amiable wife are always sure of a warm welcome in McAdams. Rev. Mr. Buchanan occupied the pulpit in the Union Church on Sunday.

Mr. Roy Gehan of the United States Aerial Service is visiting his father, Mr. Walter Gehan.

Mrs. G. Magee of St. George, accompanied by Miss Zena Galloway, spent a day in this place last week. While here they were guests of the latter's mother.

The remarkable astringent action of the axolite so tightens the skin, wrinkles are literally pressed out. Best of all, this result is not purely temporary, for the lotion also has a beneficial tonic action, which tends to strengthen and tone up the weakened tissue, and added benefit may be expected with continued use. Use this once a day for awhile; it cannot injure the most delicate skin. The treatment itself leaves no trace—no one guesses the secret of your increasing youthful appearance.

It's Easy Enough

to keep the liver right if you use Dr. Chase's Kidney-Liver Pills occasionally.

The liver gets lazy at times and when it does digestion is interfered with and the kidneys fail to act.

You soon know it when the liver is awakened by this treatment, for headache, biliousness and stomach troubles disappear and you feel fine. This is an easy prescription for health and happiness.

How To Banish Wrinkles Quickly

If your face is disfigured with wrinkles, no matter what the cause, you can quickly dispel every line, even the most obstinate, by using a simple, home-made wash lotion. Merely dissolve an ounce of powdered axolite in a half pint witch-hazel— inexpensive ingredients found in any drug store. Bathe the face in this, and presto!—you scarcely believe your own eyes when you look into your mirror and behold the marvelous transformation!

The remarkable astringent action of the axolite so tightens the skin, wrinkles are literally pressed out. Best of all, this result is not purely temporary, for the lotion also has a beneficial tonic action, which tends to strengthen and tone up the weakened tissue, and added benefit may be expected with continued use. Use this once a day for awhile; it cannot injure the most delicate skin. The treatment itself leaves no trace—no one guesses the secret of your increasing youthful appearance.

THEY NEED YOUR HELP!

If it were possible to take every Canadian out into the heart of this bloody struggle, and there, for one month let him experience the deprivation, sacrifice and suffering our dear boys are enduring in their great battle for the freedom of the world, this fund of \$500,000 for their relief would be many times over-subscribed.

Have you ever missed a meal, been caught in a cold, drenching rain, fatigued, weary and chilled to the bone, and some one gave you a cup of hot coffee? Have you ever been in a strange place for hours and hours, in the broiling sun, sleepy, hungry, aching for rest, and some one took you in, gave you a place to sit, something to eat and a chance to sleep? Have you ever been homesick, lonely and "blue," and cheered up, "made over" by some old familiar music?—Then you know in a small way what "army huts" do for our brave heroes.

WON'T YOU GIVE HIM WHAT YOU WOULD WANT
IF YOU WERE "OVER THERE?"

Laugh When People
Step On Your Feet

Try it yourself then pass it along to others. It works!

Ouch! ? ? ? This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called frezone when applied to a tender, aching corn stop soreness at once and soon the corn dries up and lifts right out without pain.

He says frezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of frezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet.

Millions of Americans, some will welcome this announcement since the inauguration of the high heels.
